1062-1

Dear Sirs:

Water Permit No. 1062-1 was originally approved July 24, 1975 for 0.27 cfs for industrial use by the Sturgis Industrial Expansion Corporation. Since that time, the permit has been transferred to the Sturgis Municipal Utility Board. During the inspection of the permit for water right licensing purposes, we found that the water is also used for municipal purposes. A change in use requires an application to be submitted to the Water Management Board.

Enclosed please find prepared application forms for change in use. Both copies of the forms should be signed, notarized and returned to this office. A copy of the well log as drilled should be included with the application. The cost of the application to the Utility Board should be the cost of advertisement in the Sturgis paper. When the Board approves the application, Permit No. 1062-1 will be incorporated into the change in use application approval and a water license can be issued.

Please advise, if you have any questions.

Very truly yours,

RE: License for 1062-1, Sturgis Municipal Utility Board

COMMENTS:

Mr. Cusma called concerning a recent letter he received from our office dealing with the Licensing of Permit No. 1062-1. The letter had indicated to the Utility Board that if municipal use was intended under this Permit (Permit originally approved for industrial use only) a new permit would have to be obtained to include municipal use.

Mr. Cusma indicated only industrial use is being used under this Permit. They having trouble getting enough water for the one use. He did not understand why the municipal use had been added to the inspection sheet. I

indicated to him that upon inspection, our engineer must have gotten the implication from whoever he spoke with that the system was being used for municipal use as well as industrial.

Mr. Cusma indicated this was not the case. The system does supply a small amount of water for domestic use for restrooms, etc.,

After talking to Mr. Hatch, I told Mr. Cusma the permit would be licensed for industrial use only. If they ever intended to use it for municipal use, they would have to apply for the use at that time. Mr. Cusma stated he understood that and would keep the application forms on hand in the event they should want to do so.

File in Permit file when necessary. Use to make a record of conversations and what the other party was told.
