Austin Settje

Education

Bachelor of Science in Industrial Engineering and Engineering Management, South Dakota School of Mines and Technology (SDSM&T), Graduated December 2022

Work Experience

SD DANR – Waer Rights Program, Pierre, South Dakota

Nature Resources Engineering I, May 2024 – Current

- Prepare technical reports on water use applications to the Chief Engineer.
 - Reports address the availability of unappropriated water, the potential for unlawful impairment of existing domestic uses and water rights and require the review of hydrologic and geologic data of the proposed water source.
- Create maps on ArcGIS, create hydrographs using observation well data and tables estimating or summarizing other water resource data in Microsoft Excel
- Assist Senior Engineers with review of groundwater related issues
- Review the observation well data and measure observation wells
 - Assisting in process improvement for future observation well monitoring
- Inspect dams for safety and compliance
- To be participating in lake level surveying (expected in late May or June)

Professional Organizations – Current Memberships and Activities

Association of State Dam Safety Officials (ASDSO)

- Member from January 2026 – current

Notable Advanced Training

- ASDSO's Inspection and Assessment of Dams Technical Seminar (4 days) - January 2026

M.S. Agricultural and Biosystems Engineering, South Dakota State University, 2011
–Thesis, Vegetative Treatment System Evaluation for Two Large Confined Animal Feeding Operations

B.S. Agricultural and Biosystems Engineering, South Dakota State University, 2009

LICENSURE

Registered Professional Engineer: #12461, State of South Dakota Board of Technical Professionals,
Expires: May 30, 2027

CAREER EXPERIENCE

Acting Chief Engineer – SD DANR-Water Rights Program (01/2026-present) Responsibilities

- Acting Water Rights Program administrator under direction of the Office of Water Division Director;
- Administer the State of South Dakota dam safety program;
- Advise the Water Management Board on the development, conservation, and allocation of the water resources of the State for the greatest public benefit;
- Administer the appropriation through making recommendations regarding water permit applications for appropriation of the water resources of the State to protect the public welfare and interest in development of the resources;
- Establish goals and monitor progress for team members, reviewing water permit applications, and assign staff to other tasks as needed;
- Provide technical assistance to members of the public, DANR staff, the Water Management Board, and other state and federal agencies;

Engineer IV – SD DANR-Water Rights Program (03/2012-01/2026) Responsibilities:

- Conduct groundwater investigations and investigate groundwater related complaints;
- Conduct water permit inspections for licensing;
- Prepare and peer review technical reports for groundwater permit applications;
- Provide information and technical assistance to the public regarding groundwater and wells;
- Provide technical assistance to the Chief Engineer regarding groundwater and wells;
- Provide technical assistance to the Water Management Board through evaluation of groundwater permit applications and interpretation of data from the statewide observation well network;
- Provide expert testimony to the Water Management Board on contested water permit applications;
- Review the work of staff in the Water Rights Program and assist with various engineering tasks or groundwater and wells training;
- Assist other staff in DANR with information regarding groundwater and wells;
- Primary manager of Water Rights Program summer seasonal employees measuring the observation well network;
- Oversee and review the work of the two Water Rights Program technicians;
- Review annual licensing for SD licensed water well drillers and pump installers;
- Review water well completion reports submitted to the Water Rights Program;
- Provide budgeting information regarding equipment needs for measurement and maintenance of observation well network;
- Review well design plan and specifications for the DANR-Environmental Funding and Drinking Water Programs as requested.

PROFESSIONAL MEMBERSHIPS

NSPE-SD – Central Chapter: member since 2019. Central Chapter Vice-President 03/2025 to present

SPECIAL PROJECTS

- Analyze aquifer performance test data for Water Permit Application Nos. 7537-3 for Bret Flihs and 7930-3 for James Rand, and reviewed aquifer performance test report and data for Water Permit Application Nos. 2633B-2 for Southern Black Hills Water System, 8299-3 for Aberdeen Energy LLC., and two performance test reports for 8433-3 City of Lake Norden.
- Provide an independent review and analysis of and oversight of other Water Rights Program staff's review and analysis of aquifer performance test report and data for Water Permit Application No. 8515-3 Riverview LLP.
- Develop an MS Excel based random selection process for establishing priority of new applications for appropriation from fully appropriated aquifers.
