

Assigned on: 1-30-95 By: Karen Schlaak

SOUTH DAKOTA WATER PERMIT NO. 1615-1

Date of first receipt of application January 30, 1995.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 1615-1 to Glencoe Camp Resort, PO Box 999, Sturgis SD 57785 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 1615-1 appropriates 0.10 cubic feet of water per second from one well (Inyan Kara Formation) approximately 900 to 1000 feet deep located in the SW 1/4 NW 1/4 (Lot 5) Section 6-T5N-R6E.
2. The water appropriated shall be used for the purpose of supplying water to the campground and may not exceed the amount of water needed for beneficial use for commercial use.
3. The water is to be used during the following described annual period: June 1 - August 31.
4. The date of approval of Permit No. 1615-1 is March 13, 1995.
5. The date from which applicant may claim right is January 30, 1995.
6. One-fifth of the construction is to be completed on or before September 13, 1997.
7. All construction is to be completed on or before March 13, 2000.
8. Water is to be put to beneficial use on or before March 13, 2004.
9. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 1615-1 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) from the producing formation to the surface pursuant to Section 74:02:04:28.

(continued)

3. The well approved under this Permit shall be valved and the flow reduced to the amount needed or to a minimum when not being used. The well shall also be equipped with a pressure gauge and a record kept of any pressure fluctuations. Such records shall be available to the Chief Engineer upon request. If this well is abandoned or the Permit cancelled, the well must be plugged in accordance with Water Management Board Rules, Chapter 74:02:04.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 1615-1, Glencoe Camp Resort**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Environment and Natural Resources concerning Water Permit Application No. 1615-1, Glencoe Camp Resort, c/o Gary Lippold, PO Box 999, Sturgis, SD 57735.

The Chief Engineer is recommending APPROVAL of Application No. 1615-1 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 1615-1 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) from the producing formation to the surface pursuant to Section 74:02:04:28.
3. The well approved under this Permit shall be valved and the flow reduced to the amount needed or to a minimum when not being used. The well shall also be equipped with a pressure gauge and a record kept of any pressure fluctuations. Such records shall be available to the Chief Engineer upon request. If this well is abandoned or the Permit cancelled, the well must be plugged in accordance with Water Management Board Rules, Chapter 74:02:04.

See report on application for additional information.

JOHN HATCH, Chief Engineer
February 14, 1995

REPORT ON WATER PERMIT APPLICATION NO. 1615-1
for Glencoe Camp Resort
January 31, 1995

Water Permit Application No. 1615-1 proposes to appropriate 0.10 cfs (45 gpm) from one well approximately 1000 feet deep located in the SW 1/4 NW 1/4 of section 6, T5N R6E in Meade County. Water is to be used for commercial purposes at the campground.

AQUIFER - INYAN KARA (INKR)

The Inyan Kara Group consists of interbedded sandstone and shale with the names of Fall River, Fuson and Lakota Formations in descending order. The Group is approximately 200 feet thick in this area, underlies 2.1 million acres and contains an estimated 36.4 million acre feet of recoverable water in storage in Meade County (Allen, 1984). The aquifer is confined and under artesian conditions and will probably free flow at the land surface at this site. An existing well for Glencoe Camp Resort located about 1/2 mile south of this application is completed to a depth of 890 feet and was capable of flowing 80 gpm. This well had a shut in pressure of 40 psi.

The Division of Water Rights monitors an observation well MD-89A completed into the Inyan Kara (Lakota Formation) which is located about 5 miles northwest of this application. Water levels for this well fluctuate due to use of water from area Inyan Kara wells, but also indicate that the aquifer is capable of sustaining additional withdrawals (Water Rights, 1995).

REVIEW OF EXISTING WATER PERMITS/RIGHTS

The nearest existing Water Right is No. 1487-1 also for Glencoe Camp Resort. The well for this application is located about 1/2 mile northeast of No. 1487-1. Drawdown will occur and should be measurable at the distance between wells. However, this diversion rate is relatively small and interference is not expected to be adverse.

CONCLUSIONS

1. Water is available from the Inyan Kara.
2. The aquifer is confined and under artesian conditions. Drawdown will occur as a result of water use from area Inyan Kara wells. Interference should not be a concern. This is a relatively small diversion rate and the distance between diversion point is sufficient to minimize any potential effects.
3. The aquifer will free flow at the land surface in this area. This well must be completed in accordance with SD Well

Construction Standards. The well must be valved and controlled to prevent the waste of water.

James A Goodman
Natural Resources Engineer

PO Box 999
Sturgis, SD 57785

Dear Mr. Lippold:

Water Permit Application No. 1615-1 for commercial use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Meade Co. Times-Tribune printed at Sturgis, SD (Ph # 605-347-2321). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
605 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

ATTENTION: Legal Department

Enclosed is a Notice of Hearing on Application No. 1615-1 to be published twice. Please publish the first notice on February 22, 1995, with the second publication 7 days later.

The APPLICANT MUST VERIFY TO YOU THAT THE NOTICE IS TO BE PUBLISHED, before you make the first publication. Please BILL the APPLICANT for the cost of publication. The APPLICANT is Glencoe Camp Resort, c/o Gary Lippold, PO Box 999, Sturgis, SD 57785 (Ph # 605-347-4712).

A copy of BOTH publications must be SENT to the WATER RIGHTS DIVISION. IMMEDIATELY return the FIRST publication with the FIRST Transmittal form on the bottom of this page. The first copy is needed to check the publication for errors so any corrections can be made in the second publication. Publication errors can invalidate the public notice and cause the applicant costly delays.

Please be sure the SECOND publication is returned IMMEDIATELY with the enclosed Proof of Publication form. DO NOT WAIT until the end of the month or the billing cycle. No action may be taken on the permit application until proof of publication has been received.

Sincerely,

Eric Gronlund

FIRST PUBLICATION.

Name

Newspaper

Instruction to Newspaper - Publish first Notice on February 22, 1995 with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NO. 1615-1 to Appropriate Water

Notice is given that Glencoe Camp Resort, PO Box 999, Sturgis, SD 57785 has filed an application for a water permit to appropriate 0.10 cubic feet of water per second from one well (Inyan Kara Formation) approximately 900 to 1000 feet deep located in the SW 1/4 NW 1/4 (Lot 5) Section 6-T5N-R6E. Water is to be used for commercial purposes at the campground.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1615-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by March 13, 1995.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Division address to request copies of information pertaining to this application. Steven M. Pirner, Acting Secretary, Department of Environment and Natural Resources.

Dear Mr. Lippold:

Enclosed is Water Permit No. 1615-1 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water License may be issued, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
605 773-3352

enclosures

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period - i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

Sturgis, SD 57785-0999

Dear Mr. Lippold:

The investigation of your water use system was conducted on July 14, 1999, by Ron Duvall, staff engineer. The investigation included the extent of application of water to beneficial use, as developed under Water Permit No. 1615-1. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the investigation and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

**Please remit fee to:
Department of Environment & Natural Resources
Water Rights Program
523 E. Capitol
Pierre, SD 57501-3181**

Sincerely,

Cheryl F. Frost
Secretary
Water Rights Program
(605) 773-3352

NOTE: On check or money order, please specify your permit number. This will insure proper handling of the fee.

Belle Fourche River - Water District

Report of Examination of Works and/or Application of Water to Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, July 14, 1999, made a thorough examination of the water use system constructed by Gary Lippold, Glencoe Camp Resort of PO Box 999, Sturgis SD 57785 holder of Permit No. 1615-1, bearing the priority of January 30, 1995 authorizing the diversion of 0.10 cu. ft. per second of the waters of Inyan Kara Formation for commercial purposes, in Meade County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

Pump/Motor:

- 1) Make Unknown submersible
- 2) Horsepower rating 25 hp
- 3) Capacity 45 GPM

B. Works used to transport/apply water to place of use:

Water is diverted to a storage tank adjacent to the well and then throughout the campground for sanitary and drinking purposes.

The system is in the following condition good. The point of diversion is located Well: $\approx$ 460 feet S and $\approx$ 1,175 feet W from the N $\frac{1}{4}$ corner section 6-T5N-R6E (NE $\frac{1}{4}$ NW $\frac{1}{4}$). The works are capable of diverting and conveying to the place of use 0.10 cu. ft. per second of which is to be used for commercial purposes. Water has been put to beneficial use to the maximum extent and the license should be issued for 0.10.

Applicable permit qualifications have been complied with: Yes X No

Exceptions to compliance are: none Date report completed: August 31, 1999

Ron Duvall

Approval of Location Change of a Diversion Points

NAME: Gary Lippold, Glencoe Camp Resort

ADDRESS: PO Box 999, Sturgis SD 57785

DATE: August 31, 1999 **COUNTY:** Meade

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

The proposed well was to be 900 to 1,000 feet deep and constructed into the Inyan Kara Formation. According to the well completion report, the completed well is 1,350 feet. After reviewing the well completion report Jim Goodman, Natural Resources Engineer confirmed that the well is still in the Inyan Kara Formation. The actual well location is approximately 1,800 feet North of the permitted location. No increase in the permitted diversion rate has occurred due to relocation of the well.

- **Review of Existing Diversions**

The nearest other Inyan Kara diversion held by someone other than Glencoe Camp Resort is located in section 8-T5N-R6E under Water Right Permit No. 1518-1 held by Ron Woodruff. The constructed location of the well for Glencoe Camp Resort places it further away from the well specified on No. 1518-1. The potential for interference with other diversions has not increased.

RECOMMENDED ACTION

Based on the above criteria, it is recommended that the diversion point(s) be licensed as developed.

Ron Duvall, Natural Resources Engineer
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This change in location of the diversion points does not increase the potential for adverse effects to existing diversions.

John Hatch, Chief Engineer

Ron Duvall, Nat Res Engineer

8/31/99

Water Right No. 1615-1

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 1615-1

(1) Glencoe Camp Resort, PO Box 999, Sturgis, SD 57785-0999 made Application No. 1615-1, January 30, 1995 for a water permit to divert 0.10 cubic feet of water per second from ground water (one well – Inyan Kara Formation), Meade County, South Dakota for commercial purposes. Permit No. 1615-1, with a priority date of January 30, 1995 was approved March 13, 1995 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before March 13, 2000 and for the application to beneficial use of water on or before March 13, 2004.

On February 1, 1996, the permit holder submitted a “*Notice of Completion of Works and Application of Water to Beneficial Use*”. The “Notice” stated the system was completed and water placed to beneficial use on August 1, 1995.

An investigation of the water use system found the diversion point was constructed outside of the area described in the permit. Pursuant to SDCL 46-5-13.1 and ARSD 74:02:01:14.01, the chief engineer made a finding that the change in location of the diversion point does not increase the potential for adverse effects to existing diversions.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.10 cubic feet of water per second for beneficial use. The location of the diversion point is approximately 460’S and 1,175’W of the N ¼ corner of Section 6, T5N, R6E (NE ¼ NW ¼).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use throughout the campground for sanitary and drinking water purposes.

(4) Pursuant to South Dakota Water Law 46-5-30.1 Glencoe Camp Resort, PO Box 999, Sturgis, SD 57785-0999 the holder and/or owner of Water Right No. 1615-1 is issued a license to appropriate water, the right to use 0.10 cubic feet of water per second from ground water (one well – Inyan Kara Formation) with a priority date of January 30, 1995 from the location specified in (2) of this license. The water is used for commercial purposes. This license is subject to any limitations or qualifications listed in Water Right No. 1615-1 and subject to South Dakota State Law.

Dear Mr. Lippold:

Enclosed is Water License No. 1615-1. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 416203 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 1615-1, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Program

RE: Transfer of ownership for Water Right Nos. 1487-1 & 1615-1 and Water Permit No. 1858-1

Dear Mr. Lamphere:

Thank you for your email concerning the ownership changes needed for water rights or permits listed in the name of Glencoe Camp Resort. I have included a copy of Water Right Nos. 1487-1 & 1615-1 and Water Permit No. 1858-1. You may keep these for your records.

Enclosed are partially completed "Notice of Transfer of Ownership" forms for filing the ownership changes. Please complete the forms as needed and return them to our office with a required filing fee of \$2.50 each (total of \$7.50). The check or money order for the fee can be made payable to the Water Rights Program.

Sincerely,

Genny McMath

Subject: Notice of Transfer

Genny,

Glencoe CampResort has been sold as you have heard. Please send a "Notice of Transfer of Ownership" Form so we can change the water permit to reflect new ownership. Please send it to Glencoe CampResort LLC, at PO Box 999, Sturgis, SD 57785. If you have any further questions please call us at 605-347-4712 thank You.

Sincerely,

Fritz Lamphere

WATER RIGHTS
PROGRAM

NOTICE OF TRANSFER OF OWNERSHIP

To: Chief Engineer
Water Rights Program, DENR
523 E. Capitol
Pierre, SD 57501-3181

No. 1615-1
Date: 9-9-09

I/We request that Water Right No. 1615-1

formerly owned by: Glencoe Camp Resort Inc % Gary Lippold

be transferred to: (name & address) Glencoe Camp Resort II LLC
% Fritz Lamphere

Telephone No. 347-4712

Title to the following described land(s)/property has been transferred as described above:

well location: NE ¼ NW ¼ Section 6, T5N, R6E

I/We understand that the validity of Water Right No. 1615-1 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Two Dollars and Fifty Cents (\$2.50) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

I/We Fritz Lamphere, the new owner, certify that the above information is true and correct.

Fritz Lamphere
(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

RE: Transfer of ownership for Water Right Nos. 1487-1 & 1615-1 and Water Permit No. 1858-1

Dear Mr. Lamphere:

The "Notice of Transfer of Ownership" forms and \$7.50 in filing fees have been received. When the forms and fees were requested back in February, 2009, the fee for filing an ownership change was \$2.50. On July 1st, the fee increased to \$50.00.

Enclosed is the check from Cindy Cruickshank in the amount of \$7.50. The correct fee for filing the ownership changes for Nos. 1487-1, 1615-1 and 1858-1 is **\$150.00** (\$50.00 each). The check or money order for the fee can be made payable to the Water Rights Program.

The ownership changes will be processed upon receipt of the \$150.00. If you have any questions, please contact me.
