Dear Ms. Blocker,

Pursuant to the rules and regulations of the South Dakota Department of Agriculture & Natural Resources, Wadi Petroleum, Inc. hereby requests administrative approval for a location exception for the referenced wellbore. The reason for the exception is due to the geology and structural conditions for optimizing the location. Wadi Petroleum has extensive seismic across this area. If the location is moved, we will miss our planned target.

All the mineral property within a one-half mile radius is leased by Wadi Petroleum. The legal survey plat and approved BLM APD with a map showing the location is attached. I have also attached a list of the owners who have been notified of this application (Exhibit A-1) as well as a plat map of the location. The surface owner for both sections 6 and 7 is the Nebraska National Forest and Grasslands, which has approved the surface use as seen in the attached BLM APD.

If no objections are received, and if the supervisor is of the opinion that a hearing is unnecessary, please administratively approve this application. If you have any questions or additional information, please let us know.

Sincerely,

Brian Dice
Petroleum Engineer for Wadi Petroleum
