Dear Sir:

In reply to your letter of yesterday's date, re Location Notice of John Given, will say that CERTIFIED COPY of such water location is on file in this office. The date of filing or receipt in the office is not given, but the copy indicates that it was made on December 1, 1906, and is signed by Frank Smith, Register of Deeds of Meade County. There is no evidence in the file that any work was done, or any water right issued.

Very truly yours,

State Engineer

RE: Cancellation of Water Right Filing # 0488-1

COMMENTS:

Mr Alfred Arneson and I looked at the site and there is no system in the area under the filing. Water was to be taken from Jim Hix draw and the Belle Fourche River has cut its banks up the draw so far that it is impossible for water to diverted from the draw. There is no evidence of any dam or system in the area.

Cancell because there is no system. The land owner should be contacted on my findings

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.
