No. 1-25-1

STATE OF SOUTH DAKOTA
CERTIFICATE OF APPROPRIATION OF WATER.

WHEREAS, On the 7th day of November, A. D., 1910, Hilma Longwood of Cole, County of Perkins, and State of South Dakota, filed in this office a petition setting forth facts concerning the appropriation of the waters of a dry draw, the points of diversion of the waters claimed therein being, on Lodgepole Creek, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, Twp. 21N., R. 13 East, and on Antelope Creek, W $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 35, Twp. 21 N., R. 13 East Black Hills Meridian.

WHEREAS, On the 7th day of November, A. D., 1910, proof was duly made of the application to beneficial use of 2000 miners inches per second of water, for irrigating 291 acres in the W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 25, SW $\frac{1}{4}$ Sec. 25, E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 26, Twp. 21N., Rge. 13 East of Black Hills Meridian.

NOW, THEREFORE, By virtue of the authority vested in me by the laws of the State of South Dakota, I hereby grant and confirm to Hilma Longwood of Cole, South Dakota, the holder and owner of Location Notice No. 19074, Butte County, a water right dating from October 24th, 1904, to the use of 2000 miners inches per second of the waters of a dry draw in the County of Perkins and State of South Dakota, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted at the points designated herein, and conducted to and upon lands in the W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 25, SW $\frac{1}{4}$ Sec. 25, E $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 26, Twp. 21 N., R. 13 East of Black Hills Meridian, for the purpose of irrigation, subject, however, to the laws of the State of South Dakota applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply, canal or lateral from which such water may be taken when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and the seal of my office at Pierre, South Dakota, this 17th day of September, A.D. Nineteen Hundred and Twelve.

STATE-LINE LAND CO.

A. S. TUBBS, PRES.

WE SELL RELINQUISHMENTS
AND CONTEST ABANDONED CLAIMS

L' MON, SOUTH DAKOTA. April 3, 1909.

Mr. Samuel H. Lea, State Engineer,
Pierre, South Dakota.

Dear sir:- I enclose you herewith inspection papers on Desert Claims as noted on enclosing envelopes. There are some questions asked on the blanks which I am unable to answer. One thing in particular is the amount of water asked for in the first papers. Some of them I find I have no record of, and thought perhaps you might fill out this part. All of the works are capable of diverting the amounts asked for, that is during the rainy periods.

W. D. Longwood requested me to state that he desires enough water below his desert claims to irrigate 80 acres. Is it necessary to make an additional application? (On Homestead)

E. A. Friedlund desires enough water below his claim to irrigate 80 acres - on his homestead. Please let me know in regard to these additional amounts desired.

Enclosed find draft for \$10.00 which, as I understand it, will cover the cost of filing and issuing certificates. If this amount is not enough please inform me.

A. A. Zimmerman for filing	\$ 1.00
" certificate	1.00
Minna Zimmerman " filing	1.00
" certificate	1.00
W. D. and Hilma Longwood for filing	1.00
for certificates	2.00
E. A. and Anna C. Fredlund for filing	1.00
for Certificates	2.00

\$10.00

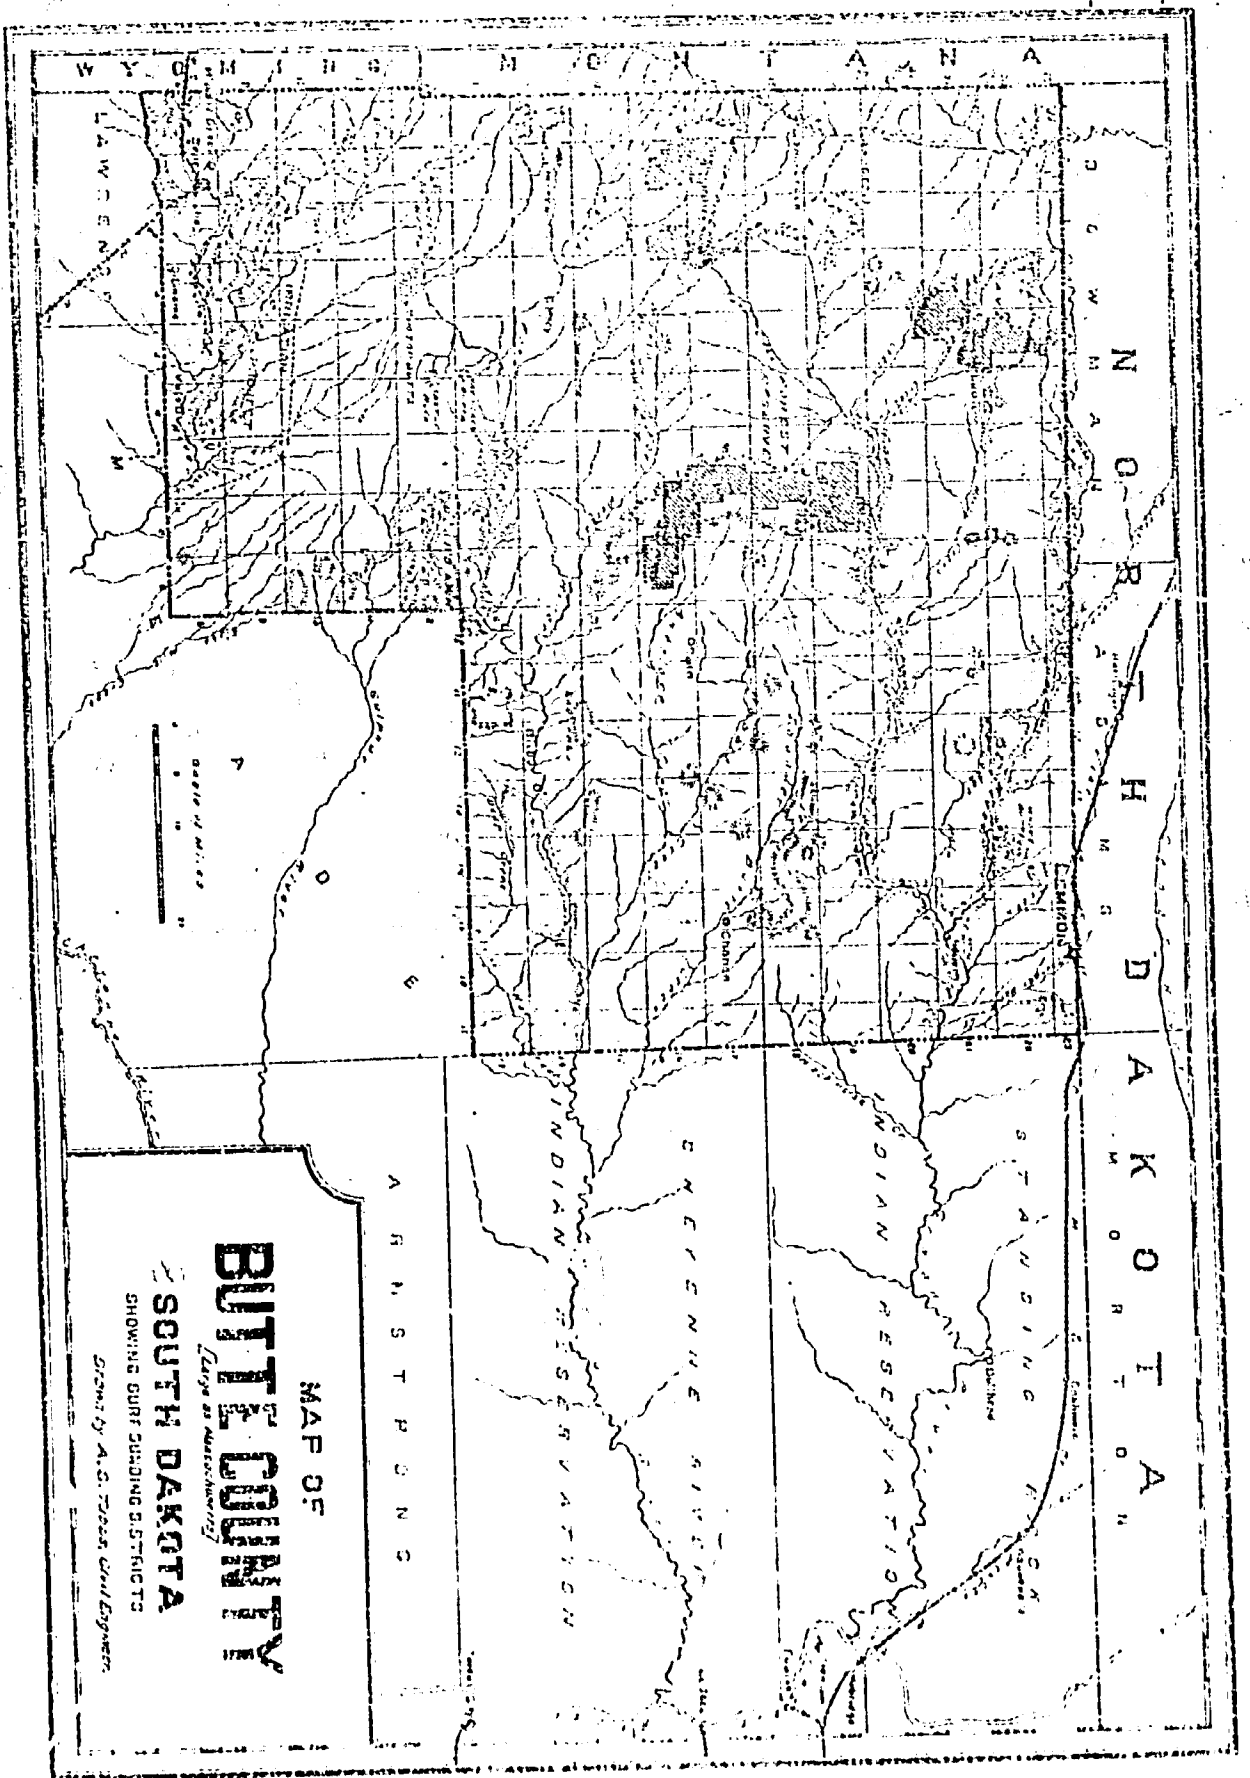

Yours respectfully,

RECEIVED

APR 8 1909

OFFICE OF STATE ENGINEER.

A. S. Tubbs
Deputy State Engineer

100
11433-1
April 9, 1909.

A.S. Tubbs

Civil Engineer,

Lemmon, South Dakota.

Dear Sir:-

Receipt is acknowledged of your letter of the 3rd instant, together with stated enclosures. The draft for \$10 has been duly received and same has been applied to the payment of fees as designated in your letter. Individual receipts of the different parties will be forwarded you in a short time, also the certificates required from this office for filing in the U.S. Land office, for which fees have been sent.

With regard to the request of E.O. Langsted to appropriate sufficient water to irrigate sixty acres on a homestead, if there is sufficient water in his present division works for this purpose, it will not be necessary to file a separate application. Should, however, an additional dam be required, it will be necessary to file a separate location notice. A map also should be forwarded to this office, showing the land it is desired to irrigate on the homestead. The same condition will apply to the land of Mr. E.A. Friedlund.

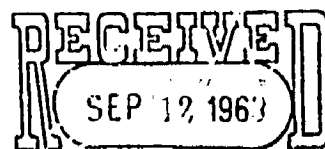

Yours Very Truly,

I.E.A.

State Engineer

**WATER RESOURCES COMM
PIERRE, SOUTH DAKOTA**

PETITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Walter D. Longwood, Perkins County, South Dakota, Rancher,
Lenmon, South Dakota

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent,) your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State date of posting and date of recording notice of appropriation.

Ans. October 1, 1904 and October 24, 1904

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Lodgepole Creek from dam in NE $\frac{1}{4}$ Sec. 25, T 21 N, R 13, EBHM,
and Antelope Creek from dam in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, T 21 N, R 13, EBHM.

Ques. 5. Describe your works of diversion giving length and height of each dam and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use, and date of completion of same.

Ans. Lodgepole Creek dam about 650ft. long, 14ft. high diverts water into
ditch No. 1 to irrigate lands north of Lodgepole Creek. Antelope Creek dam,
115 long, 11ft. high, diverts water into ditch No. 2, a dry draw dam and
another dam to irrigate lands south of Lodgepole Creek

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have ACTUALLY been irrigated with said water.)

Ans. Water is used for irrigation on the E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 26 (65 acres);
SW $\frac{1}{4}$, Sec. 25 (120 acres); SE $\frac{1}{4}$, Sec. 25 (140 acres); T 21 N, R 13, EBHM,
and on the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 30 (60 acres), T 21 N, R 14, EBHM.

Ques. 7. If for other than irrigation purpose, state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. 4.8 cubic feet per second

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Inheritance from William D. and Hulma Longwood

Ques. 10. State when, how, in what amount and to what extent, the water diverted under above mentioned permit has been used.

Ans. Water was first used in 1907 and continuously since then during the growing seasons by means of the Longwood Irrigation system in the amount and to the extent that water was available to irrigate the land.

Certificate of Examination of Works

Report of Examining Engineer

To the State Engineer, Pierre, South Dakota:

Dear Sir: I hereby certify that in accordance with your letter of authorization dated May 15, 1906
 19..... I have this day made a thorough examination of the diversion works constructed by.....
 Hilma Longwood..... of Cole, South Dakota,
 Perkins..... County, South Dakota, holder of permit No. issued
 upon application No., bearing date of priority of....., 19....., authorizing the
 diversion of 2000 Minors inches second feet of the waters of Antelope and Lodgepole Creeks for irri-
 gation purposes. I have to report on the condition of the same as follows:

The diversion works comprise: Three dams and three dykes, canals and laterals
 aggregating about 12 miles. This involves the works on the two desert
 claims for which the Joint Water Right is desired

and the system is in the following condition: The project is completed as shown on the
 plats filed

The point of diversion is located On Lodgepole Creek on NE $\frac{1}{4}$ Sec. 25, Tp. 21 N.
 R. 13 East, and on Antelope Creek on W $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 35, Tp. 21 N. R. 13.
 East of Black Hills meridian

The works are capable of diverting and conveying to the place of use 7 or more second-feet of water,
 which is to be used for irrigation purposes

The legal sub-divisions to be irrigated are: NE $\frac{1}{4}$ Sec. 25-70 acres, SW $\frac{1}{4}$ Sec. 25-156
 acres, E $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 26-65 acres. Total acreage irrigated on this
 claim 291 acres.

..... comprising a total of 291 acres of land.

The domestic use intended comprises none but irrigation

The utilization for power, mining, or other beneficial uses comprises: None

Your reference: 0433-1: 171-1 and 704-1

Dear Mr. Grimes:

Thank you for your very fine letter of August 22 and the assistance furnished in preparing necessary proofs and notices. The samples which you prepared were compared on the ground with the actual use by Mr. Longwood and certain of the acreages have been corrected. In the case of permit 0433-1 there was an obvious error as indicated by your question mark on the map and this has been corrected and in the case of 171-1 the forms have been corrected to limit the claim to the actual acres irrigated which are less than the original documents showed. I hope these will be satisfactory.

Mr. Longwood's check for \$7.00 filing fee is enclosed.

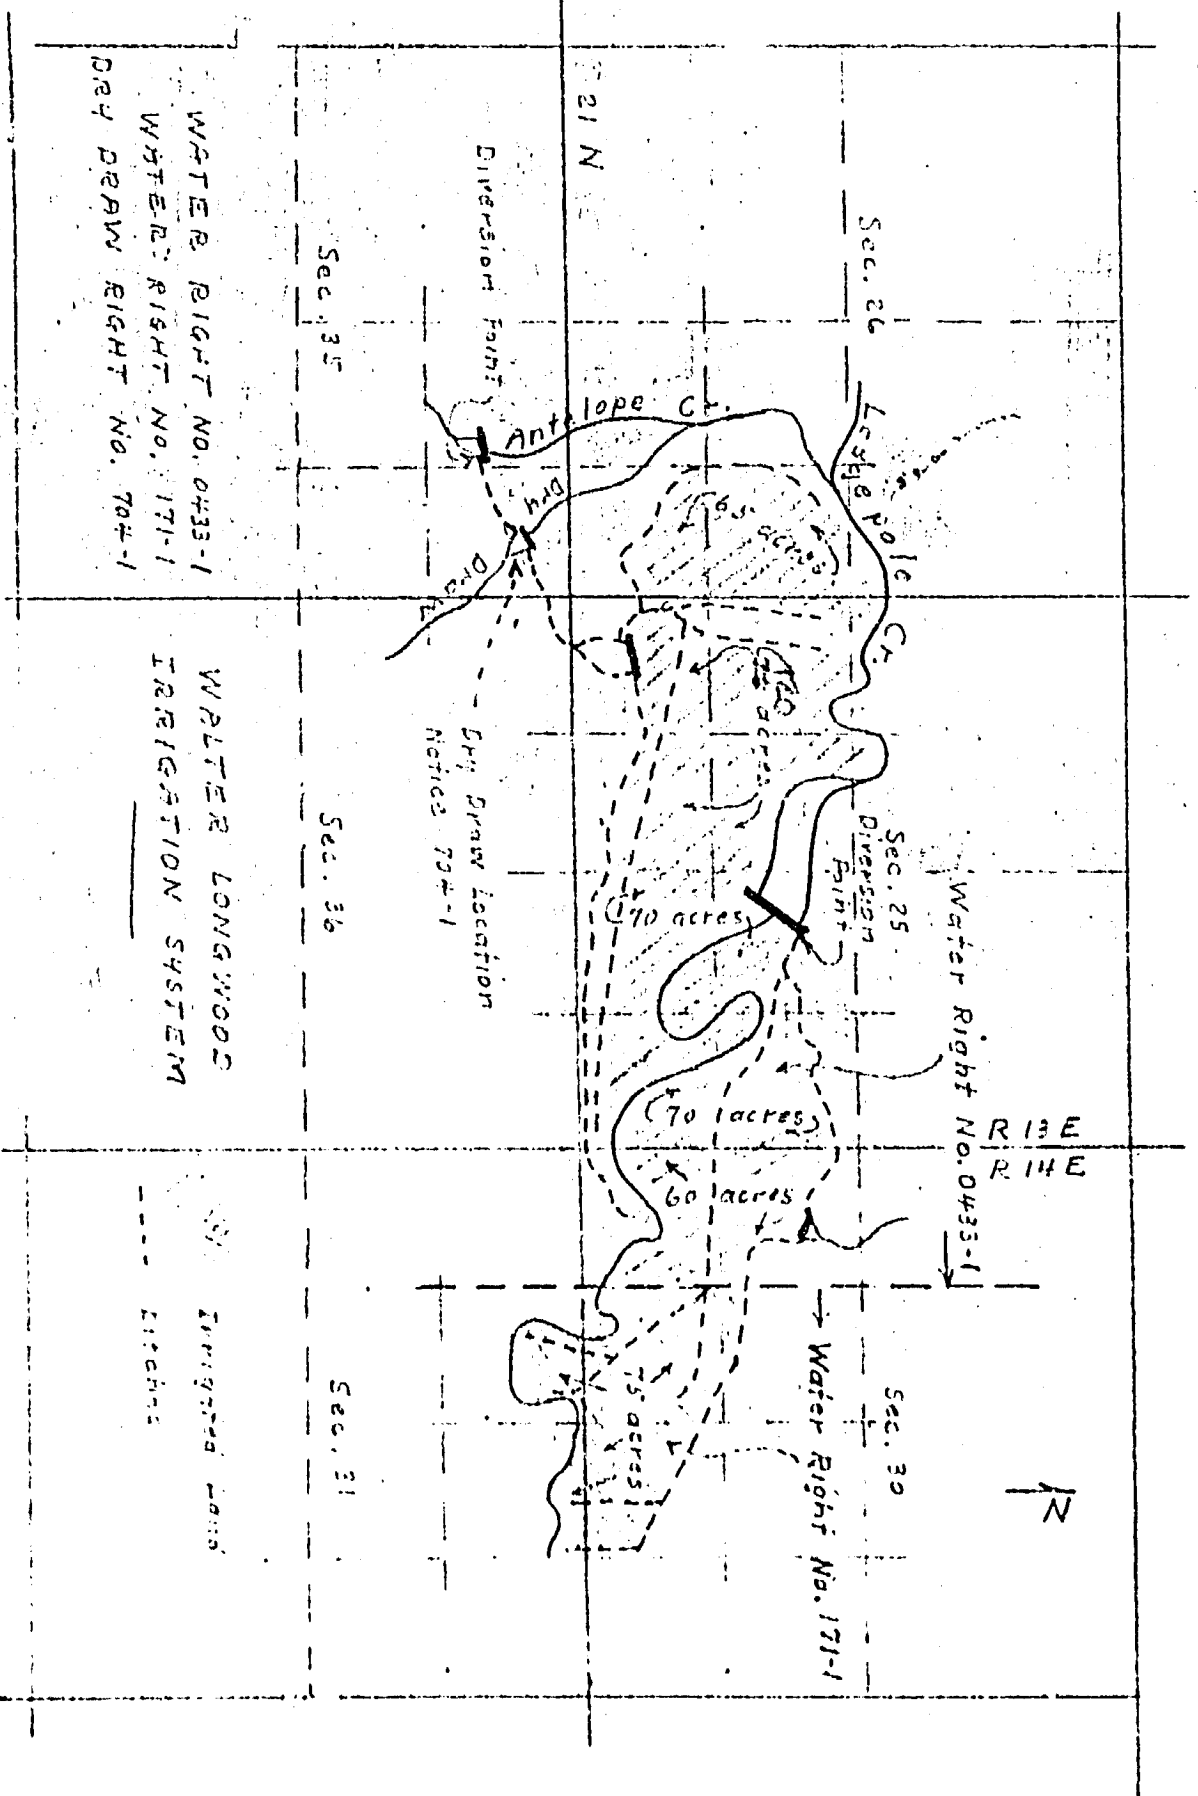

Yours truly,

RONALD R. JOHNSON

Your Reference: 171-1, 0433-1

Dear Mr. Grimes:

Thank you very much for your informative letter of July 31. I'm afraid this is another "lazy-man's" letter.

Walter Longwood says that all of the rights set forth in your letter have been used continually and are now being used to the full extent of water available for flood irrigation of the land indicated. The dams were constructed as indicated in your letter and have been used continually for the spreading of water for flood irrigation.

Walt is of the impression that the creeks involved are classified as dry draws or at least were prior to the enactment of the 1955 law. Assuming that the water rights as well as the location notice refer to dry draw rights, I assume that a current record would be established under SDC 1960 SUPP 61.0139. Would you please advise me in this regard before we proceed.

Yours truly,

RONALD R. JOHNSON

August 22, 1963

Mr. Ronald R. Johnson
310 Main Avenue
Lemmon, South Dakota

Dear Mr. Johnson:

Refer: Longwood Estate

This concerns your letter of August 17, 1963, concerning the water rights held in the name of William D. and Hilma Longwood, identified in this office as Water Right No. 0433-1, Water Right No. 171-1 and Dry Draw Location No. 704-1.

Each of these water rights may be assigned to Mr. Walter Longwood under provisions of SDG 1960 Supp., 61.0127 by completing the enclosed Form No. 25, Notice of Transfer of Water Right, one covering each water right. Sample completed forms are enclosed, subject to confirmation of content by Mr. Walter Longwood. A more careful check of the water right records shows some errors in my letter of July 31, 1963 concerning the land descriptions and acreages irrigated under each of the water rights. Corrected descriptions and acreages are shown on the sample forms. Because of some discrepancies in the water right records, Mr. Longwood should confirm the contents of the sample forms very carefully, and make such corrections as may be necessary to reflect the descriptions and acreages of the lands which he currently irrigates, for which blank forms are enclosed. To help him do this, a small sketch map is enclosed showing pertinent features of his irrigation system and the lands irrigated thereby, according to the water right records.

Also, to complete the water right records, Mr. Longwood should complete Form 24, Proof of Application of Water to Beneficial Use for appropriative water rights Nos. 0433-1 and 171-1. Sample completed forms are enclosed. These should be carefully checked as to content by Mr. Longwood. If changes are necessary to reflect his

Ronald R. Johnson

2.

August 22, 1963

current irrigation project and the use of irrigation water, blank forms are enclosed on which correct information may be states. The record for Water Right No. 171-1 was not completed following issuance of Permit to Appropriate Water on July 14, 1941. Completed Form No. 24 will accomplish this under provisions of Sec. 61.0102 (7)(a), SDC 1960 Supp.

The following fees should accompany return of the above completed forms.

Three completed Form No. 25 at \$1.00 each	\$ 3.00
Two completed Form No. 24 at \$1.00 each	2.00
Issuance Certificate of Construction for 171-1	1.00
Issuance Water License for Water Right No. 171-1	<u>1.00</u>
Total	\$ 7.00

No action is required under SDC 1960 Supp., 61.0139, unless Mr. Walter Longwood desires to have his own record to the effect that the provisions of law were complied with in the filing of the Dry Draw Location Notice for the dam in the NE $\frac{1}{4}$ of Sec. 35 (this is not the dam on Antelope Creek) by William D. Longwood.

I hope that this information is helpful.

Sincerely,

JWG:ls
Enc's.

J. W. CRIMES

July 31, 1963

Mr. Ronald R. Johnson
310 Main Avenue
Lemmon, South Dakota

Dear Mr. Johnson:

Refer: Longwood, Hilma D.
Estate

Your letter of July 25, 1963, requests the record of water rights in this office in the names of William D. Longwood and Hilma D. Longwood.

Records exist in this office for three such water rights, two of which may cover in part the same water right. A sizable quantity of correspondence dating from 1909 concerning these water rights is of record also. A summary of each of these rights as shown by the records follows:

Water Right No. 0433-1

Priority Date - Oct. 24, 1904

Maximum Diversion Rate - 2000 inches (present statutory limit 4.15 cubic feet per second except during periods when more water flows than is needed to satisfy other water rights. During such periods a greater diversion rate is lawful. (61.0126, SDC 1960 Supp.))

Diversion Points -

Dam on Lodgepole Creek in NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 25, T 21 N, R 13 E, B.H.M.

Dam on Antelope Creek in W $\frac{1}{4}$, NE $\frac{1}{4}$, Sec. 35, T 21 N, R 13 E, B.H.M.

Irrigated Lands

W $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 25

70 acres

SW $\frac{1}{4}$, Sec. 25

156 acres x $\frac{70}{156}$

E $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 26

65 acres

291 acres

Ronald R. Johnson

2.

July 31, 1963

Water Right No. 171-1

Priority Date - May 8, 1941

Maximum Diversion Rate - 1.00 cubic feet per second except that greater rates of diversion are lawful during periods of high flows when water requirements under other water rights are satisfied (61.0126, SDC 1960 Supp.).

Diversion Point - Dam on Lodgepole Creek in NW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 25, T 21 N, R 13 E, B.H.M.

Irrigated Lands

SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 25)	
SE $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 25)	
NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 31)	
NW $\frac{1}{4}$, NE $\frac{1}{4}$, Sec. 31)	75 acres

Dry Draw Location Notice No. 704-1

(This record may duplicate a part of the water right as contained in the record for Water Right No. 0433-1)

Priority Date - Oct. 1, 1904 (? Location Notice made Jan. 23, 1940)

Maximum Diversion Rate - ? (none shown in Location Notice)

(present statute (61.0126, SDC 1960 Supp.) limits diversion to 1 cubic foot per second for each 70 acres irrigated except during high flow periods).

Diversion Point -

Dam in NE $\frac{1}{4}$, Sec. 35, T 21 N, R 13 E, B.H.M.

Irrigated Lands

?(not specified in Location Notice)

The current validity of these water rights depends upon continuous application of the water to beneficial use during past years upon the lands specified.

These water right records may be transferred to the name of Walter Longwood upon receipt of \$1.00 for each transfer, \$3.00 in all.

Also, copies of pertinent documents pertaining to these water rights may be obtained at a cost of \$0.15 per 100 words. If certification is desired, the fee is \$1.00.

I suggest that the water right factors as shown by these records be compared to actual water use and that a current record be established.

Sincerely,

JWG:ln

J. W. GRIMES

Max W. Archibald
Cole Route
Hettinger, North Dakota

W.R. No 0433-1

Dear Mr. Archibald:

This is in reply to your letter of June 29. Our records show that Mr. Longwood has a water right on record in this Office dating from 1904. Section 61.0101 of the State Code reads in part as follows: "Any person owning land through which any non-navigable stream passes, may construct and maintain a dam across such non-navigable stream, if the course of the water is not changed, vested rights are not interfered with and no land flooded other than that belonging to the owner of such dam or on which an easement for such property has been secured".

According to your letter, the main purpose that you would have for constructing a dam is to provide a crossing of the stream. It would seem that a bridge would be more appropriate for this use. Also is not your location on Antelope Creek rather than on Lodgepole Creek.

Since you are not asking for a permit for the use of water but more specifically for a manner of crossing the stream, I would suggest that the matter would more properly be under the jurisdiction of the Highway Department and would further suggest that you take the matter up with your local highway officials. If this Office can be of any further service, kindly let us hear from you.

Yours very truly,

D.L:RGW

OFFICE OF STATE ENGINEER
PIERRE, S. DAK.

Dear Sir:-

I am writeing to you for information as to the building of a dam on Lodgepole creek,

I live in twp. 21-13 Sec. 35 Mr. W.D. Longwood has a waterright on this creek, and what I know it goes by feet, this ofcourse was years ago, my land joins him and I would like to put a small dam on this creek, daming only the creek,

I have four children two have to cross this creek to get to school, it is dangerous when water is high and many days they have to stay out of school because of this creek, if I could put in a dam like I have stated above the water would spread out to a shallow depth makeing it safer, also this creek fills with snow and it take much time and work where in if I could put in this dam snow would not bother.

This creek causes me much trouble in order to school my children and there is no way or bridge to cross,

I was in Bison, So. Dak, and they told me to write to you, I would like to know just what I can do, does this water right still hold and can he stop me form doing this, what little water I would hold would not hurt him whatso ever, waiteing your reply.

Very truly,

Max Archibald.

Dear Mr. Tubbs:

This will acknowledge receipt of 60¢ for which you request a certified copy of the water right as obtained in our office for W. D. and Hilma Longwood on Lodgepole Creek, Twp. 21 Range 13, Perkins County. Certified copy is herewith enclosed.

We are also enclosing copy of a letter addressed to County Agent Wm. Spurling which I believe will give some light on the proposition. You will note that we followed the suggestion of the Federal Land Office in Pierre in advising that Mr. Longwood write to the Federal Land Office in Washington under the numbers given in the letter, for a copy of the Water Certificate which our records show was issued under date as given in the letter.

Very truly yours,

Dean W. Loucks,
State Engineer.

Re: Wm. D. Longwood
Water Right
Parkins County

Wm. Spurling
County Extension Agent
Bison, South Dakota

Dear Mr. Spurling:

This will acknowledge receipt of your letter of February 6th relative to the matter of the water right of Wm. D. Longwood and Hilma Longwood.

I have again made a study of the files of this office but do not find any water right other than the one which has been furnished, a copy of which has been filed in the county office. The description in this record, as you suggest, is not clear and does not correspond with the blue print, a copy of which you sent and a copy of which we have in our files. We also find a print of the same lay-out under date of 1909 in our files.

Also our records show that a Water Certificate was issued to Wm. D. Longwood and Hilma Longwood 1209909 for filing with the Federal Land Office. The record indicates that enough water was desired to irrigate 60 acres. We do not find a copy of such certificate in our files.

I talked with the Federal Land Office here and they also have record that on November 11, 1916 the Water Certificate was filed in that office and then sent to Washington to the General Land Office where it should now be on record. We would suggest that the owner or his representative now write to the General Land Office, Washington, D. C., and refer to Desert Claim No. Lemon 02560 and send 40¢ and ask for a photographic copy of the Water Certificate.

We would also suggest that he include in his information the description of the tracts as shown on the print which we are returning to you, and as given under Desert Claim No. 426 and Desert Claim No. 427. Also give the above present Claim No. Lemon 02560 as supplied to us by the Federal Land Office here in Pierre.

Very truly yours,

Dean W. Leucke,
State Engineer.

Re: Water Right No. 19074
William D. Longwood
Hilma Longwood
25-21-13

Dear Sir:

I have your letter of August 7th concerning William D. Longwood and as I understand it there is no notice of any kind of Mr. Longwood to serve upon his neighbor to prevent him from constructing a dam further up this stream or dry run in order to preserve his vested rights in this matter.

Mr. Longwood seemed to be of the impression that he should serve a notice on his neighbor, notifying him that he had the water rights covering this land and that the neighbor had no right to construct a dam above his land.

If there is anything in the rules and regulations requiring Mr. Longwood to give any notice to his neighbor of his prior right, I wish you would advise me. As I understand it, when Mr. Longwood perfected his water right above mentioned, he has done all he is required to do under the law to protect his water right in this matter.

Yours very truly

C. G. Carrell.

Mr. Dean W. Loucks
State Engineer
Pierre, South Dakota

Dear Sir:

I have for acknowledgment your letter of August 22nd, in regard to Water Right No. 19074, Wm. D. Longwood, of Perkins County. The question submitted to you by Mr. Carreil is as to whether Mr. Longwood should serve a notice on his neighbor notifying him that he has the water rights covering this land and that the neighbor has no right to construct a dam above his land.

I can find nothing in the rules and regulations requiring the service of such notice. However, if Mr. Longwood intends to protect his water rights, if any, by injunction or any other appropriate court action, it would probably do no harm for him to serve such a notice prior to commencing suit.

This appears to be a private matter and not one that appears to come within the functions of the States Attorney's office, this office, or your office. If I interpret the law correctly, the water rights claimed in this instance come within the provisions of Section 61.0133, and it is noted that in such section it was provided that any person holding a right under this Section shall not be subject to the rules and regulations of the State Engineer or be under his jurisdiction.

If Mr. Longwood obtained any water rights under the law in existence in 1904, he probably still has such rights but the extent of such rights would necessarily have to be determined by the court.

I am, therefore, returning herewith the file which you sent to this office in regard to this matter.

Yours very truly

H. O. Lund

OFFICE OF STATE ENGINEER
PIERRE, S. DAK.

Mr Dean W. Loucks
State Engineer
Capitol Bldg.
Pierre, S.D.

Dear Mr Loucks:

Mr W.D. Longwood of Haynes, N.D., a resident of this county has just brought to my attention correspondence which you and the Attorney Generals office have had with him and Mr C.G. Carroll of Lemmon, S.D. relative to water right No 19074.

It appears from the record in the Register of Deeds office that the descriptions cited are in error and that the water right did not include the description of a dry draw from which water has been appropriated for the same period as the dam across Logpole Creek.

It would appear that to make Mr Longwood's rights secure, the water right filing should be corrected.

Enclosed is a copy of a water right for a dam in Section 35, Township 21, Range 13, E.B.H.M. which was omitted from the first water right. Also enclosed is a blue print of the entire thing from which you can readily see the error in description of Water Right No 19074.

Mr Longwood would like your advice relative to correcting the original right filed, and your opinion of the information concerning the one herein enclosed.

Is it necessary to change the wording on the enclosed to read "has constructed ditches and flumes" etc. rather than "has located and claims the right to construct ditches and flumes" etc. Would it be sufficient to claim 1 cubic foot of water per second? Is it not correct that the location date should be given as Oct. 1, 1904, the date on which the location notice was actually posted?

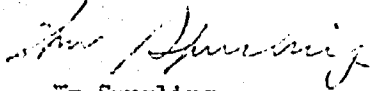

Mr. Dean W. Louchs - Page 2

Ms. 5433-1

Mr Longwood also desires to point out that all of the construction shown on the map was completed in the summer of 1905, and the NE¹/₄ Sec. 35-21-13 was not filed on until 1906 where the diversion dam is located.

Since Mr. Longwood has had prior rights on Both Loggerole Creek and Antelope creek since 1904, he desires to secure these rights by having correct Water . . . filed. Your advice and suggestions will be appreciated.

Very truly yours,

Wm Spurling

Pierre, South Dakota.

Dear Sir:

Mr. D. W. Longwood, who obtained a Water Right on
Hodgerole Creek and branch from the south away back in about
1905 has asked me to get him a duplicate Certificate from
you for filing in regular order at the county seat.

This water right was obtained before Perkins County came
into existence - it was then a part of Butte County, and
Bellevue was the county seat. Another party is now
planning on building a dam on the south draw and Mr. Longwood
is desirous of maintaining his rights.

The location is I believe Secs. 36 and 35, T. 31 N., R. 15 E.

The claimant does not seem to know as to how, or whether at
all, the water right was regularly recorded, and the original
certificate cannot be found.

Received letter from you in regard to laws in effect, and I
thank you.

Yours truly,

A. S. Tubbs

Let me know as to cost of certificate and I will remit.
This project has been in regular operation through the years.

Mr. Dean W. Loucks, State Engineer,
Pierre, South Dakota.

Dear Sir:

In accordance with your letter of the 8th inst. and request of Mr. Longwood yesterday, I am sending you 60 c for a copy of the "Pre-emption of Right of Way and Location of Water"- Tp. 2., R. 13, Perkins County.

As I understand it, this certificate will need the regular affidavit in order to be recorded. Also please acknowledge receipt of remittance.

Yours truly,

A. S. Tubbs,

Dear Mr. Loucks:

In reply to your letter of February 13 relative to the water right of Wm. D. Longwood, Perkins county, I have advised Mr. Longwood to secure a copy of the Water Certificate from the General Land Office in Washington as you requested.

Do I understand your letter correctly in saying that a new application be submitted combining all of the previous claims and correcting all errors previously made. If this is desired it will be done as soon as the copy from Washington is returned.

Very truly yours,

Wm. Sourling
County Extension Agent

Re: D. W. Longwood
Water right

Alfred S. Tubbs,
Civil Engineer
Lemmon, South Dakota

Dear Mr. Tubbs:

This will acknowledge receipt of your letter of October 24th and further search in this office shows no other water right documents than those which have been furnished you. We are, therefore, returning the plats which you enclosed.

The fact that this water right is not recorded in this office is not conclusive evidence that there is no such water right, since as you perhaps knew, water rights were not filed in this office until 1907. The record should, however, be found in the county office and there is just a possibility that there might be something in the Federal Land Office.

Very truly yours,

DEAN W. LOUCKS,
State Engineer.

DWL:dn

111-133-1

ALFRED S. TUBBS

CIVIL ENGINEER
REGISTRY NO. 10750, DAK.

LEMMON, SOUTH DAKOTA October 24, 1939

Mr. D. W. Loucks, State Engineer,
Pierre, South Dakota.

Dear Sir: In the case of D. W. Longwood Water Right - have received your certified copy, had it recorded at the office of Register of Deeds and sent it to D. W.

However Mr. Longwood is very much concerned about the certificate not covering but one stream - Lodgepole Creek only. As I remember the matter, I had nothing to do with getting the Water Right; this was done by a man named Thompson, in about 1934. Mr. Longwood told me that it was thoroughly his intention at the time to also include the waters of Antelope Creek - coming into Lodgepole Creek from the south. But the certificate does not show any right on that creek.

I am sending you under separate cover two blue prints which may help to explain this matter to you. The first was made from the final survey to make proof at the Land Office - in 1927. This proof, for various reasons, was delayed until 1937, when the Government required another map showing further plans and development. (These plats I have numbered No. 1 and No. 2 respectively, in red) And on plat No. 2 the creeks are rightly named.

You will notice that the waters diverted from Lodgepole Creek work on the automatic, or spreading system; while the waters diverted from Antelope Creek are carried through a canal to the owner's land and spread more according to the regular system of irrigation.

Another party is building, or planning to build, another dam in Section 35 which would cut off the water of Antelope Creek which Mr. Longwood considers his most valuable source of water supply.

Mr. Longwood would like to know if there is anything on record in your office whatever to show that his Water Right covers Antelope Creek - as was his plain intention from the beginning.

Yours truly,

Alfred S. Tubbs

P. S. Please return plat when through with them.

C. G. Carrell
States Attorney
Perkins County
Lommon, South Dakota

Re: Water Right No. 19074
William D. Longwood
Wilma Longwood
25-21-13

Dear Mr. Carrell:

I have your letter of August 3, containing your inquiry relative to a water right owned by Mr. Longwood in Township 21 N., Range 13 E., in Perkins County. Our records show such a water right under the name of William D. Longwood and Wilma Longwood, dated 10-24-1904, in Section 25, Township 21 N., Range 13 E. There is considerable documentary evidence in connection with this right which, however, is a state right and not a federal right as suggested in your letter.

We are enclosing herewith Rules & Regulations for the appropriation of water as set up by this law under the state code. The state water right law was, as you know, written in 1907 after the date of the right to which you refer, however, I believe the present code relative to dry draw rights is quite similar to the old original right. As you know, this state recognizes both the doctrine of riparian rights and also of appropriation. This may have some bearing upon the case in question.

If, after you have read the enclosure, you feel that we may be of further help to you, we will be glad to hear from you further, or if copies of the documents relative to the above mentioned right are desired, these can be made and furnished you by payment of the fee set up in the code which we are required to charge.

Very truly yours,

DEAN W. LOCKS
State Engineer.

AUG 5 1939

OFFICE OF STATE ENGINEER
PIERRE, S. DAK.

State Engineer
Pierre, South Dakota

Dear Sir:

I have a question which I would like to ask you, concerning the priority of certain water rights, the facts are as follows: A Mr. Longwood filed a government entry on certain land here in Perkins County in 1904. He procured a water right at that time from the Federal Government, erected his dams and complied with the desert entry law and received his patent to this land on such desert entry and has used his water right by irrigating this land, since that time. This land is in sections 25 and 26, Township 21 North, Range 13, E.B.M. in Perkins County.

At the present time a neighbor who owns adjoining land further up this creek or ravine under the government conservation program and is constructing a dam on his land which when completed will take a greater part of the water in this draw or ravine so as to deprive Mr. Longwood of the water for his dam, to such an extent it will prevent him from irrigating under his prior water rights from the United States government. It is my understanding that under the law, this neighbor has no right to construct dams above Mr. Longwood's dam so as to prevent him from using the water which collects in his dam for irrigation purposes under the water rights which he procured from the United States Government in 1904, at the time that he made his desert land entry.

I wish you would write me immediately and let me know whether or not I am correct on this proposition and just what procedure is necessary to prevent this neighbor from constructing a dam above Mr. Longwood and taking the water from this ravine or stream which it seems to me should belong to Mr. Longwood under his prior water right.

17th,
1912.

Mr. Wm. D. Longwood,

Cole, So. Dak.

Dear Sir:-

In compliance with a request from Mr. A. S. Tubbs of Lemmon, I have sent to him a Certificate of Appropriation of Water made out in the name of Hilma Longwood. Mr. Tubbs also requested a certified copy of the original location notice and an exact copy of same has been sent him. The original instrument is made out in the name of "Hilma Longwood and Hilma Longwood" where it is evidently intended that your name should also appear. The point of diversion is also found to be in error, as it should be as follows:- On Lodgepole Creek, NE¹ SE¹, Sec. 35, Twp. 21 N., R. 13 E., and on Antelope Creek, W¹ NE¹, Sec. 35, Twp. 21 N., R. 13 E., B.H.M., instead of NW¹ SE¹, Sec. 35, Twp. 21 N. Rge. 13 E., as it appears in the original. A statement of this correction has been made out and sent to Mr. Tubbs with the certified copy of the location notice.

Yours very truly,

State Engineer.

Oct. 14, 1910.
LEMMON, S. D.

Mr. Samuel H. Lea, State Engineer,
Pierre, South Dakota.

Dear sir:- I am returning herewith Certificates for the final proofs on Desert Claims of W. D. Longwood and Hilma Longwood.

The U. S. inspector has objected to this proof on account of a mistake of the location of the real point of diversion on Antelope Creek. Thompson made this application for these people and located the point of diversion exactly as you have it in the certificates, which you will see is wrong by referring to the map which I am sending under same cover.

The claimants desire to have this changed so as to read in accordance with the notations I have made on the certificates in pencil.

Also, as the two claims are both irrigated from the two sources the claimants want it specifically stated that they are entitled to 1000 inches each on each of the creeks.

Whether this is asking too late, or for more than can be granted I know not, but since the error has been made, I have promised them to do what I could to straighten the matter out, and as soon as possible.

The work is all completed as shown on the plat and the final proof was submitted several months ago,

Yours respectfully,

A. S. Tubbs

Mr. A. E. Tibbs,
London, South Dakota.
Dear Sir:-

Your letter of the 11th instant concerning an error in the certification of W.E. and Hilma Longwood, which were issued from this office for filing in the U.S. Land Office, has been received and noted. I note that Mr. Thompson located the point of diversion under this water right at the wrong place and that you desire to have the certificates corrected to correspond with the location as given on the map sent by you. Upon referring to the files of this office, I find that these certificates correspond to the proofs of completion of works and of the application of the water to beneficial use which were submitted in this case. Under these circumstances, it would appear that it would be necessary for a new set of proofs to be submitted, which would correspond with the changes as designated by you. I, therefore, enclose two copies each of blank forms Nos. 25 and 24, which should be used in submitting said proofs. For your information I also enclose a copy of the original filing of W.E. Longwood and Hilma Longwood.

Yours very truly,

Deputy.

Enclosures:-

Mr. Samuel H. Lea, State Engineer,
Pierre, S. D.

Dear Sir:

Enclosed herewith find \$1.00 for which please send one final water license for the claim of Hilma Longwood in accordance with my last inspection report of this claim dated November 4, 1910. You will note that a correction was made in this last report as to location of point of diversion, and it is desired that the certificate corresponds exactly with the final location.

This, you may remember, is a joint water right of W. D. Longwood and Hilma Longwood.

Mr. Longwood urged me to request a prompt response for in accordance with the notice from the Land Office he now has twenty days to get the license here and recorded at Bison and back to the Land Office here.

Since talking this over with Mr. Longwood it seems best to have a certified copy of the original instrument filed with you together with ~~xxxx~~ a statement of the corrected location or the final location as it now stands.

Yours truly,

Deputy State Surveyor.

Cole Perkins Co. S. D.

July 2nd 1910

Mr S. H. Lea State Engineer

Pierre S. D.

Dear Sir:

Kindly advise me if
the water rights have not been
completed for myself and
my wife, Hilma Langwood
on Logpole creek to irrigate
part of section 25 & 26 range 15 E
& part of section 30 range 14 E
all in township 21 N B.H.M.
Water rights were filed under
the old system in 1904 on
Logpole and Antelope creeks
Antelope is a branch of
Logpole creek, In 1905

The work on the slope was done and water applied 1906, Loge pole dam was built 1906 and the water used in 1907 the principal work was then completed and the land was surveyed by Mr A. S. Tubbs of Lemmon June 1907

In April 1909 Deputy State Engineer Mr A. S. Tubbs went over and inspected the workings and water was applied to this land he expressed himself very satisfied saying he could make a very good report everything being permanent and in good order, He signed

papers which I understood
 would go with his report
 to the State Engineers Office
 and complete the water right.
 I am in receipt of Bulletin 210
 Irrigation in South Dakota
 and find on page 35 the names
 of water users of more recent
 date and far less developed
 workings than ours and ours
 are not mentioned. Therefore
 it appears to me that
 our water right is not completed.
 Mr A. S. Lupton said
 last fall that he believed
 it was all finished but
 we have received no certificate
 yet and as we are continually

expending money in
improving this land
we are anxious to have
it right

Very respectfully Yours
Wm. D. Longwood

SAMUEL H. LEA, STATE ENGINEER
RALPH VANDERBROOK, ASSISTANT

OFFICE OF STATE ENGINEER

PIERRE

July
Seventh,
1910.

Mr. William D. Longwood,
Gale, South Dakota.

Dear Sir:-

In reply to your inquiry of the Understant, concerning the water right of William D. Longwood and Helen Longwood, an investigation of the records of this office show that this water right was filed October 24, 1904, under the old law. Notice of completion of works, notice of application of water to beneficial use, and certificate of examination of works, were duly filed in this office on April 8, 1909. This action practically completes your water right, showing that you have complied with the requirements of the present law. The one remaining step to take in order to perfect your water right in every particular, is to obtain a water license from this office. There is no record shown of your having done this, and I presume no license has been issued. This, while not absolutely necessary, will be a matter of protection that perhaps it would be advisable to take. Should you wish to obtain a water license, same will be issued to you upon receipt of \$1.00 as fee.

Yours very truly,

State Engineer.

1433-1
April 27, 1902.

Mr. A.S. Tubbs, C.E.,
Lemmon, South Dakota.

Dear Sir:-

Referring to your letter of the 26th inst., I note that you wish to be informed concerning the matter of irrigating land comprising a desert claim and lying above another desert claim on the same stream.

In reply thereto will say that this office knows of no objection that can be raised to the construction of irrigation works under the conditions stated in your letter. The State Law does not restrict the construction of dams in such case, and it is believed that there can be no valid reason against the construction of the proposed dam.

Yours very truly,

State Engineer.

LEMMON, S. D.

April 26, 1909.

Mr. Samuel H. Lea, State Engineer,

Pier 3, South Dakota,

11. 0493-1

Dear sir:-

I have been requested to inquire of you if a Permit could be allowed to irrigate 120 acres of land lying above another claim on Lodge Pole Creek. There are at least 40 sections that drain into this creek above where the water would be diverted. The claim or claims mentioned are those of W. D. Longwood and wife. The distance between their main dam and the one proposed by the other party is about two miles. The party who desired to get the Permit above has told me that he has the consent (verbal) of Longwood to put in a dam above.

Please let me know as soon as possible, as I expect to be in that neighborhood surveying next week.

Yours respectfully,

A. S. Tubbs
Deputy State Surveyor
