

## 2025 SOUTH DAKOTA OIL AND GAS STATISTICS

### Oil Production

	Fall River County	Harding County
Number of Active Operators	2	6
Number of Permits Issued	0	0
Number of New Wells Drilled	0	0
Number of Producing Wells	6	128
Number of Producing Fields	2	14
Number of Producing Enhanced Recovery Units	0	13
Average True Vertical Depth (feet)	3202	8646
Longest Measured Depth of a Horizontal Well (feet)	-	19,675
Formation Produced	Minnelusa	Red River
Average Age of Producing Wells (years)	12	21
Average Daily Production Per Well (bbls)	20.69	17.11
Highest Average Daily Production from a Well (bbls)	45.02	129.44
Lowest Average Daily Production from a Well (bbls)	8.11	1.67
Total Oil Produced (bbls)	29,024	788,898
Percent of Oil Produced with Enhanced Recovery	0.0%	77.6%
Number of Wells Hydraulically Fractured	-	-

### Marketed Gas Production

	Fall River County	Harding County
Number of Active Operators	-	1
Number of Permits Issued	-	0
Number of New Wells Drilled	-	-
Number of Producing Wells	-	45
Number of Producing Fields	-	1
Formation Produced	-	Shannon Sandstone
Average Age of Producing Wells (years)	-	41
Average Daily Production Per Well (Mcf)	-	10.63
Highest Average Daily Production from a Well (Mcf)	-	42.06
Lowest Average Daily Production from a Well (Mcf)	-	1.55
Total Marketed Gas Produced (Mcf)	-	117,655
Average True Vertical Depth (feet)	-	1,625
Number of Wells Hydraulically Fractured	-	-
