Report on Application No. 1368-1
A C Land and Cattle Co.
October 17, 1986

A C Land and Cattle Co. is proposing to appropriate 0.10 cfs of water from the Missouri River to be used for livestock watering purposes. The proposed point of diversion is located in the N1/2SW1/4 of section 18, T18N, R30E in Corson County. The project will include a pumping plant and buried pipeline which will provide water for a controlled grazing system on 10,000 acres of range land.

The Missouri River is known to have ample supplies of water to meet the needs of additional appropriations. The application as proposed would be a beneficial use of the water. Existing water rights would not be adversely impacted. Application No. 1368-1 should be approved with no qualifications.

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period-i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

Dear Mr. Smith:

On July 12, 2000, the investigation of your water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 1368-1, was completed by Ron Duvall, a staff engineer with our program. Your final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee from you, we will complete processing your water license. The check or money order for the fee should be made payable to the "Water Rights Program".

Your licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of your water use system or payment of the fee, please contact Genny McMath with our program at (605) 773-3352.
