

SRAM/RBI Stack

The Riparian Buffer Initiative (RBI) and Seasonal Riparian Area Management (SRAM) programs will be layered out to 120 feet and then SRAM operate in accordance with 319 guidelines. SRAM rate can extend to 100-year floodplain and will always be based off pastureland rate not cropland.

Ex. 20 Acre Pasture Rental Payment and Incentive Minnehaha & Moody County:

Marginal Pastureland (PER)	<u>\$73.00 (per acre)</u>
RBI Program Rate	<u>$\\$73.00 \times 120\% = \\87.60 per ac</u>
SRAM Program Rate	<u>$\\$73 \times 125\% = \\91.25 per acre</u>
Total Annual RBI+SRAM Rent	<u>$\\$178.85 \text{ per acre}$</u>
SRAM Program Rate (adjacent to RBI+SRAM)	<u>$\\$140.00 \text{ per acre}$</u>

Combined Annual RBI+SRAM Rental Payment = $\$178.85 \text{ per acre} \times 10 \text{ acres} = \$1,788.50$
10-year contract = \\$17,885.00

Annual SRAM Rental Payment = $\$140.00 \text{ per acre} \times 10 \text{ acres} = \$1,400.00$
10-year contract = \\$14,000.00

Final Combined Payment = \\$31,885.00

SRAM/RBI Extension

Both programs will stand alone. RBI will extend out to 120 feet and then SRAM will follow 319 guidelines to incorporate additional acres to 100-year floodplain extent.

RBI payment will be 250% of NASS rate and SRAM payment will follow 319 guidelines on additional acres.

Ex. 20 Acre Pasture Rental Payment and Incentive Minnehaha & Moody County:

RBI Program Rate (Initial 120 feet from streambank) \\$157.50 per ac

SRAM Program Rate (additional acres adjacent RBI) \\$140.00 per acre

Annual RBI Rental Payment = $\$157.50 \text{ per acre} \times 10 \text{ acres} = \$1,575.00$
10-year contract = \\$15,750.00

Annual SRAM Rental Payment = $\$140.00 \text{ per acre} \times 10 \text{ acres} = \$1,400.00$
10-year contract = \\$14,000.00

Final Combined Payment = \\$29,750.00
