Subject: Additional DANR Comments on Security Large Scale Mine Permit Application

I have two additional technical comments on the Security mine permit application which are as follows:

1. Section 10.0, page 91 Reclamation Plan: In the second sentence of this section, BPM states it will hold the full bond amount. Please note that DANR will hold the full bond amount after a final bond amount is determined and BPM submits the appropriate bond instrument (certificate of deposit, surety bond, letter of credit) with the determined amount to DANR.
2. Section 12.0, pages 91 and 92, Reclamation Plan: There are numerous typos (missing words, misspelled words, incomplete sentences) throughout this section that need to be corrected.

If you have any questions, please feel free to contact me.
