**SOUTH DAKOTA
WATER PERMIT No. 1507-1**

Date of first receipt of application January 24, 1991.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 1507-1 to Piedmont Baptist Church, PO Box 261, Piedmont SD 57769 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 1507-1 appropriates 10 gallons per minute (0.02 cubic feet of water per second) from one well (Minnelusa Formation) 360 feet deep located in the SE 1/4 NE 1/4 Section 15-T3N-R6E.
2. The water appropriated shall be used for the purpose of supplying water to the church and may not exceed the amount of water needed for beneficial use for institutional purposes.
3. The water is to be used during the following described annual period: January 1 - December 31.
4. The date of approval of Permit No. 1507-1 is May 1, 1991.
5. The date from which applicant may claim right is January 24, 1991.
6. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

DEAR MR. GRONLUND,

I AM SUBMITTING, IN BEHALF OF OUR CHURCH, APPLICATION FOR WATER USE ON FORM 2 OF THE ENCLOSED APPLICATION FORM.

THIS WELL HAS BEEN COMPLETED A FEW YEARS AGO AND WE ASSUMED THAT THE WELL DRILLER MADE APPROPRIATE APPLICATION, HOWEVER, AS YOU MENTION, BEING A COMMERCIAL ESTABLISHMENT, A SEPARATE APPLICATION IS REQUIRED.

DETAILS AND ENGINEERING OF THIS WELL HAD TO BE FILED WITH YOUR OFFICE BY: DOWNEN DRILLING COMPANY, ROUTE 4, BOX 1190, RAPID CITY, SD 57702, PHONE: 787-4525 ON FORM 2-A INDICATING ALL DETAILS OF SAID WELL.

ALSO ENCLOSED IS OUR FILING FEE CHECK FROM THE PIEDMONT BAPTIST CHURCH IN THE AMOUNT OF \$50.00.

I WISH TO THANK YOU SINCERELY FOR THE ASSISTANCE YOU GAVE ME WITH REGARD TO INSTRUCTIONS ON HOW TO COMPLETE THE APPLICATION FORM.

IF FURTHER DETAILS ARE REQUIRED IN THIS APPLICATION, PLEASE CONTACT ME AT THE ABOVE ADDRESS.

Dear Sir:

A well drillers report filed with this office by Downen Drilling Co. indicates you have recently completed a new well. The well driller is required by South Dakota Compiled Laws (SDCL 46-6-11) to file a well construction report within 30 days of completion. The purpose of this letter and the enclosed "Summary of South Dakota Water Law and Water Rights Information" are to provide general information and to inform you, the well owner, of the responsibilities you have incurred.

1. If your new well was drilled as a replacement well and if you do not plan to use the old well, the old well is considered abandoned and must be plugged pursuant to SDCL 46-6-27. Other abandoned wells must also be plugged.
2. If the old well is not to be abandoned, or will be used, the well must still be sealed or capped at the surface pursuant to SDCL 46-6-27.

Please feel free to contact us if you have questions, need information or water permit application forms.

Very truly yours,

Dear SIR :

A well drillers report filed with this office by DOWNEN DRILLING COMPANY indicates you have completed a new well. The well driller is required by South Dakota Codified Laws (SDCL 46-6-11) to file a well construction report.

The purpose of the enclosed "Summary of South Dakota Water Law and Water Right Information" is to provide general information regarding what types of water use in South Dakota require obtaining a permit to appropriate water. Based on the type of water use specified on the well driller's report, you probably need a water permit.

I am enclosing application forms and an instruction sheet for preparing a water permit application. The completed application can be submitted with the required fee to the "Water Rights Division, Joe Foss Building, 523 E. Capitol, Pierre, SD 57501". Please respond by 12/7/90.

REPORT ON APPLICATION NO. 1507-1
for Piedmont Baptist Church
February 8, 1991

Application No. 1507-1 proposes to appropriate 10 gpm (0.022 cfs) from one well approximately 360 feet deep located in the SE 1/4 NE 1/4 of section 15, T3N R6E in Meade County. The water is for institutional use by the Church.

AQUIFER - MINNELUSA FORMATION (MNLS)

The Minnelusa Formation is an assemblage of sandstone, dolomite and limestone which is under artesian conditions at this site. The Minnelusa Formation is approximately 560 to 640 feet thick in this area with the upper 200 to 300 feet mostly fine to medium grained sandstone (Peter, 1985). The Minnelusa Formation underlies 2.17 million acres and contains an estimated 81.48 million acre feet of recoverable water in Meade County (Allen, 1984). Ground water moves from west to east and from north to south through this area.

The driller's log accompanying this application indicates the top of the Minnelusa Formation was at 260 feet below land surface and the well was drilled to a total depth of 360 feet. The static water level was reported to be 30 feet below land surface.

The Division of Water Rights monitors a Minnelusa Formation well MD-84A which is located approximately 1/2 mile northeast of this application. Water levels for this well have declined about 23 feet since the beginning of 1985 (Water Rights, 1991). This can be accounted for by the drought conditions that have existed in the Black Hills area the past few years.

REVIEW OF EXISTING WATER PERMITS/RIGHTS

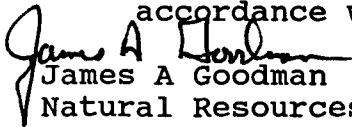

There are five existing water permits/rights within a one mile radius of this application.

<u>Permit</u>	<u>Name</u>	<u>Rate</u>	<u>Use</u>	<u>Source</u>
842-1	Anderson	1.00 cfs	IRR	MNLS
843-1	Wilburn	0.77 cfs	IRR	MNLS
989-1	Trail West	0.22 cfs	SHD	MNLS
1155-1	Wittinger	0.03 cfs	COM	MNLS
1902-2	Carol/JBar	0.01 cfs	COM	MNLS

Interference should not be a problem. The requested diversion rate is relatively small and the distance between diversions is large enough to minimize the effects of pumping. The water level record for the observation well indicates significant drawdowns are not occurring under existing conditions. This diversion will not change this scenario.

CONCLUSIONS

1. Water is available from the Minnelusa Formation.
2. The Minnelusa is under artesian conditions. Interference is not expected to be a problem. The water level record indicates that significant fluctuations due to pumping are not occurring.
3. The water level record indicates that there has been a 23 feet decline in the head pressure since 1985. This can be accounted for by the lack of recharge to the Minnelusa due to drought conditions.
4. Information supplied with the application (completion report) indicates the well was grouted with cement; however, sufficient details were not provided to evaluate if the well is completed in accordance with SD Well Construction Standards.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 1507-1, Piedmont Baptist Church

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 1507-1, Piedmont Baptist Church, PO Box 261, Piedmont, SD.

The Chief Engineer is recommending APPROVAL of Application No. 1507-1 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use, and 4) in the public interest with the following qualification:

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

Dear Mr. Enstrom:

Water Permit Application No. 1507-1 for institutional use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Meade County Times-Tribune printed at Sturgis, SD. For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund

NOTICE OF HEARING on Application No. 1507-1 to Appropriate Water

Notice is given that the Piedmont Baptist Church, PO Box 261, Piedmont, SD 57769 has filed an application for a water permit to appropriate 10 gallons per minute from one well (Minnelusa Formation) 360 feet deep located in the SE 1/4 NE 1/4 Section 15-T3N-R6E. The water is for institutional use by the church.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1507-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. Unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation, the Water Management Board will NOT CONDUCT a HEARING to consider this application and the chief engineer will issue the permit as recommended. Petitions filed in support of the application will NOT require the Board to hear the application.

Any person interested in opposing or supporting this application must file a written petition with BOTH the applicant and Chief Engineer. The applicant must also file a petition if opposed to the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by April 22, 1991. The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

For purposes of publishing 1) the notice of hearing on Application No. 1507-1 and 2) the chief engineer's recommendation, a Board meeting is scheduled for May 1, 1991, at 10:00 am in the meeting room at Chef Louie's, 601 E. Havens, Mitchell, SD. If this application is opposed or the recommendation is contested, the May 1, 1991, hearing date may be rescheduled for another Board meeting. If the hearing is rescheduled, notice of the time and place will be given by First Class Mail to the applicant and persons filing petitions. Anyone not filing a petition, but interested in attending the hearing, may contact the Division of Water Rights to confirm a hearing date and location. The May 1, 1991, hearing date will be automatically delayed for at least 20 days upon written request to the Chief Engineer from the applicant or any interested person opposing the application. The request for an automatic delay must be filed by April 22, 1991.

If a hearing is held, the Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer, or 4) deny this application based on the facts presented at the public hearing. Any hearing will be an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer and may present evidence or cross-examine witnesses according to SDCL 1-26. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact the Water Rights Division to request copies of information pertaining to this application or to assure access to the hearing by the handicapped.

Dear Sir:

On November 7, 2007 the investigation of your water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 1507-1, was completed by Mark Costello, a staff engineer with our program. Your final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee from you, we will complete processing your water license. The check or money order for the fee should be made payable to the "Water Rights Program".

A licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of the water use system or payment of the fee, please contact Genny McMath with our program at (605) 773-3352.

Sincerely,

Karen Schlaak

Dear Sirs:

Enclosed is Water License No. 1507-1. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 03211 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License. Also, included with your license is a map prepared by the staff engineer who conducted the investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 1507-1, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 1507-1

(1) Piedmont Baptist Church, PO Box 261, Piedmont SD 57769 made Application No. 1507-1, January 24, 1991 for a water permit to divert 0.02 cubic feet of water per second from groundwater (one well), Meade County, South Dakota for institutional purposes. Permit No. 1507-1, with a priority date of January 24, 1991 was approved May 1, 1991 and issued to the applicant for diversion of water with construction of the described water supply system and the application to beneficial use of water completed.

(2) The water supply system has been completed and water applied to beneficial use in accordance with South Dakota State Law. Pursuant to South Dakota Codified Law 46-5-30.1, the holder and/or owner of Water Right No. 1507-1 is issued a license, bearing a priority date of January 24 1991 to appropriate 0.02 cubic feet of water per second from groundwater (one well) for institutional purposes.

The diversion point is located: approximately 1,298 feet west and 2,430 feet south of the northeast corner of Section 15-T3N-R6E (SE ¼ NE ¼).

(3) This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Permit No. 1507-1 including the following now applicable qualification:

- The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
