You are hereby ordered to cease pumping water from the North Fork of the Grand River from the North Dakota - South Dakota border to the tailwaters of the Shadehill Reservoir, for the remainder of the year, unless written notice is received indicating otherwise. Apparently there was some misunderstanding with the order issued July 15, 1980 and this order is issued to clarify any misunderstanding.

This order is issued in accordance with the South Dakota Water Laws which require the Water Management Board to control and regulate all waters of the State to assure water for domestic supplies and prior water rights.

All the permits above the Shadehill contain the qualification that low flows as needed for downstream domestic use, including livestock watering must be bypassed.

This letter will revoke the order dated September 4, 1980 shutting off irrigation pumping from the North Fork of the Grand River between Shadchili Reservoir and the North Dakota border.

In an effort to provide more local control of the pumping from the North Fork of the Grand River, we are going to allow the local Irrigators Association to attempt to regulate themselves to better utilize the limited flows in the North Fork. The primary requirement will be that water for livestock use will need to be made available for downstream use.

We expect that someone from this office will be in the area this week.

Dear Mr. Sonn:

On November 1, 1983, I visited your farm for the final inspection of your water permit No. 1079-1. The purpose of the final inspection is to compare the original conditions of the permit with what you have developed. After all necessary corrections are made, the water permit is licensed and becomes a water right.

I discussed with you that some of your developed acreage is not covered by Permit No. 1079-1. The lands on the enclosed application are the areas which are not covered. The time for developing or amending Permit No. 1079-1 ended on March 17, 1981; therefore, a new permit is required for any developed acreage not covered by permit No. 1079-1.

Soil and water compatibility is also required for all new permits. Enclosed is a VI-1 form which must be completed to obtain soil and water approval. I suggest you contact the Division of Conservation to determine what steps are needed to complete the VI-1 form. (773-3258).

Please answer the questions which have not already been completed and correct any errors. The forms must then be notarized and returned with an application fee of \$150.00. Thank you for your time and consideration.

Sincerely,

Dear Mr. Sonn:

The previous letter, dated December 30, 1983, contains a couple of errors which need correction. The first error is the required fee for your new permit. The application fee is \$250.00 instead of \$150.00. The new permit contains a total of 128.2 acres which requires a fee of \$250.00. The enclosed set of instructions shows the cost breakdown for a permit application.

The second error is the telephone number of the Division of Conservation. The correct number is 773-3259. Thank you for your time and i am sorry for the inconvenience.

Dear Mr. Sonn:

We have been contacted by the Division of Water Rights concerning the status of your Soil and Water Compatibility application for 39.0 acres not covered under Water Permit #1079-1. This permit can not be licensed until these acreages are permitted.

In view of the water quality of the North Grand River and its known adverse effects on the soil, we would like to investigate the possibility of a Waiver of the Soil and Water Compatibility permit. In order to complete this investigation we request that the following additional information be provided.

- 1.) a soil map outlining the area irrigated
- 2.) proof that the 39 acres in question were the results of an error made at the time of original construction
- 3.) a list of all acreages irrigated - as of July 1, 1985 in South Dakota.

There is additional information required relative to processing the application for a Waiver of the Soil and Water Compatibility permit, but the staff has been able to obtain it from other sources.

Please be advised that upon receiving the requested information the staff shall determine if the waiver or permitting process is to be used and will act accordingly.

Please feel free to contact this office should you require further assistance or have any questions.

Sincerely,

Jim Stukel

RE: Inspection of Water Permit # 1079-1 for Added Acreage.

COMMENTS:

I drove to the site and the farmstead. No one was at home. I inspected the area from the road and found that there is no center pivot in section 30, across the road from the farmstead. The center pivot has been removed. Also there are no pumps or motors at the pump site. There is still a center pivot in section 29 but I do not know whether it has been used lately or that there are pumps for the center pivot. I did not drive over to check for pumps at the pump site.

I talked to Gary Rohrer, an assistant Fm H.A. administrator in Bison, SD. He said Loren Miller from Lemmon SD now owns the property.

This permit appears to be subject to cancellation but Miller should be contacted to see if there is any irrigation being done under this permit.

Ph. 374-5915

8-11-87. I talked to Sherrie Sonn and she said they still own the land. They sold the large west center pivot but the small pivot NE of the house is still in use. Don't not irrigate so far this year. Call me later to get particulars on the permit.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

COMMENTS:

I looked through this permit and find that the application showed the area to be irrigated as the NW $\frac{1}{4}$ of section 29 - T 22 N R 12 E. However it was advertised for the SW $\frac{1}{4}$ of section 29. The permit needs to be re-advertised to correct the error. The system is on the NW $\frac{1}{4}$ of section 29.

Sherrie Sonn should be contacted first as there is a possibility they may not continue to irrigate. They removed the center pivot from section 30 but the one in the NW $\frac{1}{4}$ of section 29 was there in August 1987 when I was following up on suspended permits. It was not running at the time I was there.

WAIVER:

The staff is recommending a Waiver based on the following reasons:

The additional 39 acres are part of the project covered under Water Right #994-1.

Water Right #994-1 was issued in 1976, prior to the Soil and Water Compatibility Permitting requirement.

The area in question and the lands under water permit can be established as irrigated by a center pivot since the time of installation.

TYPE OF PERMIT GRANTED AND REASON:

The irrigator was advised of the adverse effects the water of the Grand River has on the soils of the area and that the application would be subjected to the permitting process should the commission deny his waiver.

Dear Mr. Strain:

As you requested, I reviewed Water Permit No. 1079-1 in an effort to determine the status. In June, 1988, we were awaiting word from Roger Sonn as to whether or not they intended to proceed with an application they filed April 25, 1984. The application was to add lands to an existing permit.

Rassoul Ahadi, Engineer with the Division of Water Rights, spoke with Mr. Sonn, June 8, 1988. At that time, Mr. Sonn indicated the big pivot was no longer present; however, they would like to get another system to irrigate the acreage once covered by the big pivot. Nothing has been done on our part since that time. We were holding up the license to see if Mr. Sonn would continue to irrigate the lands described in the new application.

In answer to your question about the transfer of the water permit, the permit can be transferred at any time. Enclosed is a "Notice of Transfer" for use in filing an ownership change. The form will need to be completed and then signed by the new owner at such time as the land changes ownership.

If you have any further questions, please contact me.

Dear Mr. Sonn:

The inspection of your water use system and inspection of the extent of the application of water to beneficial use, as developed under your Water Right No. 1079-1 has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuing of the Water License. Upon receipt of the \$50.00 fee from you, your Water License will be sent to you.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until this \$50.00 license fee has been paid. Please contact us if you have any questions.

NOTICE OF WATER LICENSE INSPECTION FEE REQUIREMENT

Roger Sonn
Cole Rt.
Hettinger, North Dakota 58639

Dear Mr. Sonn:

December 30, 1983 you were notified the final inspection fee of \$50.00 is due before Water License No. 1079-1 can be issued. As of this date, the fee has not been received.

The fee is a final step in the legal process of obtaining and perfecting a water right and is required by SDCL 46-2-13(3). Upon receipt of the \$50.00 fee, your Water License will be sent to you. This is the final document for the perfection of your Water Right. A perfected water right is similar to a property right and once a water right is perfected, it cannot be lost as long as the water is used.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the License fee has been paid. Please submit the required fee immediately to avoid jeopardizing your water permit.

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Division of Water Rights, DENR, Foss Bldg., Pierre, SD 57501

I have this day made a thorough examination of the water use system constructed by Sherrie Sonn of HCR 5 Box 895, Hettinger, ND 58639 holder of Permit No. 1079-1, bearing the priority of February 24, 1976 authorizing the diversion of 4.0 cu. ft. per second of the waters of surface water for irrigation purposes, in Perkins County.

I have to report on the conditions of the same as follows:

- A. Works used to divert the water:
A Cornell pump with a 600 gpm capacity.
- B. Works used to transport water to place of use:
1380 feet of 6 inch aluminum pipe and 2770 feet of 10 inch PVC pipe.
- C. Works used to apply water to beneficial use:
An 800 foot center pivot and a 2000 foot towline.

The system is in the following condition fair. The point of diversion is located From the NW corner of Section 29 T22N-R13E; Point #1 - 2600 ft S, 570 ft E; Point #2 - 2260 ft S, 2400 ft E. The works are capable of diverting and conveying to the place of use 1.34 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

Section 29 T22N-R13E:

NW1/4 NW1/4 - 10 ac NE1/4 NW1/4 - 34 ac SE1/4 NW1/4 - 12 ac

REPORT ON WATER PERMIT NO. 1079-1
SHERRIE SONN
December 17, 1993

Water Permit No. 1079-1 appropriates 4.0 cubic feet of water per second from the North Fork Grand River located in the S 1/2 NW 1/4 Section 29-T22N-R13E to irrigate 278.5 acres. Readvertisement of the notice of hearing published on March 4 and 11, 1976 is needed to correct the legal description of the irrigated acres and diversion points prior to issuance of the water license. The location of some irrigated acres was incorrectly advertised as being located in the SW 1/4 Section 29, SE 1/4 Section 30, NE 1/4 Section 31; all in T22N-R13E. The correct location of the acreage developed for irrigation is the NW 1/4 Section 29, SE 1/4 Section 30 and the NE 1/4 Section 31; all in T22N-R13E. Diversion points from the North Fork of the Grand River are located in the S 1/2 NW 1/4 Section 29-T22N-R13E, not in the S 1/2 SW 1/4 Section 29 as originally advertised. This readvertisement does not authorize any increase in the acreage irrigated or increase in the developed diversion rate.

Conclusions

1. This is a readvertisement of the Notice of Hearing for Water Permit No. 1079-1.
2. This readvertisement is necessary to correct the legal description of the lands being irrigated and diversion points prior to issuance of a water license. The correct location of the irrigated acreage and one of the diversion points was identified on the permit application.
3. The correct legal description of the lands being irrigated is the NW 1/4 Section 29, SE 1/4 Section 30 and the NE 1/4 Section 31; and the correct legal description of the diversion points is the S 1/2 NW 1/4 Section 29; all in T22N-R13E.

RECOMMENDATION OF CHIEF ENGINEER FOR READVERTISED WATER
PERMIT APPLICATION NO. 1079-1, Sherrie Sonn

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Environment and Natural Resources concerning readvertised Water Permit Application No. 1079-1, Sherrie Sonn, HCR 5 Box 895, Hettinger, ND 58639.

The Chief Engineer is recommending APPROVAL of readvertised Application No. 1079-1 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. Low flows as needed for downstream domestic use, including livestock watering and prior water rights must be by-passed. Flows of the Grand River proposed for use under this Permit are included under U.S. Withdrawal No. 594-1 for storage in Shadehill Reservoir. Restrictions on the use of water under this Permit may be necessary if the Bureau of Reclamation develops the Shadehill Irrigation Project under such withdrawal.
2. This Permit does not authorize diversions from the North Fork of the Grand River after July 15 of each calendar year, nor at any time when the river is obviously low, unless written orders have been so issued by the Water Management Board or its legally appointed representative. Diversions under this Permit shall be in accordance with any written orders issued by the Board or its representative.

See report on application for additional information.

Readvertisement of NOTICE OF APPLICATION NO. 1079-1 to Appropriate Water

Notice is given of readvertisement of Water Permit No. 1079-1 held by Sherrie Sonn, HCR 5 Box 895, Hettinger, ND 58639. The permit was originally applied for on February 24, 1976. Water Permit No. 1079-1 appropriates 4.0 cubic feet of water per second from the North Fork Grand River to irrigate 278.5 acres. Readvertisement of the notice of hearing published on March 4 and 11, 1976, is needed to correct the legal description of a portion of the irrigated acres and the diversion points. The location of the irrigated acres was incorrectly advertised as being located in the SW 1/4 Section 29, SE 1/4 Section 30, NE 1/4 Section 31; all in T22N-R13E. The correct location of the acreage developed for irrigation is the NW 1/4 Section 29, SE 1/4 Section 30, and the NE 1/4 Section 31; all in T22N-R13E. Diversion points from the North Fork Grand River are located in the S 1/2 NW 1/4 Section 29-T22N-R13E, not in the S 1/2 SW 1/4 as originally advertised. This readvertisement does not authorize any increase in the acreage irrigated or increase in the developed diversion rate.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of readvertised Application No. 1079-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Ross Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by January 21, 1994.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Division address to request copies of information pertaining to this application. Russell L. Readvertisement of NOTICE OF APPLICATION

NO. 1079-1 to Appropriate Water
Notice is given of readvertisement of
water permit no. 1079-1 held by Sherrie
Sonn, HCR 5 Box 895, Hettinger, ND
58639. The permit was originally applied
for on February 24, 1976. Water Permit
No. 1079-1 appropriates 4.0 cubic feet
of water per second from the North Fork
Grand River to irrigate 278.5 acres.
Readvertisement of the notice of hear-
ing published on March 4 and 11, 1976,
is needed to correct the legal descrip-
tion of a portion of the irrigated acres
and the diversion points. The location of
the irrigated acres was incorrectly ad-
vertised as being located in the SW 1/4
Section 29, SE 1/4 Section 30, NE 1/4
Section 31; all in T22N-R13E. The cor-
rect location of the acreage developed
for irrigation is the NW 1/4 Section 29,
SE 1/4 Section 30, and the NE 1/4 Sec-
tion 31; all in T22N-R13E. Diversion
points from the North Fork Grand River
are located in the S 1/2 NW 1/4 Section
29-T22N-R13E, not in the S 1/2 SW 1/4
as originally advertised. This
readvertisement does not authorize any
increase in the acreage irrigated or
increase in the developed diversion
rate.

Pursuant to SDCL 46-2A-2, the Chief
Engineer recommends APPROVAL of
readvertised Application No. 1079-1 be-
cause 1) unappropriated water is avail-
able, 2) existing rights will not be unlaw-
fully impaired, 3) it is a beneficial use of
water, and 4) it is in the public interest.
In accordance with SDCL 46-2A-23, the
chief engineer will act on the application,
as recommended, unless a petition is
filed opposing the application or the ap-
plicant files a petition contesting the
chief engineer's recommendation. If a
petition opposing the application or
contesting the recommendation is filed,
then a hearing will be scheduled and the
Water Management Board will consider
the application. Notice of the hearing will
be given to the applicant and any person
filing a petition.

Any person interested in opposing or
supporting this application or recom-
mendation must file a written petition
with BOTH the applicant and chief engi-
neer. The applicant must file a petition if
contesting the chief engineer's recom-
mendation. The Chief Engineer's ad-
dress is "Water Rights Division, Foss
Building, 523 E. Capitol, Pierre SD
57501 (605-773-3352)" and the
applicant's mailing address is given
above. A petition filed by either an
interested person or the applicant must
be filed by January 21, 1994.

The petition may be informal, but must
include a statement describing the peti-
tioner's interest in the application, the
petitioner's reasons for opposing or
supporting the application, and the sig-
nature and mailing address of the peti-
tioner or the petitioner's legal counsel, if
legal counsel is obtained. Contact Eric
Gronlund at the above Water Rights Di-
vision address to request copies of in-
formation pertaining to this application.

RE: Non Irrigation

COMMENTS: Linda Fvridge called to ask about the ad for Water Right No. 1079-1. She said that the Sonns had sold the pivot on the 280 acres in 1981 or 82. She said that she was aware that the Sonns are junior in right but she was worried that somebody else may buy the place and develop a system and would start to irrigate. I told her that because of the lack of water in NRGR, we can not recommend cancellation of a water permit. However, if there is no system and the land has not been developed, we will recommend cancellation. I told her that next Summer, we will look at the area and see if there is a system or not.

Mark Rath has inspected the WR No. 1079-1 in June of 93. The inspection shows that the Sonns own a pivot and a towline. I called Linda back and told her about the system, she said that did not know that they had a system.

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

STATE OF SOUTH DAKOTA
WATER LICENSE NO. 1079-1 FOR IRRIGATION

(1) Larry Archibald of Hettinger ND made Application No. 1079-1, February 24, 1976 for a water permit to appropriate 4.00 cubic feet of water per second from the North Fork Grand River, Perkins County, South Dakota for irrigation purposes. Permit No. 1079-1, with a priority date of February 24, 1976 was approved March 17, 1976 and issued to the applicant for diversion of water with construction of the described water supply system completed and the application to beneficial use of said water completed.

Water Permit No. 1079-1 was transferred May 18, 1977 to Roger Sonn; November 20, 1988 to Sherrie Sonn and February 15, 1994 to Roger or Sherrie Sonn.

The permit was readvertised January 4 and 11, 1994 to correct errors in the legal descriptions of a portion of the irrigated acres and the diversion points. The readvertisement of the original notice of hearing did not authorize an increase in the acreage or developed diversion rate.

(2) It is certified that the applicant has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.34 cubic feet of water per second for beneficial use. The location of the diversion points are: Point #1 - 2600 feet S, 570 feet E (SW 1/4 NW 1/4); Point #2 - 2260 feet S, 2400 feet E (SE 1/4 NW 1/4); from the NW corner of Section 29-T22N-R13E.

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

T22N-R13E	Section 29	NW 1/4 NW 1/4	10 acres
		NE 1/4 NW 1/4	34 acres

Dear Mr. and Ms. Sonn:

Enclosed is Water License No. 1079-1 and Receipt No. 4 9612 for \$50.00 which was assessed for an inspection and issuance of the license. Water License No. 1079-1 is the final document which completes the process of obtaining a water right.

On April 25, 1984, an application and \$150.00 fee was submitted for 39 acres located in Section 30 and 31, all in T22N-R13E. Based on the results of Mark Rath's inspection on June 23, 1993, this application is not necessary. The \$150.00 application fee is being refunded. You should be receiving the refund check within the next couple of weeks.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,
