Dear Mr. & Mrs. Millar:

I am writing to acknowledge receipt of the transfer form and filing fee for changing ownership on Water Right No. 440-1. The ownership change has been completed. Water Right No. 440-1 formerly held by David Richards is now listed in your names.

During the transfer process for No. 440-1, I found two other water rights held by Mr. Richards which authorize irrigation of land you may now own. Enclosed are copies of Water Right No. 1076-1 and Vested Water Right No. 367-1 for your review. If you now own the land described in each of these, they should be transferred to you as well. I have included partially completed Notice of Transfer of Ownership forms for filing the ownership changes. If you only own portions of each one, please edit the forms according. Upon completion, please sign and return them to our office with a required filing fee of \$50.00 each (total of \$100). The check or money order for the fee can be made payable to the Water Rights Program.

I would like to take this opportunity to go over a couple issues relative to these water rights. With reference to Water Right No. 440-1 from the Belle Fourche River, each year you will be receiving an irrigation questionnaire for reporting annual water use. I am enclosing a sample copy of the annual irrigation questionnaire to give you an idea of what type of information to keep track of during the season. Questionnaires are not required for the other two water rights since they are for water spreading systems.

Lastly, water rights for irrigation can be lost if they are not used. Under South Dakota Water Law, water must be placed to beneficial use for the purpose it was appropriated at least once every three years in order to maintain a water right. This three year period may be waived if legal excuse exists for the years of nonuse. Enclosed are excerpts of the water right laws and Water Management Board Rules dealing with these issues.
