Teresa Fox
1110 Ash Street
Whitewood, SD 57793

Dear Ms. Fox:

Our staff has completed its review of the supplemental information submitted June 18 and 22, 2026 to complete the permit amendment application for Mine Permit 477. Based on the review of this information, the department has determined the amendment application is procedurally complete and filed.

We have notified the various review agencies that the application is procedurally complete, and the 30-day agency technical review period has begun (ARSD 74:29:03:11). This 30-day period will end around July 31, 2026, depending on each agency's receipt date of the notification.

In accordance with ARSD 74:29:03:12, the department must publish its recommendation no more than 45 days after filing of the application. As the application was considered filed on June 30, 2026, the latest date for this publication is August 14, 2026.

If you have any questions, please feel free to contact me.

Sincerely,

Eric Holm
Engineer III
Minerals, Mining, and Superfund Program
