Julie,

We reviewed the transfer forms and there is one issue. Mammoth Minerals did not fill out any of the contact information for the company on any of the three forms. I will send these back to you. I think you can fill them out but we will need the address, telephone number, and resident agent filled out on these forms. I don't think they have to go all the way back to Australia.

Let me know if you have any questions! And please keep me posted on the bond. I gave Mineral Mountain until September 30 to get this information in order so I would like to have a new bond by then if at all possible. If not, Mineral Mountain will have to increase their bond while we wait out the transfer process.

Thanks!

Good morning Roberta, good to hear! It only arrived a week later than they said, too. If you do see anything amiss, just let me know.

I haven't heard anything new on the bond. The bank called me a few weeks ago as Shannon had taken a new position. The new person contacted Glenn, Craig and myself via email the next day and still no response.

I'll reach out again. Thank you, Julie

Julie,

We received the transfer paperwork today. It appears to be complete to me but will double check a time allows. Do we have any updates on the \$100,000 bond?

Thank you!
