RE: Cancellation of Water Right Filing # 0523-1

COMMENTS:

I drove down to the site and looked the area over and could find no evidence of irrigation. I talked to Russell Burmeister and he said he has farmed this area a number of times. He said there is a good spring in a draw there but the spring is in section 6 instead of section 7, T5N R15E. Burmeister said the spring had been developed several times for domestic use but it has been in disrepair for a number of years. He said it has never been used for irrigation as there is not enough water for that.

Cancel for non-use. The owner needs to be contacted about the findings of my investigation

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.
