Dear Mr. Burghduff:

The inspection of your water system and inspection of the extent of your application of water to beneficial use, as developed under your Water Right No. 1072-1 has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuing the Water License. Upon receipt of the \$50.00 fee from you, your Water License will be sent to you.

You will also receive the certificate of construction as required by statute.

On form of payment, please include the number of the water permit. This insures proper handling of the fee.

In regards to the 25 acres of waterspreading west of the farmstead in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ section 20 that is supplied water from the diversion ditch, this office has no record of filing for a permit on this land. We would appreciate you sending us information or evidence of a water permit for this area. If there has been no permit filed, then according to the South Dakota Statutes it will be necessary for you to file for a permit with this office. If you can tell us the year this system was constructed we can then determine whether you should file for a Vested Right or for a new permit to cover that area. When we receive this information we will send you the proper forms.

If you have any questions regarding the matter, please feel free to contact this office.

Sincerely,

LEROY J MERNAUGH

Dear Mr. Mernaugh,

This is in reference to your letter dated December 23, 1982 regarding 25 acres of waterspreading west of the farmstead in SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 20 Twp. 21N, Rge. 2E.

This site was developed in 1928 and has been in operation since that date. In 1976 the dikes were reorganized to make the system more efficient but the overall development area remained the same.

Please mail the proper forms so as to enable me to obtain a water permit covering that area.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. Bail:

I am writing to acknowledge receipt of the transfer forms and filing fees you submitted for changing ownership on Water Right No. 1072-1 and Vested Water Right No. 1282-1.

The ownership changes have been completed. Nos. 1072-1 and 1282-1 formerly held by Cheryl Burghdoff and now listed in your name.

For informational purposes, Water Right No. 1072-1 carries a requirement to report water use each year. The annual irrigation questionnaires are scheduled to be mailed out to irrigators October 20th. You will only need to report the use from the Little Missouri River and Rocky Butte Creek as authorized under No. 1072-1.

Enclosed for your records are Receipt Nos. 08344 and 08345 in the amounts of \$50 each. If I can answer any questions for you, please let me know.

Sincerely,

Genny McMath
