**REISSUED
SOUTH DAKOTA
WATER PERMIT NO. 1554-1 FOR IRRIGATION**

Date of first receipt of application May 6, 1992.

Date Soil/Water Compatibility Permit received June 19, 1992.

Date of return to applicant for corrections, amendments or changes May 12, 1992.

Date of receipt of corrected application May 26, 1992.

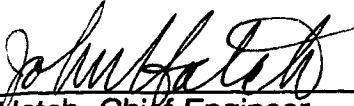

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 1554-1 to Stanley Wood, RR 1, Box 49, Newell SD 57760 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 1554-1 appropriates 2.63 cubic feet of water per second from the Belle Fourche River located in the E 1/2 SW 1/4 Section 17 to irrigate 184.1 acres located in the NW 1/4, NW 1/4 SW 1/4, E 1/2 SW 1/4 Section 17; all in T8N-R7E. Approximately 141.0 acres of the 184.1 acres in Permit No. 1554-1 are presently irrigated by the Belle Fourche Irrigation Project.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: May 1 - August 31.
3. The date from which applicant may claim right is May 6, 1992.
4. The date of approval of readvertised Permit No. 1554-1 is April 4, 1994.
5. One-fifth of the construction is to be completed on or before March 22, 1995.
6. All construction is to be completed on or before September 22, 1997.
7. Water is to be put to beneficial use on or before September 22, 2001.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. This permit is approved subject to the irrigation water use questionnaire being submitted each year.
2. Combinations of diversions from the Belle Fourche Irrigation District and this Permit may not exceed 1.0 cfs for each 70 acres irrigated.
3. Rehabilitation of the Belle Fourche Irrigation Project and subsequent conservation measures may reduce return flows to the Belle Fourche River. Low flows as needed for downstream domestic use, including livestock water and prior water rights must be by-passed.

WATER MANAGEMENT BOARD

XXX REQUIREMENTS

Soil/water permits will be recorded by the Department of Agriculture, with the County Register of Deeds.

Glenberg fine sandy loam, 0 to 2 percent slopes (GgA).—This soil is on low terraces along the Belle Fourche River. It has the profile described as representative of the series. Areas are irregular in shape and range from 5 to 300 acres in size.

Included with this soil in mapping are areas of Haverson, Lohmiller, and Mawer soils. Haverson and Lohmiller soils are in small areas where the alluvium is more clayey. Mawer soils are in areas less than 2 acres in size where pockets of gravel are within a depth of 40 inches.

This Glenberg soil takes in water readily and has moderate available water capacity. Fertility is low. Soil blowing is a hazard in cultivated areas.

Many areas are irrigated. Corn, alfalfa, barley, and edible beans are the main crops. Controlling soil blowing is the main concern in management. Sandy range site; capability units IIe-3 irrigated and IVe-6 dryland; windbreak group 2.

Glenberg fine sandy loam, 2 to 6 percent slopes (GgB).—This soil is on bottom land and low terraces along the Belle Fourche River and its main tributaries. Areas are mostly long and narrow and range from 3 to 25 acres in size.

This soil takes in water readily and has moderate available water capacity. It has low fertility. Runoff is slow, but water erosion and soil blowing are hazards in cultivated areas.

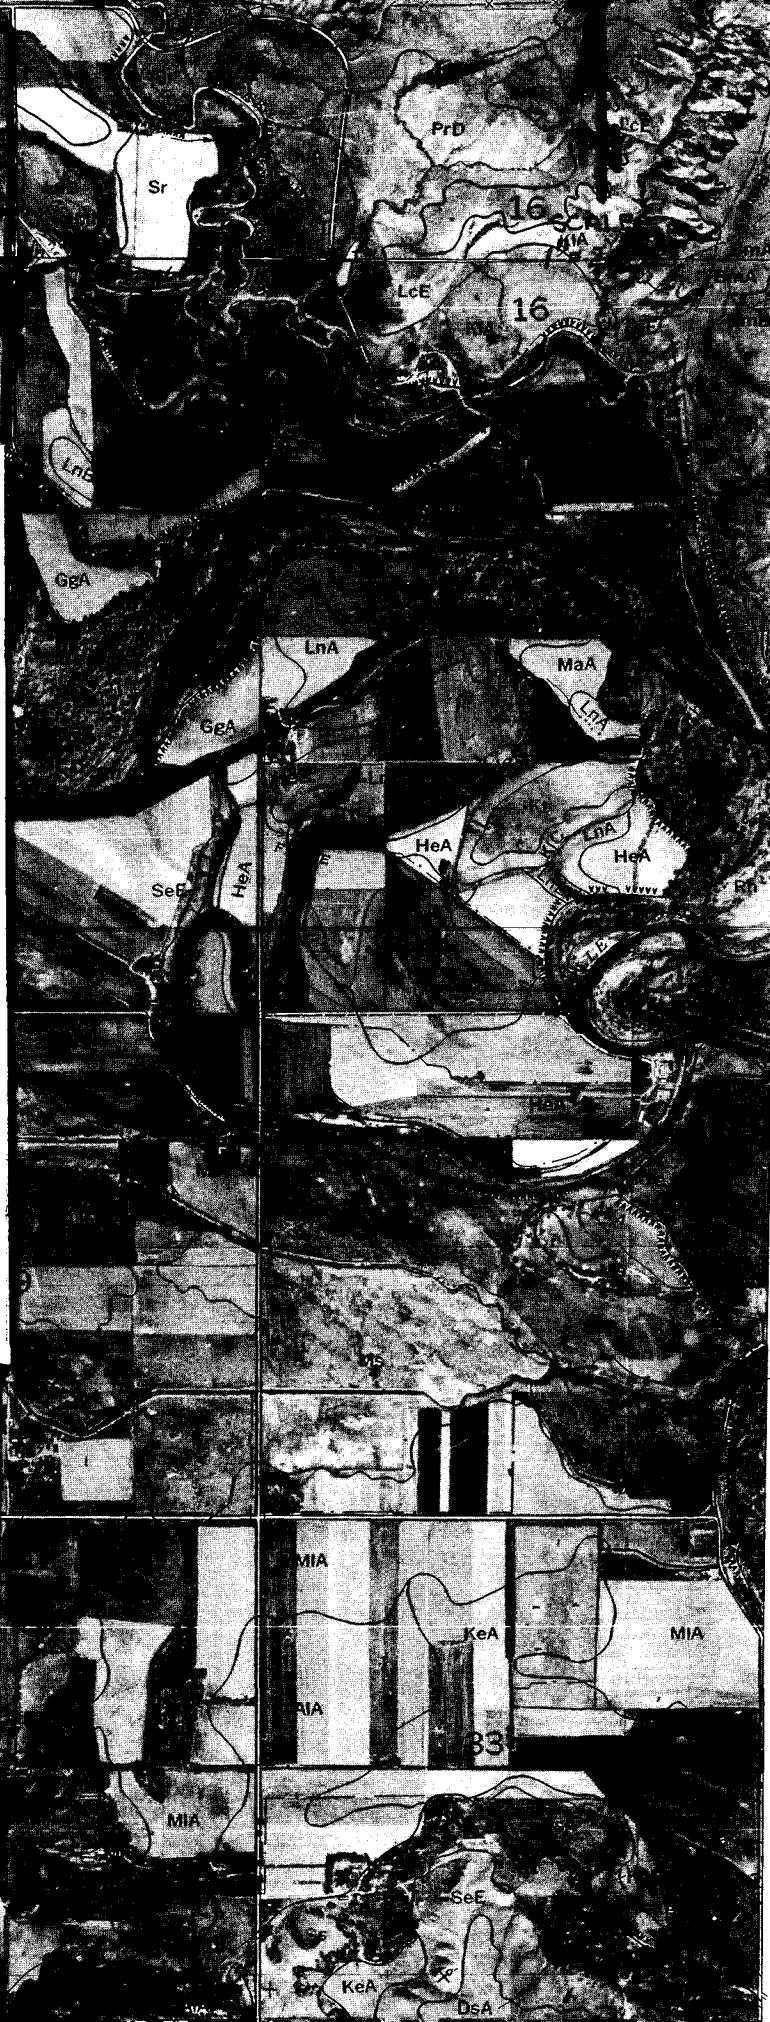

Many areas are irrigated. Alfalfa and corn are the main crops. Other areas are in native grass and are used for grazing. Controlling soil blowing and erosion is the main concern in management. Sandy range site; capability units IIIe-4 irrigated and IVe-7 dryland; windbreak group 2.

Lohmiller silty clay loam, 0 to 2 percent slopes (LnA).—This soil is on bottom land and low terraces along the Belle Fourche River and its tributaries. Areas are irregular in shape and range from 5 to 300 acres in size. This soil has the profile described as representative of the series, but in the vicinity of Fruitdale the underlying material below a depth of 30 inches is more sandy.

Included with this soil in mapping are areas of Glenberg and Haverson soils in areas where the alluvium is less clayey.

This Lohmiller soil takes in water slowly. Available water capacity is moderate or high. Fertility is low, but crops respond well to commercial fertilizer. The soil is high in content of lime and blows easily. Runoff is slow. Some areas receive additional moisture in the form of runoff from adjacent sloping soils.

Many areas are cultivated and irrigated. The soil is well suited to all crops grown under irrigation in the county. Conserving moisture and controlling soil blowing are the main concerns in management. Clayey range site; capability units I-1 irrigated and IIIC-2 dryland; windbreak group 1.

PIERRE SOUTH DAKOTA 57501-3181

May 12, 1992

Stanley Wood
RR 1, Box 49
Newell SD 57760

Dear Mr. Wood:

In regard to your water permit application received on May 6, 1992, the following information needs to be submitted and/or clarified in order to process your application.

1. On Item No. 7 of the application, the lands to be irrigated must be broke down by the quarter-quarter. Your application lists the lands by the area of the fields. From the aerial photo submitted with your application, it appears that you intend to irrigate the following lands all in Section 17-T8N-R7E. Please let us know if you concur with these acreages.

NW 1/4 NW 1/4	35.5 acres	NW 1/4 SW 1/4	9.1 acres
NE 1/4 NW 1/4	36.5 acres	NE 1/4 SW 1/4	34.0 acres
SW 1/4 NW 1/4	29.5 acres	SE 1/4 SW 1/4	6.2 acres
SE 1/4 NW 1/4	31.3 acres	Total	182.1 acres

Our records indicate a water right exists for some of the lands located in the NW 1/4. Water Right No. 470-1 issued to Raymond & Doris Schild was licensed for 19 acres in the NW 1/4 NW 1/4 and 20 acres in the SW 1/4 NW 1/4 all in Section 17-T8N-R7E. A copy of the Water License is enclosed. Please clarify ownership of these acres.

2. The map is being returned because it must be signed by one of the following: Registered Land Surveyor, Registered Professional Engineer or by any other government employee who normally prepares maps as a part of his assigned duties (i.e. local SCS or ASCS office).
3. Item No. 2 of the application states the amount of water claimed to be 3.0 cfs. Under State Statutes you are allowed one cubic feet of water per second (cfs) for each 70 acres irrigated. This would mean that you are allowed 2.60 cfs for the 182.1 acres to be irrigated. Do you concur?

May 12, 1992
Stanley Wood
Page 2

4. A soils map is required of the land to be irrigated in order to proceed with the Soil/Water Compatibility permit.
5. The filing fee for irrigation of 182.1 acres will be \$275.00.

The water permit application can not be considered until the application is complete and a soil/water permit is obtained from the Department of Agriculture. Upon receipt of the above, further processing of your application will continue.

If you have any questions, please contact this office.

Sincerely,

Karen Schlaak

RE: Pending Application

COMMENTS:

Stanley Woods called concerning my 5-12-92 letter. Mr. Wood stated he owned all of the lands for which he was making application on. Portions of the lands in the NW 1/4 NW 1/4 and SW 1/4 NW 1/4 Section 17-T8N-R7E are covered by Water Right No. 470-1, Raymond and Doris Schild. We will send transfer forms for those portions.

Newell SD 57760

Dear Mr. Wood:

In regard to your phone conversation with Eric Gronlund of this office, enclosed a copy of the Notice of Transfer filed March 15, 1971 on Water Right No. 470-1. A partially completed Notice of Transfer of Ownership form is enclosed regarding the land in Section 17-T8N-R7E. Please review the form, have it signed, notarized and return with a \$2.50 filing fee.

In regard to my letter dated May 12, 1992, please let us know if you concur with the acreages as listed. Since portions of the W 1/2 NW 1/4 are covered by Water Right No. 470-1, the number of acres on the new application will be reduced accordingly: NW 1/4 NW 1/4 - 16.5 acres, NE 1/4 NW 1/4 - 16.5 acres for a total of 143.1 acres.

The map must be signed and a soils map submitted as stated in the May 12 letter. The filing fee will change because the acreage is being reduced. The filing fee for irrigation of 143.1 acres will be \$250.00. Also the amount of water claimed, will be reduced to 2.04 cfs based on the acreage. Do you concur with these changes?

If you have any questions, please contact this office.

Sincerely,

Karen Schlaak

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 1554-1, Stanley Wood

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Environment and Natural Resources concerning Water Permit Application No. 1554-1, Stanley Wood, RR 1 Box 49, Newell, SD 57760.

The Chief Engineer is recommending APPROVAL of Application No. 1554-1 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. This permit is approved subject to the irrigation water use questionnaire being submitted each year.
2. Combinations of diversions from the Belle Fourche Irrigation District and this Permit may not exceed 1.0 cfs for each 70 acres irrigated.
3. Rehabilitation of the Belle Fourche Irrigation Project and subsequent conservation measures may reduce return flows to the Belle Fourche River. Low flows as needed for downstream domestic use, including livestock water and prior water rights must be by-passed.

See report on application for additional information.

JOHN HATCH, Chief Engineer
August 12, 1992

Report on Water Permit Application No. 1554-1
Stanley Wood
August 10, 1992

Background

Water Permit Application No. 1554-1 requests appropriation of 2.07 cubic feet of water per second (cfs) from the Belle Fourche River. The diversion point is located in the E1/2 SW1/4 Section 17, T8N-R7E, in Butte County. Water will be used to irrigate 145.1 acres located in the W1/2 Section 17, T8N-R7E.

Discussion

Approximately 141.0 acres of the 145.1 acres in the application are presently irrigated by the Belle Fourche Irrigation Project.

There are 6 water rights on the Belle Fourche River, in Butte County, downstream from the applicant's proposed diversion point, for a total of approximately 11.7 cfs.

Return flows from the Belle Fourche Irrigation Project have supplied enough water to meet the needs of the water rights below the confluence of Owl Creek and the Belle Fourche River. However, an on-going rehabilitation program of the Belle Fourche Irrigation Project and subsequent conservation measures may reduce return flows to the Belle Fourche River.

Approximately 141.0 acres of the 145.1 acres will be irrigated from both the Belle Fourche River and the Belle Fourche Irrigation Project. The combined diversion rates should not exceed the statutory limitation of 1 cfs for irrigation of each 70 acres.

Conclusions

1. Flows in this reach of the Belle Fourche River are mainly dependent on irrigation return flows.
2. Rehabilitation of the Belle Fourche Irrigation Project and subsequent conservation measures may reduce return flows to the Belle Fourche River. If flows in this reach of the Belle Fourche River fall below what is needed, shutoff orders may need to be issued.

If Water Permit Application No. 1544-1 is approved, it should be approved with the following qualifications:

- A) Flows must be bypassed for downstream domestic water use and senior water rights.

B) The irrigation questionnaire must be submitted annually.

Dear Mr. Wood:

Water Permit Application No. 1554-1 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Butte Co. Valley Irrigator printed at Newell, SD (Ph # 456-2585). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on August 26, 1992, with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF HEARING on Application No. 1554-1 to Appropriate Water

Notice is given that Stanley Wood, RR 1 Box 49, Newell, SD 57760 has filed an application for a water permit to appropriate 2.07 cubic feet of water per second from the Belle Fourche River located in the E 1/2 SW 1/4 Section 17 to irrigate 145.1 acres located in the NW 1/4, NW 1/4 SW 1/4, E 1/2 SW 1/4 Section 17; all in T8N-R7E. Approximately 141.0 acres of the 145.1 acres in Application No. 1554-1 are presently irrigated by the Belle Fourche Irrigation Project.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1554-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. Unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation, the Water Management Board will NOT CONDUCT a HEARING to consider this application and the chief engineer will issue the permit as recommended. Petitions filed in support of the application will NOT require the Board to hear the application.

Any person interested in opposing or supporting this application must file a written petition with BOTH the applicant and Chief Engineer. The applicant must also file a petition if opposed to the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by September 14, 1992. The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

For purposes of publishing 1) the notice of hearing on Application No. 1554-1 and 2) the chief engineer's recommendation, a meeting at the Division of Water Rights office to hear this application is scheduled for September 22, 1992, at 9:00 am in Room 413, Joe Foss Building, 523 E Capitol, Pierre SD. If this application is opposed or the recommendation is contested, the September 22, 1992, hearing date will be rescheduled for a regularly scheduled Board meeting. Notice of the time and place of the rescheduled hearing before the Board will be given by First Class Mail to the applicant and persons filing petitions. Anyone not filing a petition, but interested in attending the hearing, may contact the Division of Water Rights to confirm a hearing date and location. The September 22, 1992, hearing date will be automatically delayed for at least 20 days upon written request to the Chief Engineer from the applicant or any interested person opposing the application. The request for an automatic delay must be filed by September 14, 1992.

If a hearing is held, the Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer, or 4) deny this application based on the facts presented at the public hearing. Any hearing will be an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer and may present evidence or cross-examine witnesses according to SDCL 1-26. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact Eric Gronlund by September 14, 1992, at the above Water Rights Division address to request copies of information pertaining to this application, to assure access to the hearing by the handicapped or to obtain an interpreter for the hearing impaired.

This application is made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-16; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15, 46-2A-20, 46-2A-21; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2, 46-5-30.4, 46-5-31; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15. NOTICE OF HEARING on Application No. 1554-1 on Appropriate Water

Notice is given that Stanley Wood, RR 1 Box 49, Newell, SD 57760 has filed an application for a water permit to appropriate 2.07 cubic feet of water per second from the Belle Fourche River located in the E $\frac{1}{2}$ SW $\frac{1}{4}$ Section 17 to irrigate 145.1 acres located in the NW $\frac{1}{4}$, SW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ Section 17, all in T8N-R7E. Approximately 141.0 acres of the 145.1 acres in Application No. 1554-1 are presently irrigated by the Belle Fourche Irrigation Project.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1554-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in

the public interest. Unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation, the Water Management Board will NOT CONDUCT a HEARING to consider this application and the chief engineer will issue the permit as recommended. Petitions filed in support of the application will NOT require the Board to hear the application.

Any person interested in opposing or supporting this application must file a written petition with BOTH the applicant and Chief Engineer. The applicant must also file a petition if opposed to the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre, SD 57501 (605)773-3352" and the applicant's mailing address is given below. A petition filed by either an interested person or the applicant must be filed by September 14, 1992. The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

For purposes of publishing 1) the notice of hearing on Application No. 1554-1 and 2) the chief engineer's recommendation, a meeting at the Division of Water Rights office to hear this application is scheduled for September 22, 1992, at 9:00 a.m. in Room 413, Joe Foss Building, 523 E Capitol, Pierre, SD. If this application is opposed or the recommendation is contested, the September 22, 1992, hearing date will be rescheduled for a regularly scheduled Board meeting. Notice of the time and place of the rescheduled hearing before the Board will be

(over)

given by First Class Mail to the applicant and persons filing petitions. Any person filing a petition, but interested in attending the hearing, may contact the Division of Water Rights to confirm a hearing date and location. The September 22, 1992, hearing date will be automatically delayed for at least 20 days upon written request to the Chief Engineer from the applicant or any interested person opposing the application. The request for an automatic delay must be filed by September 14, 1992.

If a hearing is held, the Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer, or 4) deny this application based on the facts presented at the public hearing. Any hearing will be an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer and may present evidence or cross-examine witnesses according to SDCL 1-26. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact Eric Gronlund by September 14, 1992, at the above Water Rights Division address to request copies of information pertaining to this application, to assure access to the hearing by the handicapped or to obtain an interpreter for the hearing impaired.

This application is made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-16; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15, 46-2A-20, 46-2A-21; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2, 46-5-30.4, 46-5-31; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15. Newell, SD 57760

Dear Mr. Wood:

Enclosed is Water Permit No. 1554-1 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water License may be issued, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
605 773-3352

enclosures

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period - i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

REPORT ON WATER PERMIT NO. 1554-1
STANLEY WOOD
OCTOBER 7, 1993

Water Permit No. 1554-1 appropriates 2.07 cubic feet of water per second (cfs) from the Belle Fourche River located in the E 1/2 SW 1/4 Section 17 to irrigate 145.1 acres located in the NW 1/4, NW 1/4 SW 1/4, E 1/2 SW 1/4 Section 17; all in T8N-R7E. Re-advertisement of the notice of hearing published on August 26 and September 2, 1992 is needed to correct the number of acres irrigated and the amount of water appropriated. The correct number of acres to be irrigated is 184.1 acres and the correct amount of water claimed from the Belle Fourche River is 2.63 cfs. The location of the 39 additional acres to be irrigated is within the area described above.

Conclusions

1. This is a readvertisement of the Notice of Hearing for Water Permit No. 1554-1.
2. This readvertisement is necessary to correct the number of acres irrigated and the amount of water appropriated. The additional 39 acres were originally deleted from the application because the acreage was included on Water Right No. 470-1. It was later discovered that the 39 acres included on Water Right No. 470-1 were irrigated from Dry Creek which is a different water source.
3. The 39 additional acres located in the W 1/2 NW 1/4 Section 17-T8N-R7E can be irrigated from either Dry Creek (Water Right No. 470-1) or the Belle Fourche River (Water Permit No. 1554-1).

Ron Duvall
Natural Resources Engineer

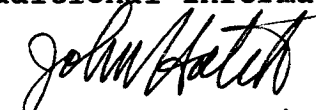

RECOMMENDATION OF CHIEF ENGINEER FOR READVERTISED WATER PERMIT
APPLICATION NO. 1554-1, Stanley Wood

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Environment and Natural Resources concerning readvertised Water Permit Application No. 1554-1, Stanley Wood, RR 1 Box 49, Newell, SD 57760.

The Chief Engineer is recommending APPROVAL of readvertised Application No. 1554-1 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.
2. Combinations of diversions from the Belle Fourche Irrigation District and this Permit may not exceed 1.0 cfs for each 70 acres irrigated.
3. Rehabilitation of the Belle Fourche Irrigation Project and subsequent conservation measures may reduce return flows to the Belle Fourche River. Low flows as needed for downstream domestic use, including livestock water and prior water rights must be by-passed.

See report on application for additional information.

Dear Mr. Wood:

The original notice of hearing for Water Permit No. 1554-1 was published with an error. Therefore, the notice of hearing needs to be readvertised to correct the error. A notice of hearing has been sent to the Publisher of the Butte Co. Valley Irrigator printed at Newell, SD. For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the readvertisement are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

The cost of publication of this notice will be paid by the Division of Water Rights. Please contact us if you have any questions.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Readvertisement of NOTICE OF APPLICATION NO. 1554-1 to Appropriate Water

Notice is given of readvertisement of Water Permit No. 1554-1 held by Stanley Wood, RR 1 Box 49, Newell, SD 57760. The permit was originally applied for on May 6, 1992. Water Permit No. 1554-1 appropriates 2.07 cubic feet of water per second (cfs) from the Belle Fourche River located in the E 1/2 SW 1/4 Section 17 to irrigate 145.1 acres located in the NW 1/4, NW 1/4 SW 1/4, E 1/2 SW 1/4 Section 17; all in T8N-R7E. Readvertisement of the notice of hearing published on August 26 and September 2, 1992, is needed to correct the number of acres irrigated and the amount of water appropriated. The correct number of acres to be irrigated is 184.1 acres and the correct amount of water claimed from the Belle Fourche River is 2.63 cfs. The location of the 39 additional acres to be irrigated is within the area described above.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of readvertised Application No. 1554-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by April 4, 1994.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Division address to request copies of information pertaining to this application. Russell L. Stone, Acting Secretary, Department of Environment and Natural Resources.

Dear Mr. Wood:

On August 1st the investigation of your water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 1554-1, was completed by Mark Rath, a staff engineer with our program. Your final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee from you, we will complete processing your water license. The check or money order for the fee should be made payable to the "Water Rights Program".

Your licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of your water use system or payment of the fee, please contact me.

Sincerely,

Genny McMath

Belle Fourche River - Water District

Contact Person & Address: Stanley Wood R1 Box 49, Nisland SD

Report Of Examination Of Works

On, 7/22/99 & 8/1/01, I made a thorough examination of the water use system constructed by Stanley Wood, R1 Box 49, Newell, SD holder of Permit No. 1554-1, bearing the priority of May 6, 1992 authorizing the diversion of 2.63 cu. ft. per second of the waters of the Belle Fourche River for irrigation purposes, in Butte County.

The system is in the following condition good. The point of diversion is located From the SW corner of Sec 17 T8N-R7E; 1600 ft E and 1350 ft N with a longitude of -103.30099 and a latitude of 44.65182. The works are capable of diverting and conveying to the place of use 2.67 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

All land is located in Sec 17 T8N-R7E:

<u>NW1/4 NW1/4 – 36 ac</u>	<u>NE1/4 NW1/4 – 36 ac</u>	<u>SE1/4 NW1/4 – 31 ac</u>
<u>SW1/4 NW1/4 – 30 ac</u>	<u>NW1/4 SW1/4 – 9 ac</u>	<u>NE1/4 SW1/4 – 34 ac</u>
<u>SE1/4 SW1/4 – 8 ac</u>		

comprising a total of 184 acres of land and the license should be issued for 2.63 cfs.

Review of Permit Qualifications And Regulations:

- 1) Special qualifications to permit being abided by yes
- 2) All structures, wells and lands on map yes
- 3) Irrigation Questionnaires checked to determine if permit owner started irrigation by the end of construction period yes
- 4) Exceptions to compliance are: none

WATER LICENSE NO. 1554-1

(1) Stanley Wood, RR #1 Box 49, Newell, SD 57760 made Application No. 1554-1, May 6, 1992 for a water permit to divert 2.63 cubic feet of water per second from the Belle Fourche River, Butte County, South Dakota for irrigation purposes. Permit No. 1554-1, with a priority date of May 6, 1992 was approved April 4, 1994 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before September 22, 1997 and for the application to beneficial use of said water on or before September 22, 2001.

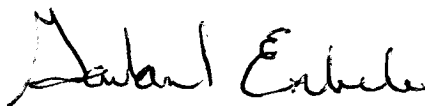

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 2.63 cubic feet of water per second for beneficial use. The location of the diversion point is 1,600'E and 1,350'N of the SW corner of Section 17, T8N, R7E (NE 1/4 SW 1/4).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 17, T8N, R7E			
NW 1/4 NW 1/4	36.0 acres	NW 1/4 SW 1/4	9.0 acres
NE 1/4 NW 1/4	36.0 acres	NE 1/4 SW 1/4	34.0 acres
SE 1/4 NW 1/4	31.0 acres	SE 1/4 SW 1/4	8.0 acres
SW 1/4 NW 1/4	30.0 acres		
Total of 184.0 acres			

- approximately 141 acres of the above land are also irrigated through the Belle Fourche Irrigation District
- land in the W 1/2 NW 1/4 is also irrigated from Dry Creek as authorized under Water Right No. 470A-1

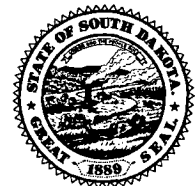

(4) Pursuant to South Dakota Water Law 46-5-30.1 Stanley Wood, RR 1 Box 49, Newell, SD 57760 the holder and/or owner of Water Right No. 1554-1 is issued a license to appropriate water, the right to use 2.63 cubic feet of water per second from the Belle Fourche River with a priority date of May 6, 1992 from the location specified in (2) of this license. The water to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation. This license is subject to any limitations or qualifications listed in Water Right No. 1554-1 and subject to South Dakota State Law.

NOTICE

TO: STANLEY WOOD, RR 1 BOX 49, NEWELL, SD 57760

FROM: Ron Duvall, Natural Resources Engineer
for Garland Erbele, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2003 Irrigation Questionnaires

Our records indicate that the 2003 Irrigation Questionnaires have not been submitted for Permit Nos. 1554-1, 470A-1. The request for the Questionnaires was dated October 17, 2003. The Water Management Board has directed that owners of water permits who have not submitted the 2003 Irrigation Questionnaires be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine if Permit No(s) 470A-1 should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 1554-1 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 8:30 am, March 3, 2004 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 1554-1 in accordance with applicable provisions of SDCL 46-1-12;
2. Amend Permit No(s) 470A-1 to require the Irrigation Water Use Questionnaire to be submitted each year;
3. Postpone any action or take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaires are received in this office on/or before February 27, 2004, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

NOTICE

TO: Stanley Wood, 18950 137th Ave, Newell SD 57750

FROM: Garland Erbele Chief Engineer
Water Rights Program *Garland Erbele*

SUBJECT: Amendment of Water Right No. 470A-1 and One Year Suspension of
Water Right No. 1554-1

On March 3, 2004, the Water Management Board took the following actions on your water rights for failure to return the 2003 irrigation questionnaires:

1. Water Right No. 470A-1 was amended to add the following qualification:

"This water right is subject to the Irrigation Water Use Questionnaire being submitted each year."

The addition of this qualification to your water right means that failure to submit the required irrigation questionnaire in the future could result in suspension of the water right with no use of water for up to one year for the first violation.

2. In regard to Water Right No. 1554-1, the Board ordered:

That Water Right No. 1554-1 is suspended until December 31, 2004, for failure to submit the 2003 irrigation questionnaire.

Suspension of the water right means water may not be pumped during the 2004 irrigation season. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.

If you wish to petition the Water Management Board to rescind the suspension, you will need to submit the 2003 irrigation questionnaire and a letter to our office requesting time on the agenda for the Water Management Board meeting scheduled for May 12, 2004 in Pierre, SD. The letter should include your reasons for not completing the 2003 irrigation questionnaires.

Please contact Genny McMath (605) 773-3352, if you have any questions.

MEMO

To: File
From: 
Donald E. Stroup, DENR Natural Resources Project Engineer
Subject: No. 1554-1

On **June 16, 2004**, I made an on-site examination for use of suspended Permit No. 1554-1 at the W½ Section 17, T8N R7E. There was no irrigation equipment present on the property or any evidence that irrigation from the Belle Fourche River was taking place.

Stanley or Shirley Woods
18950 137th Ave
Newell SD 57760

Dear Mr. & Mrs. Woods:

Enclosed is Water Permit No. 1554A-1 which amends Water Right No. 1554-1 by transferring a portion of the irrigated acreage and point of diversion to other land. Also, enclosed is Reissued Water License No. 1554-1 which reflects the transfer of diversion authority and acres to Water Permit No. 1554A-1.

A Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use as authorized by No. 1554A-1. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.

An information sheet *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program

REISSUED
STATE OF SOUTH DAKOTA
WATER LICENSE NO. 1554-1

(1) Stanley Wood, 18950 137th Ave, Newell SD 57760 was issued Water License No. 1554-1, September 24, 2001 to divert 2.63 cubic feet of water per second (cfs) from the Belle Fourche River, Butte County, South Dakota for irrigation purposes. Water Right No. 1554-1, with a priority date of May 6, 1992 was issued to the permit holder for diversion of water with construction of the described water supply system and the application to beneficial use of water completed.

Water License No. 1554-1 is being reissued to reflect the transfer of 2.0 cfs diversion authority and 134 acres to Water Permit No. 1554A-1.

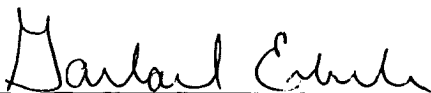

(2) The water supply system has been completed and water applied to beneficial use in accordance with South Dakota State Law. Pursuant to South Dakota Codified Law 46-5-30.1, the holder and/or owner of Reissued Water Right No. 1554-1 is issued a license, bearing a priority date of May 6, 1992 to appropriate 0.63 cubic feet of water per second from the Belle Fourche River to irrigate 50 acres.

The diversion point is located: 1,600 feet east and 1,350 feet north of the southwest corner Section 17-T8N-R7E (NE ¼ SW ¼). The acres authorized for irrigation are as follows:

Section 17-T8N-R7E	NW ¼ SW ¼	9.0 acres
	NE ¼ SW ¼	33.0 acres
	SE ¼ SW ¼	8.0 acres
Total 50 acres		

(3) This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Permit No. 1554-1 including the following now applicable qualifications:

- This permit is subject to the irrigation questionnaire being submitted each year.
- Combinations of diversion from the Belle Fourche Irrigation District and this Permit may not exceed 1.0 cfs for each 70 acres irrigated.
- Rehabilitation of the Belle Fourche Irrigation Project and subsequent conservation measures may reduce return flows to the Belle Fourche River. Low flows as needed for downstream domestic use, including livestock water and prior water rights must be bypassed.

Tyler McGregor
44210 260th St
Canistota SD 57012

Dear Mr. McGregor:

Thank you for contacting us in regard to the ownership changes needed for Water Right No. 1554-1 and Water Permit No. 1554A-1.

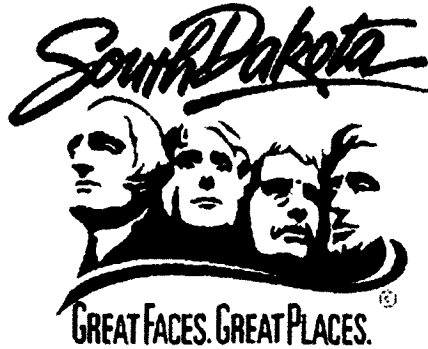

Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. Upon completion, please sign the forms and return them to our office with a required filing fee of \$50.00 each (total of \$100). The check or money order for the fee can be made payable to the Water Rights Program.

Mark Rath with our program indicated he has already emailed copies of both Nos. 1554-1 and 1554A-1 to you. If you have any questions, please contact me.

Dear Mr. McGregor:

Thank you for contacting us in regard to the ownership changes needed for Water Right No. 1554-1 and Water Permit No. 1554A-1. I have included copies for your files.

Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. Upon completion, please sign the forms and return them to our office with a required filing fee of \$50.00 each (total of \$100). The check or money order for the fee can be made payable to the Water Rights Program.

I note from the file that on February 3rd, transfer of ownership forms were also sent to Tyler McGregor from Canistota SD. If you only own part of the land, please edit the forms accordingly.

Sincerely,

RECEIVED
MAR 22 2012
WATER RIGHTS
PROGRAM

NOTICE OF TRANSFER OF OWNERSHIP

To: Chief Engineer
Water Rights Program, DENR
523 E. Capitol
Pierre, SD 57501-3181

No. 1554-1
Date: 3/20/12

I/We request that Water Right No. 1554-1

formerly owned by: Stanley Wood

be transferred to: (name & address)

Donald J. Stange
Marion Rus
Theresa Person
Brad Stange

Telephone No. 402-316-6125

Donald J Stange, Marion J Rus, Brad Stange and Theresa Person, PO Box 189, Allen NE 68710
Title to the following described land(s)/property has been transferred as described above:

50 acres - N 1/2 SW 1/4 and SE 1/4 SW 1/4 Section 17, T8N, R7E

I/We understand that the validity of Water Right No. 1554-1 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

I/We Donald J. Stange, the new owner, certify that the above information is true and correct.

Donald J. Stange
(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

November 7, 2012

Water Right No. 1554-1

Shirley Wood
18950 137th Ave
Newell SD 57760

Dear Mrs. Wood:

I am writing in response to our office visit and the application you returned on November 5. After visiting with you I contacted Donald Stange about the land ownership issue. Mr. Stange agreed that the 50 acres permitted for irrigation in the SW1/4 section 17-T8N-R7E was owned by you and should not have been transferred to himself. Apparently, there was some confusion when the permit was split between you and him due to the ownership change in the NW1/4 section 17. A copy of this letter will be placed into the file for Water Right No. 1554-1 to reflect that the permit is in the name of Stanley Wood. If you would like for the water right to be in your name rather than Stanley's name, then you will need to file a transfer of ownership form (see enclosure).

I also prepared a map (see enclosure) for the application you submitted to increase the pump rate of your permit from 283 to 350 gallons per minute (gpm). In preparing the map it appears that the acreage in the SE1/4 NW1/4 of section 17 (see red area on map) is closer to 5 acres than 3 acres. Since that is the case I have modified your application (see enclosed) to add those 5 acres, put the application in your name as requested, and also included the increased the pump rate to 350 gpm. If approved, this new application and your existing water right No. 1554-1 combined will authorize irrigation of 55 acres from the Belle Fourche River with a pump rate of 350 gpm. Please look the enclosed application and map over, sign the application and return it and the map along with the application fee. The fee to increase your pump rate and acres is \$500.00 plus a \$200.00 license fee for a total of \$700.00. The transfer of ownership fee if you decide to place the existing permit in your name is \$50.00.

If you have any questions, concerning this please call me at (605) 773-3352. Also, please note that Donald Stange intends to apply for a permit to move the acreage transferred to the NE1/4 section 18 back to the NW1/4 section 17 and apply for additional acres to cover the NE1/4 section 18. Mr. Stange also noted that he is working with you to use the same pumping point as you currently use in the SW1/4 section 17.

Sincerely,

A handwritten signature in black ink that reads 'Ron Duvall'. The signature is fluid and cursive, with the first name 'Ron' being more prominent.

Water Right Nos. 1554-1 & 1554A-1

Donald J Stange
PO Box 189
Allen NE 68710 0189

Dear Mr. Stange:

I am writing in response to our phone visits regarding Water Right Nos. 1554-1 and 1554A-1. Initially we discussed ownership of the irrigated acreage in the SW1/4 section 17-T8N-R7E and you agreed that you do not own that property. Apparently, there was some confusion when Water Right No. 1554-1 was split between you and the Wood family. The SW1/4 of section 17 was transferred to your name when only the NW1/4 should have been transferred. I have informed the Wood family of the mistake and told them that the water right goes with the land and they still retain the water right (No. 1554-1) for the SW1/4 of section 17.

The second part of conversation concerned Water Right No. 1554A-1 which moved 134 acres from the NW1/4 section 17 to the NE1/4 section 18 and also moved the pumping point to the SE1/4 section 18 near a pumping site used by Curt Anderson. You indicated that you would like to move the 134 acres back to the NW1/4 section 17 and the pumping point back to the site used by the Wood family in the NE1/4 SW1/4 section 17. Since the 134 acres was being moved from the NE1/4 section 18 back to section 17 you also indicated you wanted a new permit to include cover the NE1/4 section 18. Based on this request I have drafted a permit application and a map (see enclosures) for your review. Since the diversion point to be used involves the Wood property I am also providing them a copy of this letter and attachments for their information.

Please look over the application and map and see whether I have drafted this in accordance with your plans. If the application looks correct you will need to complete section no. 1 (name, address, etc) and then sign the application. After doing so, please return the completed application and map to me along with the application fee. The application fee to add 150 acres is \$850.00 plus a \$200.00 licensing fee for a total of \$1,050.00. However, the transfer of ownership that was mistakenly filed for the land in the SW1/4 section 17 cost \$50.00 which should be refunded. Therefore, remit an even \$1,000.00 and the matter of a refund is addressed.

If you have any questions, please call me at (605) 773-3352.

Sincerely,

Ron Duvall
