

# Environmental Consultant List

This is a list of consultants who have indicated they have capabilities to perform spill response and cleanup activities.

This list is not an endorsement of any company nor is it a guarantee that a company can provide the services listed.

All parties using/referencing this list should perform their own due diligence review before hiring any environmental consultant.

## Petroleum Certification Requirements:

The Board requires that all contractors/consultants performing petroleum assessment and petroleum cleanup activities in South Dakota be certified. For information about petroleum certification requirements, contact the South Dakota Board of Technical Professions ([https://dlr.sd.gov/btp/petroleum\\_release\\_services.aspx](https://dlr.sd.gov/btp/petroleum_release_services.aspx)) by calling 605.394.2510.
