

Environmental Consultants List

This is a list of contractors who have indicated they have capabilities to perform spill response and cleanup activities. This list is not an endorsement of any company nor is it a guarantee that a company can provide the services listed. Parties are encouraged to perform a due diligence review before hiring an environmental consultant.

The South Dakota Board of Technical Professionals require contractors performing **petroleum assessment and petroleum cleanup activities** in South Dakota be certified. Please contact their office <https://dlr.sd.gov/btp/> for certification requirements.
