**Date:** Friday, February 03, 2017 8:44:21 AM

---

Rick,

South Dakota is working on the Beneficiary Mitigation Plan necessary for states to receive the money resulting from the Volkswagen partial settlement you have inquired about. The development of this plan includes reaching out to the public for input on how to best use the money to reduce nitrogen oxide emissions from motor vehicles in South Dakota. I will maintain your information and notify you when we are ready for public input.

Thanks for your interest!
