**SOUTH DAKOTA
WATER PERMIT NO. 1586-1**

Date of first receipt of application March 27, 1992.

Date of return to applicant for corrections, amendments or changes March 30, 1992.

Date of receipt of corrected application August 6, 1993.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 1586-1 to V-E Grazing Association, Box 620, Eagle Butte SD 57625 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 1586-1 appropriates 75 gallons per minute (0.17 cubic feet of water per second) from one well (Inyan Kara Formation) 2500 feet deep located in the S 1/2 NW 1/4 Section 32-T15N-R30E.
2. The water appropriated shall be used for the purpose of supplying water to the grazing association and may not exceed the amount of water needed for beneficial use for rural water system purposes.
3. The water is to be used during the following described annual period: May 1 - October 31.
4. The date of approval of Permit No. 1586-1 is November 1, 1993.
5. The date from which applicant may claim right is August 6, 1993.
6. One-fifth of the construction is to be completed on or before May 1, 1996.
7. All construction is to be completed on or before November 1, 1998.
8. Water is to be put to beneficial use on or before November 1, 2002.
9. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well approved under this Permit shall be valved and the flow reduced to the amount needed or to a minimum when not being used. The well shall also be equipped with a pressure gauge and a record kept of any pressure fluctuations. Such records shall be available to the Chief Engineer upon request. If this well is abandoned or the Permit canceled, the well must be plugged in accordance with Water Management Board Rules, Chapter 74:02:04.

V E Grazing Association, Inc.
Box 278
Dupree SD 57623

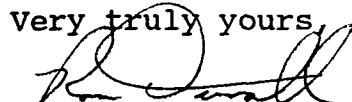

Dear Sir :

A well driller's report filed by Huron Drilling, Inc. shows that they completed a new well for you which produced 50 Gallons Per Minute (GPM). Based on the information in the report, you may need a water permit.

1. A water permit must be obtained for any water use except for reasonable, private domestic use. Reasonable use is defined as use of 18 GPM or less, on an average daily basis (26,000 gallons per day), with a maximum rate not exceeding 25 GPM. Water distribution systems (i.e. suburban housing; manufactured and mobile home developments; rural water systems; municipalities; etc.) may not exceed 18 GPM without a water permit. Examples of commercial use that require permits for private water supplies are: ~~truckstops; motels; restaurants; bars; clubs; tourist attractions; commercial campgrounds and any other business operation.~~ Examples of noncommercial use that require permits for private water supplies are: churches, hospitals and nursing homes (any amount of water) and schools that pump more than 18 GPM or use water outside of the school building.
2. As a new well owner, you need to be aware of some of your responsibilities. Enclosed is a copy of "Well Owner Responsibilities". Please review these responsibilities to ensure you are complying with all of the requirements.

Please complete and return the enclosed application forms, with the required fee, to the "Water Rights Division, 523 E. Capitol, Pierre, SD 57501" by February 14, 1992, or contact Don Frye (605-773-3352) if you don't believe your water use requires a permit or if you need assistance.

Very truly yours,

RON DUVALL, Natural Resources Engineer

V-E Grazing Association
Richard Schrempp
Box 620
Eagle Butte SD 57625

Dear Mr. Schrempp:

In regard to your water permit application received on March 27, 1992, the following information needs to be submitted and clarified in order to process your application.

1. On Item No. 4 of the application, please state the quarter-quarter (40 acre parcel) section, township and range where the well is located. The well completion report states the well is located in the NE 1/4 NW 1/4 Section 5-T14N-R30E. Is this correct?
2. A map showing the location of the diversion point (place where the well is located) in relation to a government section corner or quarter corner by direction and distance. The map must be signed by one of the following: Registered Land Surveyor, Registered Professional Engineer or by any other government employee who normally prepares maps as a part of his assigned duties (i.e. local SCS or ASCS office).
3. On Item No. 6, the annual period during which water will be used, please indicate specific months such as May thru September.
4. On Form 2A, "Supplemental Information", please complete item 1. g) the distance to nearest existing domestic well.

Upon receipt of the above, further processing of your application will continue. If you have any questions, please contact this office.

Sincerely,

Karen Schlaak

RE: Pending Application

COMMENTS:

Mr. Lempke stated regarding my letter dated March 30, 1992, that the location of the well is the NE 1/4 NW 1/4 Section 5-T14N-R30E.

Mike LaCompte with Dewey Co. ASCS will be submitting the required map.

The annual period of use will be May 1 - October 31.

Supplemental Information on the Form 2A, the information should be taken from the well log submitted by Huron Drilling and the nearest domestic well on property owned by other is 1 1/2 miles north. They have four other flowing wells on their property which flows rates have dropped to the point where they do not flow. They all will eventually be capped.

Dear Mr. Lempke:

On March 27, 1992, you submitted an application (copy enclosed) for a permit to appropriate water for livestock watering purposes. You were notified on March 30, 1992 (copy enclosed) that the application was incomplete and were instructed what additional information was necessary in order to complete the application. On April 7, 1992, you called our office stated that Mike LaCompte with the Dewey Co. ASCS office would be submitting the required map. To date, we have not received the map.

Obtaining a water permit ultimately benefits you by protecting your right to use water. Except for domestic use, any water user without a water right is not entitled to receive protection in the event of interference by a new or future user who has a water right.

Pursuant to South Dakota Codified Laws 46-1-15, 46-5-9, 46-5-10 and 46-2-18, you must have a water permit prior to using water.

If you have any questions, please contact this office.

Sincerely,

Karen Schlaak

Karen,

The correct location of the well is the S $\frac{1}{2}$ of the NW $\frac{1}{4}$, Sec.-32 T-15N, R-30E. It was moved from the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec.-5 T-14N R-30E. The well was moved due to the fact that the land the well was to be installed on was tribal land involved in a land trade that would result in a patent being issued. The owners did not want to construct a well on land that they did not have a clear title on.

Sincerely;

Michael J. LaCompte

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 1586-1, V-E Grazing Association

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Environment and Natural Resources concerning Water Permit Application No. 1586-1, V-E Grazing Association, c/o Maurice Lempke, Box 620, Eagle Butte, SD 57625.

The Chief Engineer is recommending APPROVAL of Application No. 1586-1 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well approved under this Permit shall be valved and the flow reduced to the amount needed or to a minimum when not being used. The well shall also be equipped with a pressure gauge and a record kept of any pressure fluctuations. Such records shall be available to the Chief Engineer upon request. If this well is abandoned or the Permit cancelled, the well must be plugged in accordance with Water Management Board Rules, Chapter 74:02:04.

See report on application for additional information.

JOHN HATCH, Chief Engineer
October 4, 1993

REPORT ON APPLICATION NO. 1586-1
for V-E Grazing Association
September 29, 1993

Application No. 1586-1 proposes to appropriate 75 gpm (0.17 cfs) from one well approximately 2500 feet deep located in the S 1/2 NW 1/4 of section 32, T15N R30E in Dewey County. The water will be used for domestic purposes as a ranch pipeline stockwatering system.

AQUIFER - INYAN KARA (INKR)

The Inyan Kara is a sandstone and shale unit composed of the Fall River, Fuson and Lakota Formation. The aquifer is confined and under artesian conditions at this site. The Inyan Kara is approximately 150 feet thick in this area and underlies 1.368 million acres and contains an estimated 5.13 million acre feet of recoverable water in storage in Dewey County (Allen, 1984). The well log submitted with the application indicates this well is completed to a depth of 2500 feet, is perforated from 2260 feet to 2500 feet below land surface, is capable of flowing 50 gpm and has a shut in pressure of 50 psi. The well is completed in accordance with SD Well Construction Standards for "slim hole" construction (ARSD 74:02:04:36).

The Division of Water Rights does not monitor any observation wells completed into this aquifer in this area. Historical water level data is not available.

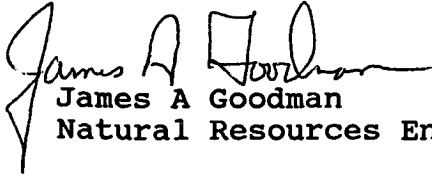

REVIEW OF EXISTING WATER PERMITS/RIGHTS

There are no other existing water permits/rights in this area. Interference is not expected to be a concern. This is a flowing well and a pump can be installed if necessary.

CONCLUSIONS

1. Water is available from the Inyan Kara aquifer.
2. The aquifer is confined and under artesian conditions. Drawdown will occur as a result of diversions. This is not expected to be significant nor affect any other user. There may be other domestic wells in the area which obtain water from this formation but there are no records in the Division's files which indicate other wells in this area.
3. This well has been completed in accordance with SD Well Construction Standards. This is a "slim hole" well.
4. The well reportedly flows 50 gpm. This application is for 75 gpm. The well would need to be pumped to produce that much water. It is doubtful that this system will ever need to use the amount of water requested for stockwater.

5. This well must be valved and controlled to prevent the waste of water. Since this well will be used primarily during the summer grazing season, it will be necessary to shut the well in during the off season. Some flow may be allowed during the winter to prevent freezing of the well, but this would need to be kept to a minimum.

James A Goodman
Natural Resources Engineer

Dear Mr. Lempke:

Water Permit Application No. 1586-1 for rural water system use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Eagle Butte News printed at Eagle Butte, SD (Ph # 964-2100). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
605 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on October 14, 1993, with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NO. 1586-1 to Appropriate Water

Notice is given that V-E Grazing Association, c/o Maurice Lempke, Box 620, Eagle Butte, SD 57625 has filed an application for a water permit to appropriate 75 gallons per minute (0.17 cubic feet of water per second) from one well (Inyan Kara Formation) 2500 feet deep located in the S 1/2 NW 1/4 Section 32-T15N-R30E. The water is for rural water system use by the grazing association.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1586-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by November 1, 1993.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Division address to request copies of information pertaining to this application. Robert E. Roberts, Secretary, Department of Environment and Natural Resources.

NOTICE OF APPLICATION NO. 1586-1 TO APPROPRIATE WATER

Notice is given that V-E Grazing Association, c/o Maurice Lemke, finance officer, Box 620, Eagle Butte, SD 57625 has filed an application for a water permit to appropriate 75 gallons per minute (0.17 cubic feet of water per second) from one well (Inyan Kara Formation) 2500 feet deep located in the S1/2 NW1/4 Section 32-T15N-R30E. The water is for rural water system use by the grazing association.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1586-1 because: 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E. Capitol, Pierre, SD 57501; (605) 773-3352" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by November 1, 1993.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Division address to request copies of information pertaining to this application.

Maurice Lempke
V-E Grazing Association
Box 620
Eagle Butte, SD 57625

Dear Mr. Lempke:

Enclosed is Water Permit No. 1586-1 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water License may be issued, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
605 773-3352

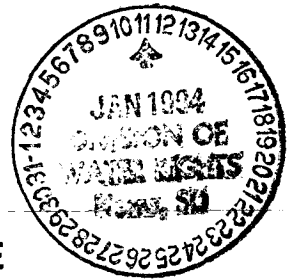

enclosures

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period - i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

Form 10

**NOTICE OF COMPLETION OF WORKS AND
APPLICATION OF WATER TO BENEFICIAL USE**

Date January 8, 94

TO: Water Rights Division, DENR
523 E. Capitol
Pierre, SD 57501-3181

FROM: V-F GRADING ASSOC. INC. Box # 278
(name) (address)
Sioux Falls, S.D. 57103 964-6740
(city) (state) (zip) (phone)

I have completed the construction of the water diversion system and I have put the water to beneficial use to the maximum extent it is going to be used. I have not exceeded the amounts specified in Water Permit No. 1586-1

Water Permit No. 1586-1 states that the diversion system is to be constructed by MARCH 92, and that the water is put to beneficial use by MAY 1, 93.
(date) (date)

The diversion system was completed on APRIL 92.
(date)

Applying the water to beneficial use was completed on MAY 1, 93.
(date)

You may schedule an inspection so that the Water License may be issued.

2000 South Dakota Water Use Questionnaire

discontinued!
V-E GRAZING ASSOC.
BOX 278
DUPREE SD 57623

*The V-E
was sold in
1998*

Address correction requested:

One questionnaire is being provided for each permitted water source. The following information is based on Water Permit\Right No. 1586-1. If you have other permits\rights in the same water source, also include water use under those permits\rights on this questionnaire.

Water Source: GROUNDWATER
Aquifer: INYAN KARA GROUP
Management Unit: NOT APPLICABLE

County: DEWEY
Pumping Pt. Legal: SEC 32-T015N-R30E
Type of Water Use: RURAL WATER SYSTEM

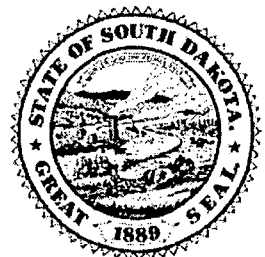

- 1) Please estimate your year 2000 water use from the above water source: _____ gallons
2) If no water use in 2000, please list the reason(s) why in the comments section.

V-E Grazing Assoc.
Box 278
Dupree SD 57623

Dear Sir:

Thank you for returning the 2000 SD Water Use Questionnaire. The form indicated that the V-E Grazing Assoc. was dissolved and sold in 1998. Would have you any information as to name and address of the buyer. Is groundwater still utilized for this rural water system?

I would assume so; too many \$ Not?

A postage prepaid envelope for your reply is enclosed. Any information you can give us would be appreciated. If you have any questions, please contact me.

Sincerely,

Karen Schlaak

To: Goldade, Deborah
Subject: land ownership in Dewey County

Ms. Goldade,

I am currently looking through a water permit file held by the V E Grazing Association. The water permit authorized diversion of water from a well located in the **S ½ NW ¼ Section 32, T15N, R30E** to be used for a rural water system purposes.

It is our understanding that the grazing association disbanded and the land sold. Can you tell me who now owns that piece of land? All I need is a name and their contact information. I do not need copies of anything.
Thank you in advance for your assistance.

1586-1

V E Grazing Association
% CRST Land Office
PO Box 590
Eagle Butte SD 57625 0590

Dear Sir:

I am writing in regard to Water Permit No. 1586-1 currently listed in the name of V E Grazing Association. Enclosed is a copy of the permit for your review.

The permit was obtained by the association back in 1992. It appropriated ground water to supply a ranch pipeline system. A few years ago, we were notified that the association had been dissolved and the land had sold. I recently contacted the Dewey County Register of Deeds office concerning the new ownership and was told that the land had not sold and was still listed as a grazing association.

The purpose of my inquiry is to find out if water is still being appropriated for rural water system purposes and if your office is the correct entity to direct any correspondence to. Please take a few minutes to call or write with any information you may have. Thank you in advance for your help.

Sincerely,

A handwritten signature in black ink that reads "Genny McMath". The signature is written in a cursive, flowing style.
