Information on how to certify your field as weed free is available on our website.
Updated as of 6/18/2026

We have been made aware of a potential shortage of certified weed free hay in the Black Hills Region. Though we are not endorsing any one business, research has found that there are stores in the Black Hills area that do carry certified weed free hay. This is not a complete list of locations that may carry certified weed free hay. Please contact these and other possible stores in the Black Hills area prior to arriving to make certain they can meet your needs.
