REPORT ON APPLICATION NO. 1349-1

WARREN W. MANN

January 28, 1986

Application No. 1349-1 proposes to appropriate 0.10 cfs from one existing well 377 feet deep, located in SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5, T5N, R5E. The water is used to supply a Mobile Home Park.

Aquifer: Minnelusa Formation

The Minnlusa Formation is an assemblage of alternating beds of sandstone, limestone and dolomite, with lesser amounts of black shale and chert. The formation underlies approximately 2,172,800 acres of Meade County and contains an estimated 81,480,000 acre-feet of recoverable water in storage (Allen, 1984). Recharge to the aquifer has not been quantified, but occurs through direct infiltration of precipitation at the outcrop area, and potentially from upward movement of water from the Madison Limestone. Wells producing from the Minnelusa in Meade County yield 6-600 gpm and have specific capacities of 0.15-0.75 gpm/ft (Water Rights Division Files, 1986). In the area of the applicant's well, the top of the Minnlusa Formation is approximately 350 feet below the land surface, and the formation is approximately 500 feet thick (Water Rights Division Files, 1986). The aquifer is under artesian conditions and the static water level in the applicants well is approximately 118 feet below land surface. The drillers log submitted by H.F. Draine Drilling indicates the well is capable of producing the amount of water requested.

The Water Rights Division does not monitor any observation wells in the area.

Review of Existing Water Permits

<u>Permit No.</u>	<u>Owner</u>	<u>Diversion Rate</u>	<u>Use</u>
1062-1	Sturgis Municipal Utility Board	0.07 cfs	industrial
1287-1	City of Sturgis	1.00 cfs	municipal
1318-1	Gerald M Baldwin	0.10 cfs	commercial

Most of the wells completed in the Sturgis area were drilled into the Madison and obtain water from both the Minnelusa and Madison Formations. There have been no reported interference problems.

Conclusions

1. Water is available from the Minnelusa Formation.
2. The well is adequately constructed.
3. Because the amount of water requested is minimal, there will be no significant impact on water levels in the aquifer.

~~RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT~~

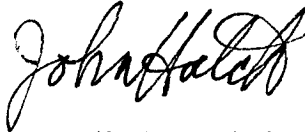

APPLICATION NO. 1349-1, Warren W Mann

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 1349-1, Warren W. Mann, HC 55, Box 461, Sturgis SD.

The Chief Engineer is recommending APPROVAL of Application No. 1349-2 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualification:

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner, under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

See the attached report for additional information.

NAME OF PERSON OR FILE: Warren Mann, Mann Trailer CourtADDRESS: Sturgis COUNTY MeadeDATE: September 19, 1986 TELEPHONE _____RE: inspection

COMMENTS:

Mr. Mann called to notify our office we could inspect his water use system. He was somewhat concerned that we had gotten after him for so long to apply for a water right to make his use of water legal, and we were slow with finishing the process.

I indicated to him that we would schedule an inspection when time permits, hopefully this fall, but it depended when someone could get to his area. I told him he had completed his responsibilities for obtaining the permit, & the inspection and licensing process was our responsibility.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Sturgis, South Dakota 57785

Dear Mr. Mann:

Enclosed herewith is, Water License No. 1349-1. This is the final water right document completing your process of obtaining a water right.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water.

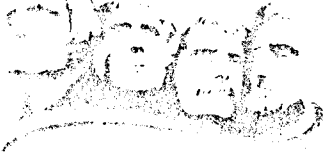

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

Dear Mr. Raposa:

Enclosed is a partially completed "Notice of Transfer" form for use in filing an ownership change on Water Right No. 1349-1. The water right is currently listed in the name of Warren W. Mann.

The transfer form should be completed, checked over for accuracy and signed by the new owner in the presence of a notary public. Upon completion, return the form to our office with a required filing fee of \$2.50.

South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a water permit or water right to appropriate water to be filed with this office within ninety days.

If you have any questions, please contact me.

Sincerely,

Genny McMath

FILE DOCUMENTATION

NAME: Warren W Mann

ADDRESS: 779 Island Blvd, Fox Island WA 98333

SUBJECT: Address Change

DATE: April 16, 1993

Warren Mann called concerning what, if anything, was necessary to renew his water right. I informed Mr. Mann that water rights did not need to be renewed and remained in effect until either abandoned or forfeited due to nonuse.

Mr. Mann indicated the property is being purchased on a contract for deed and wanted to know if the water right should be transferred. I told Mr. Mann it was up to him and the person purchasing the property. Mr. Mann decided to update his mailing address and wait with the transfer of ownership. Mr. Mann's new mailing address is:

779 Island Blvd.
Fox Island WA 98333

phone: 206 549-2330

A copy of the water license and inspection report were mailed to Mr. Mann. The contact person at the mobile home park is Ray Raposa from Sturgis.

A handwritten signature in black ink, appearing to read "Ron Duvall", written over a horizontal line.
