Comments :

I am very much in favor of the increase from 5% to 15%. I am getting set up to be a service and sales dealer for EV vehicles. I am in need of funds to help move things along faster. The area of Spearfish SD is very short on charging stations and service facilities for EV vehicles. Being in a heavy tourism area and on I-90 it is a great location to take care of the future EV needs of the public. Thank you Todd Jensen
