WATER PERMIT

The Water Management Board hereby approves Water Permit Application No. _____

(Applicant)

(Post Office Address)

(State)

(Zip Code)

With the following qualifications.

see Form UR-II

Date of first receipt of application _____, 19____.

Date of return to applicant for correction, amendments or changes required _____, 19____.

Date of receipt of corrected application _____, 19____. Approved _____, 19____.

The Water Management Board hereby approves this Water Permit No. _____ authorizing the construction of the water use system and the placing of water to beneficial use as stated in the Application and as qualified in the Water Permit approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is _____, 19____.
2. The equivalent of at least one-fifth of the specified work is to be completed on or before _____, 19____.
3. The whole of said work is to be completed on or before _____, 19____.
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is _____, 19____.
5. The water appropriated shall be used for the purpose of _____.
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be unlawfully impaired by this appropriation.
7. The amount of the appropriation herein granted shall not exceed _____ cubic feet per second; neither shall it exceed the capacity of the above described water supply system nor shall it exceed the amount of water needed for beneficial uses served and to which water is actually and beneficially applied for _____ on or before _____, 19____; said water to be used during the following described annual period: _____.

VESTED Water License No. 1310-1

(1) the City of Bison
of Bison, South Dakota
made Application No. 1310-1, March 23, 1984 for recognition of /a Vested Right
for a water permit to appropriate
0.01 cubic feet per second of water from groundwater (one well-Fox Hills Formation),
Perkins County, South Dakota for municipal purposes.
Vested Right
/Permit No. 1310-1, with a priority date of January 1, 1954
recognized July 11, 1984 and issued to applicant(s) for diversion of water recognizing
was approved with construction of the described
water supply system to be completed on or before and for the application to beneficial use of said
water on or before.

and

(2) It is certified that the application has complied with the provisions of South Dakota State Law relating to completion of
the construction of the water supply system and is entitled to divert 0.01 cubic feet per second of water
for beneficial use. The location of the diversion point(s) is 2190 feet E and 1140 feet S from the
Center of Section 13, T18N, R13E (DA)

and

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to the following extent, water is used for municipal purposes for the City of

Bison (Well #3)

(4) Pursuant to §46-5-30.1 the City of Bison,

of Bison, South Dakota 57620

the holder(s) and/or owner(s) of Vested Right Water Permit No. 1310-1 is issued a license to appropriate water, the right to use

0.01 cubic feet per second of water from groundwater (one well) with a priority date

of January 1, 1954 from the location specified in (2) of this license. The water to be

conducted ^{as} to and upon lands specified in (3) of this license for the purpose of municipal use

This license is subject to any limitations or qualifications listed in Vested Right Water Permit No. 1310-1 and subject to South Dakota State Law.

Comments on Public Water Systems Water Rights Applications
June, 1984

CITY OF BISON: 1309-1

Well #6 (vetter) and #8 (McKistry) are existing sources. Water quality for both common ion and inorganics is satisfactory. P & S was submitted for #8. Uncertain as to #6. No problem with contamination from the lagoons has occurred nor is any expected.

CITY OF BISON: 1310-1 (vested right)

Well #3 (Moore) is an existing source. Water quality for both common ion and inorganics is satisfactory. Uncertain as to P & S for #3. Lagoons are not a problem.

CITY OF WALL: 1868-2

This is a future use request for Inyan Kara or Madison formation water. The city's existing sources utilize Inyan Kara water. Both common ion and inorganic chemical quality is satisfactory.

Madison formation water in central and west central S.D. has been found, in some instances, to contain Radium 226-228 in excess of the Drinking Water Standard MCL's. I'm not certain whether this problem would be encountered in the Wall vicinity.

ELM VALLEY SCHOOL DIST. 6-2: 5004-3

Elm Valley School is a non-community public water system. There is a pipeline that serves the Town of Barnard. Inorganic and radiological values are satisfactory. Common ions are satisfactory although the TDS is high - 2064 mg/l (mostly SO_4 - 1155 and Na - 642). No P & S available. The school will hook up to the WEB⁴ system in the future.

DIAMOND T MOBILE HOME PARK: 1876-2

This PWS serves approximately 90 people from a single well. The common ion water quality is excellent with the only aesthetic inconvenience being water that is 18 gpg hard. This water quality has been consistent over the past 10 yrs. Radiological sampling was completed 9/81 with no violation of standards. Inorganic analysis was last performed 3/80 with no violation of standards.

The well is located approximately 1000' southwest and upgradient from the lagoon central sewer service.

Well #1 is an existing source. Well #2 is or will be a new source for which Office of Drinking Water has not yet received any P & S.

VISTA HILLS: 1871-2

This PWS serves approximately 36 people from a single well. The common ion water quality is excellent with the only aesthetic inconvenience being water that

Report Of Examination Of Works And/Or Application Of Water To Beneficial Use

TO: Chief Engineer, Division of Water Rights, DWRN, Foss Bldg., Pierre, SD 57501

I have this day made a thorough examination of the water use system constructed by City of Bison of Bison SD 57620 holder of Permit No. 1310-1, bearing the priority of Jan. 1 19 54 authorizing the diversion of .01 cu. ft. per second of the waters of Fox Hills Formation - ground water for municipal purposes, in Perkins County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water: 5hp. electric motor with Reda pump
Franklin

B. Works used to transport water to place of use:

C. Works used to apply water to beneficial use:

The system is in the following condition good

The point of diversion is located Well #3 - 2190 Ft. E and 1140 Ft S from
center of sec. 13, T18N, R13E

The works are capable of diverting and conveying to the place of use .01
cu. ft. per second of water which is to be used for municipal system

Water has been put to beneficial use to the maximum extent as follows: _____

comprising a total of _____ acres of land and the license should be issued for _____ cfs

Applicable permit qualifications have been complied with ☒ Yes ☐ No

Exceptions to compliance are: _____ Date Nov 2, 1983

Ron Duwall

November 8, 1983

City Council of Bison
Bison SD 57620

Dear Mr. Brockel:

I have researched our files and the following is what I have found. Sheet 1A is a listing of six wells that were recorded during a ground water study of Bison. Sheet 2A is a map showing the location of these wells. The city of Bison has four water permits listed as follows: 460-1, 624-1, 1097-1 and 1145-1

Permit No. 460-1 which is now cancelled had the following legal description: N37°48'E @ 367.1 feet from center of Section 13, T18N, R13E in Lot 4, Block 6, Colman's Addition. This description corresponds closely with Bison Well No. 4 which is supposedly abandoned.

Permit No. 624-1 has been licensed and does list the name Bison Well No. 5 on the permit. However, the location listed on the water license disagrees with the locations listed on sheet 1A. The water license states the well is located on Lot 6, Block B, Jackson's Addition, SW¼ NE¼ of Section 13-18-13. Sheet 1A identifies Well No. 5 as being in the NW¼ NE¼ of 13-18-13. I would like to have you verify which of the above locations are correct.

Permit No. 1097-1 has been licensed according to the description shown on the enclosed map. This well definitely does not have anything to do with the six wells listed in Section 13.

Permit No. 1145-1 called for two wells which were to be drilled adjacent to the well listed under permit No. 1097-1. The enclosed map shows the location of the proposed wells. I was informed by you that after further consideration, it was decided to drill a single well West of Bison in Section 14 as shown on map 3A.

I am trying to clarify exactly what the situation is with these wells. Once this is accomplished, I can inform you of what action is needed on your part. Therefore, would you please answer the following questions as accurately as possible:

Bison Wells No. 1, 2, 3 & 6 are apparently not covered by any permits. I need to know whether the wells 1, 2, 3 & 6 exist or not. Assuming the wells exist; I also need to know if they are operable, if the land descriptions on sheet 1A are correct (if not what are the correct descriptions) and if the drilling dates are correct on sheet 1A. The drilling dates are important because wells 1, 2 & 3 could obtain "vested rights" if the drilling dates are correct. A vested right is a new license which keeps the original development date provided the system was put into use before February 28, 1955. However, continuous use of the water, from the time of development to the present, is a requirement for obtaining a vested right.

November 8, 1983
City Council of Bison
Page 2

Bison Wells No. 4 and 5 appear to be covered by Permits 460-1 (cancelled) and 624-1 respectively. Please inform me whether Well No. 4 is abandoned and as I requested earlier the correct location of Well No. 5.

I would also like to be made aware of any other wells that may exist and are operable. I would also like a copy of well logs for all city wells, if possible.

Thank you for your time and cooperation. When I have examined the answers to these questions; I will contact you about corrective measures.

Sincerely,

RON DUVALL
Water Resources Engineer

No. 1310-1

August 29, 1984

City of Bison
Bison, South Dakota 57620

Dear Sir:

Enclosed herewith are your Vested Right Permit, Water License No. 1310-1.
This Water License is the final water right document completing your
process of obtaining a vested water right.

As long as you use the water beneficially, as stated in the Water License,
the State Water Laws provide that you have a continuing right to use
the water.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

SOUTH DAKOTA

VESTED WATER RIGHT NO. 1310-1

Date of Receipt of Claim March 23, 1984.

Date of Validation September 30, 1992.

The Water Management Board validated Vested Water Right Claim No. 1310-1 for the City of Bison, P.O. Box 237, Bison, South Dakota 57620 with the following limitations, conditions and qualifications:

1. Vested Water Right No. 1310-1 appropriates 0.01 cubic feet per second of water from a well located in the NE1/4 SE1/4 Section 13, T18N, R13E.
2. The appropriated water is used for supplying water for the City of Bison and may not exceed the amount of water needed for beneficial use for municipal purposes.

The water is to be used during the following annual period:
January 1 - December 31

3. The priority date of the Vested Water Right is: January 1, 1954
4. The water use system has been constructed and water has been applied to beneficial use.
5. Water Rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

Dear Mr. Haggart:

The Water Management Board has validated the enclosed Vested Water Right No. 1310-1. This validation gives legal status to the claim and is the final document for your vested right.

As long as you use the water beneficially, as stated in the validation, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
605 773-3352
