WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 1130-1

EAST SLOPE ESTATES WATER ASSC.
(Applicant)

WHITE WOOD
(Post Office Address)

SOUTH DAKOTA 57723
(State)

With the following modifications:

The ~~suburban~~ well approved under this Permit is located near domestic wells which may obtain water from the same aquifer. The ~~suburban~~ well owner, under this Permit, shall control his ~~suburban~~ withdrawals so there is not a reduction of needed water supplies in adequate domestic wells.

Date of first receipt of application FEBRUARY 24, 19 77
Date of return to applicant for correction, amendments or changes required FEBRUARY 28, 19 77
Date of receipt of corrected application: MARCH 2, 19 77
Approved MARCH 23, 19 77, Recorded in Book 17 Page 266

WATER RIGHT PERMIT NO. 1130-1

The Water Rights Commission hereby grants and issues this Water Right Permit No. 1130-1 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is FEBRUARY 24, 1977
2. The equivalent of at least one-fifth of the work above specified is ~~to be~~ completed on or before
3. The whole of said work is ~~to be~~ completed on or before
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is COMPLETED
5. The water appropriated shall be used for the purpose of SUBURBAN HOUSING
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed .33 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for ~~beneficial use~~ and if for the irrigation purpose said appropriation must be limited to not more than 2 cubic feet per second per acre and be limited to not more than 1700 of one cubic foot of water per second of time use of land to which water is USED FOR SUBURBAN HOUSING DEVELOPMENT actually and beneficially applied for irrigation on or before THIS DATE; said water to be used during the following described annual period: CONTINUOUSLY

ATTACHMENT I

EAST SLOPE WATER ASSOCIATION

APPLICATION FOR WATER PERMIT

The following descriptive material sets forth the underlying foundation for the water permit applied for hereby.

The East Slope Estates Water Association is a non-profit association of individuals banded together by agreement dated May 20, 1976, for the purpose of owning, maintaining and operating a water line system within the real estate subdivision known as East Slope Estates, located near the city of Whitewood, Lawrence County, South Dakota. A copy of the agreement referred to is attached to this document and labeled Exhibit A. The document has been signed by all owners of property located within this subdivision and the agreement extends to and binds the owners of the lots within the subdivision and their successors and interests.

The legal description of East Slope Estates is as follows:

East Slope Estates lying in portions of the North Half of the Southwest Quarter, and the South Half of the Northwest Quarter, Section 16, Township 6, North Range 4 East of the Black Hills Meridian, Lawrence County, South Dakota, lying West of South Dakota highway #34, Lawrence County, South Dakota, as shown by plat as recorded in the office of the Lawrence County Register of Deeds in Book 6 of plats at page 223 thereof.

The water system serving East Slope Estates consists of a well, storage tank and underground pipeline system serving Lots 1-13 of the subdivision. An outline of the water system is shown on Exhibit B hereto with the well, holding tank and pipeline running from Lot 13 in the North end of the subdivision, and crossing portions of plated lots until it reaches the public right-of-way plated in Lot 10 and running through the plated right-of-way South through the subdivision until it reaches Lot 5 of the subdivision where it crosses Lot 5 to another plated right-of-way and remains in the plated right-of-way for the rest of the system.

Exhibit C is a detailed surveyor's rendering of Lot 13 and showing specific distances and courses for the location of the well, storage tank, and water line as the same is placed on Lot 13 of the subdivision.

Exhibit D is a surveyor's rendering of the course of the water line across Lots 13, 14, 15, 12 and 10 where the water line crosses private property and enters the public right-of-way.

The water line remains within the public plated right-of-way until it reaches Lot 5 at the South end of the addition. Exhibit E shows the course of the water line across Lot 5 where it enters another public right-of-way and remains therein.

The easements set forth in Exhibits B through E are all formalized easements by virtue of the Exhibit attached hereto as Exhibit A and bind all the property owners and their successors and interests.

Exhibit A

EAST SLOPE ESTATES WATER ASSOCIATION AGREEMENT

KNOW ALL MEN BY THESE PRESENTS:

That the undersigned, owners of lots located within the subdivision known as "East Slope Estates", which property is specifically described as:

Lots 1 through 3 and 5 through 16 inclusive, East Slope Estates, located in the North Half of the Southwest Quarter and the South Half of the Northwest Quarter of Section 16, Township 6 North, Range 4 East of the Black Hills Meridian, Lawrence County, South Dakota.

finding it mutually advantageous to band together for the purpose of owning, maintaining and operating a common water system providing water for domestic purposes to the lots above described, do now, by execution hereof, and by common consent of all of the undersigned, band together and form an association to be henceforth known as the "East Slope Estates Water Association", and in furtherance thereof do hereby adopt the following agreements, covenants and regulations intending the same to govern the workings of this association and further intending the same, where applicable, to be covenants running with the land and binding upon all of the parties hereto as well as their successors in interest upon sale, transfer, or bequest of title to said land.

WITNESSETH:

I.

That the name of this association shall be known as EAST SLOPE ESTATES WATER ASSOCIATION, whose existence shall be perpetual and which is formed for the purpose of maintaining and operating a water system to provide water for domestic purposes to the lots above-described within the East Slope Estates.

II.

There being located upon Lot 13 of East Slope Estate a water well and storage tank which are respectively denominated as Lots 13W and 13R, portions of Lot 13, a part of East Slope Estates in the North Half of the Southwest Quarter and the South Half of the Northwest Quarter of Section 16, Township 6 North, Range 4 East of the Black Hills Meridian, Lawrence County, South Dakota, as shown by the plat thereof recorded in the office of the Lawrence County Register of Deeds on the 12th day of May, 1976, in Docket 76-1063, which well and water storage tank system forms the source of water for the lots participating in this association, it is agreed that each owner of Lots 2 through 16, East Slope Estates, shall acquire an undivided 1/15th interest in and to Lots 13W and 13R as above described, which interest shall be in addition to title to the lot so owned and upon conveyance of the lot, said undivided 1/15th interest in Lots 13W and 13R shall be transferred in conjunction with each other, it being the intention of the undersigned that only owners of Lots 2 through 16, East Slope Estates, shall be entitled to any ownership in Lots 13W and 13R and participation in this association. Ownership of said 1/15th interest shall include an undivided 1/15th interest in all pipe, materials, pump, equipment and all other assets of this association.

III.

It is understood that water lines running from the water storage tank and well throughout the additions, for the most part, lie within platted easements and reserved rights-of-way in the plat of East Slope Estates, however, in certain

cases the water line must necessarily cross private ground outside of any platted easement or reserved right-of-way and in all such instances the owners of the respective lots across which said water lines pass do hereby grant to the members of this association and to the general public the right to come upon any private property for the purpose of maintenance, repair, replacement or servicing of any water line belonging to this association, subject to the right of the individual owner to be compensated for damage to his property as a result thereof. More specifically, the attached Exhibits A and B, being scale drawings of Lot 5 and of Lots 10, 12, 13, 14 and 15, East Slope Estates, respectively, which exhibits are hereby incorporated into this agreement by specific reference, attempt to show the location of the water lines upon the lots so affected and as to the location of the water line upon said respective lots, said right of ingress and egress for the purpose of maintenance, repair and replacement of the water system is hereby granted by the respective owners thereof.

IV.

The members of the association agree to pay their proportionate share of the expenses of owning, operating and maintaining said water system, which expenses are contemplated to be the expense of electricity for running of the pump of the well, expense of replacement of well pump or parts, storage tank or parts and water line. Said payments shall be made at a time to be agreed upon by the parties and in accordance with notice duly given to all members of the association. The members further agree to appoint or elect one of their members to serve as secretary of the association for the purpose of notifying the members of assessments and the members do hereby pledge their mutual cooperation and support for the maintenance and operation of the water system.

V.

The owners of a lot or lots within this association shall be entitled to one tap in per lot to the water line of the association. The tap in shall serve a single family residence located upon the lot owned by the member with use of water being limited to ordinary domestic water use as the same is defined by South Dakota law. In cases where a member of this association may own more than one lot within East Slope Estates, said owner shall be entitled to one tap in for each lot so owned. In instances where an owner owns more than one lot but desires to put more than one residence on one of the lots and said scheme of development is not otherwise restricted by any other covenants or restrictions pertaining to said land, then said owner shall be entitled to place each residence upon the system, provided he does not exceed one tap in per lot owned with the understanding that any subsequent purchaser of the undeveloped lot shall not be entitled to a tap in. The owners shall pay a fee for each tap in at the rate of \$1,800.00 per tap in, which shall be paid by the owner at the time of tap in and which shall be a one time fee for the privilege of tapping into the water line and shall not be reimbursed by the association to the member upon sale, it being the member's option to recoup any or all of said fee from any subsequent purchaser. Said tap in fee shall be paid to the association and shall be used for the purpose of retiring any indebtedness of the association, maintenance, or expense, and if not so used, shall be apportioned back to the members of the association on an equal basis.

VI.

The association does not guarantee water or the workings of the system to any member and is not intended to be a guarantor or surety of water in any specific amount or quality to any member.

VII.

In the event an owner of a single lot within this association shall place more than one single family residence upon his lot, any subsequent residence shall

not be entitled to a tap in nor shall the owner be entitled to provide water to said additional residence through his own residence, it being contemplated by these parties that no more than one house per lot shall be entitled to draw water from this system, other than as provided in Paragraph V above.

VIII.

The members of this association, individually and each for themselves, hereby agree that upon sale of their lot to any subsequent third party or upon transfer of title in any manner to any subsequent third party, that the terms and conditions of this agreement shall extend to said third party. Membership in the association shall cease upon sale or transfer of title and the member agrees to convey any undivided interest he or they may have in the well and storage tank lots along with the lot being sold and any interest in the water lines, easements and rights-of-way thereto pertaining. The members further agree that they will inform any subsequent purchaser of the existence of this water association and the terms and conditions under which water will be allowed. It is the intention of the undersigned that this agreement be made a matter of public record by appropriate recording and shall serve as notice to the general public of the existence of this association and of the terms and conditions of membership within the association and any provisions hereof which may affect the fee title to real property referred to herein shall be deemed to be a covenant running with the land and shall bind any subsequent purchaser, mortgagor, encumbrancer or successor in interest to any member.

IX.

The members hereof do hereby extend this agreement to their respective heirs, administrators, executors, assigns and successors in interest and state and declare that the exchange of premises and mutual cooperation pledged herein shall be deemed to be sufficient consideration for this agreement.

**REPORT OF EXAMINATION OF WORKS
AND/OR APPLICATION OF WATER TO BENEFICIAL USE**

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / FOSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made thorough examination of the water use system constructed by East Slope Estates
Water Assoc. of Whitewood, S. Dak. 57793 holder
of Permit No. 1130-1, bearing date of priority of February 24, 1977
authorizing the diversion of 1.33 cu. ft. per second of the waters of one well
for Suburban Housing Development purposes, in Lawrence County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

1.0 HP Submersible Pump
pumping 40 gpm

B. Works used to transport water to place of use,

Water Distribution System to Houses and Trailers
3000 gal Storage Tank

C. Works used to apply water to beneficial use.

Households & Trailers

The system is in the following condition, Good

The point of diversion is located 300 ft N and 1680 ft west of the
Center of Section 16, T6N R4E

The works are capable of diverting and conveying to the place of use 1.33
cu. ft. per second of water which is to be used for Suburban Housing Development

Water has been put to beneficial use to the maximum extent as follows:

comprising a total of _____ acres of land.

Well data:

Depth 1200 ft40 gpmStatic 110 ft120 ftMax Capacity 150 gpmPumping @ 40 gpmDate May 14, 1981
