**DANR Announces \$6,735 Grant for the City of Canistota Restricted Use Site
Improvements**

PIERRE, S.D. – Today, the South Dakota Department of Agriculture and Natural Resources (DANR) announced the Board of Water and Natural Resources has approved a \$6,735 grant for Canistota to make improvements at its restricted use site.

This restricted site allows residents access to rubble and grass disposal areas for a small fee. With these improvements, residents will have continued access to these environmentally responsible disposal areas. The city will also add the ability to accept, properly handle, and dispose of appliances containing freon.

The grant and local funds will cover the project's costs.

The Solid Waste Management Program provides grants and loans for solid waste disposal, recycling, and waste tire projects. The Legislature annually appropriates dedicated water and waste funding for the Consolidated and Solid Waste programs through the Governor's Omnibus Water Funding Bill.

The board announced the funding approval at today's meeting in Pierre.
