Subject: Department of Agriculture and Natural Resources File Number #2026.142: pertaining to the release of hydraulic oil from a sanitation truck in Rapid City, South Dakota.

Dear Mr. Clarke,

The Department of Agriculture and Natural Resources (DANR) is contacting you regarding the event noted above. A copy of the initial spill report form is enclosed for your review. Based on the information provided, approximately 25 gallons of hydraulic oil was released from a sanitation truck onto the road. The material was released along the truck's route at several locations. The Rapid City Hazmat Team responded and applied absorbents at the release sites in accordance with State cleanup requirements. The procedures for the assessment and cleanup of spills such as this were developed to protect surface and groundwater resources. In this situation, DANR requires the following (DANR acknowledges that some of this work may already have been performed):

- Collect all floor dry and properly dispose at a permitted municipal solid waste landfill;
- By **October 9, 2026**, please complete and return the attached Written Contamination Incident Follow Up Report form.

Hanna Kollbaum has been assigned as the project manager for this case. She will review the information provided and will contact you if further remedial action is necessary. If you have questions or need additional information, please do not hesitate to contact her at (605) 773-3296. Thank you for your cooperation and assistance.

Sincerely,

Jaclyn McGuire

Re: Closure designation for DANR File #2026.142: pertaining to the release of hydraulic oil from a sanitation truck in Rapid City, South Dakota.

Dear Mr. Clarke,

The Department of Agriculture and Natural Resources (DANR) has reviewed the actions taken in response to the above referenced incident. Based on the information provided, there is no risk to human health or further risk to the environment. Therefore, the department is closing this case.

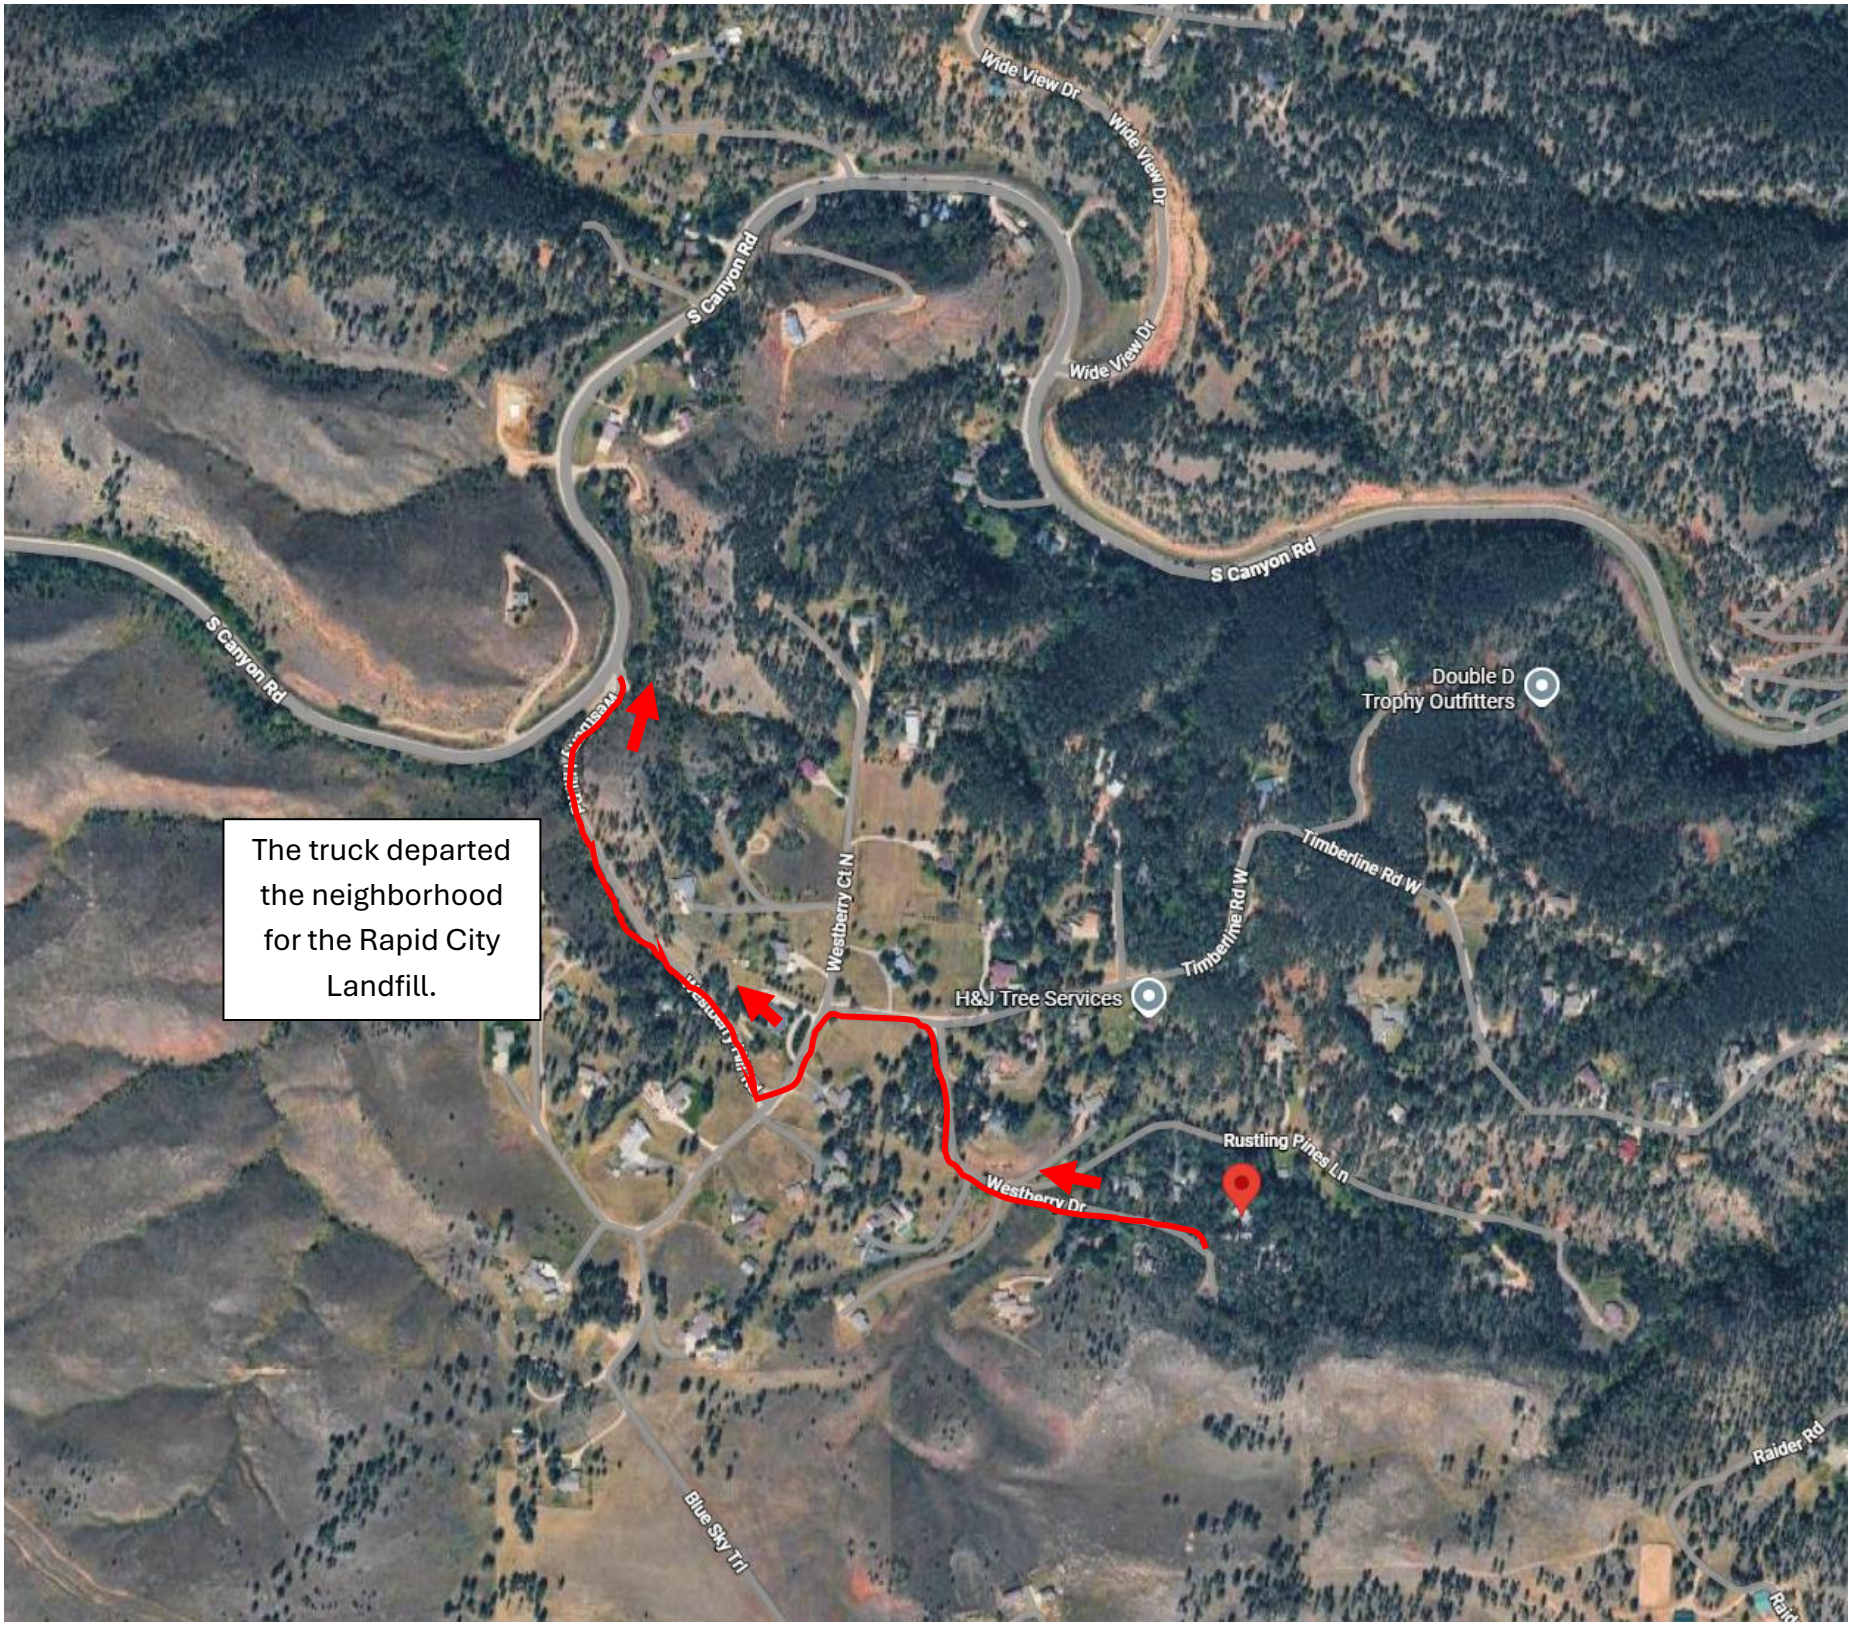

On September 8, 2026 approximately 25 gallons of hydraulic oil were released from a sanitation truck onto the road along its route. The Rapid City Hazmat Team responded and applied floor dry at the most heavily impacted areas. The contaminated floor dry was collected and properly disposed at the Rapid City Landfill. If any future problems arise related to this release, Kieffer Sanitation may be responsible for performing assessment and further cleanup.

If you have questions or concerns about this site's Closure designation, please contact Hanna Kollbaum of my staff at 605.773.3296. Thank you for your cooperation in protecting South Dakota's water resources.

Sincerely,

Terry Florentz, P.E.
