Comments :

I'm writing in support of raising the Category 9 - Light Duty ZEV Supply Equipment allocation to 15%. South Dakota will benefit greatly from adding L3 DC fast chargers, both through tourism and intra-state travel. With the significant demand shown for round 1 funding, I'd also recommend that the additional money be allocated over a single additional round of funding (versus 2 rounds as previously discussed). South Dakota is well behind the curve on this critical infrastructure, there's no need to slow down the buildout unnecessarily. Thank You, Brian Rosenberg
