

WATER PERMIT NO. 1952-1

Name of Applicant: Hostler Farms

Address: 39886 252nd St, Mt. Vernon SD 57363

Phone: 605 770-1321

Amount of Water Claimed: 3.90 cfs

Total Acres: 137 acres

Source of Water Supply: Belle Fourche River

Water to be used for: irrigation

County: Butte

Type of Waste Disposal System:

Location: 5 miles southwest of Newell

PRIORITY

Date Received: 4-9-15

Application/License Fee: \$ 1050

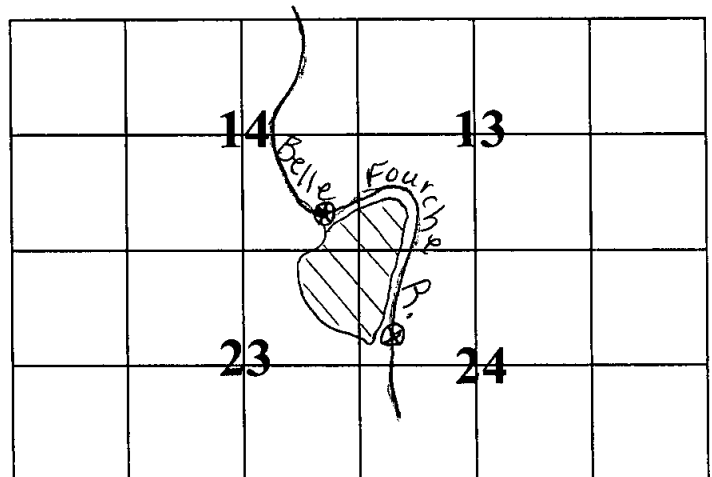

Corrected Application Received:

Period of Annual Use: April 1 – October 31

Remarks: Requesting diversion rate greater than statutory limit

Diversion Point: between points located in the SE
1/4 SE 1/4 Sec 14 and SW 1/4 NW 1/4 Sec 24; all
in T8N-R5E

Land to be Irrigated: SE 1/4 SE 1/4 Sec 14, SW 1/4
SW 1/4 Sec 13, N 1/2 NE 1/4, SE 1/4 NE 1/4 Sec 23
and W 1/2 NW 1/4 Sec 24; all in T8N-R5E

Depth of Well: NA

Well Driller:

PROGRAM

Application For Permit To Appropriate Water For Irrigation

Type of Application: ☒ New ☐ Vested Right ☐ Amendment/Correction to Permit No. _____
(Use predates Mar 2, 1955)

Description of amendment/correction: (i.e. change diversion point(s), add diversion point(s), change use, etc.)
old cancelled WR No. 509-1 Land is receives allocation from BFID

1. Name to Appear on Irrigation Permit Hostler Farms

(check one) ☒ Owner ☐ Tenant/lessee ☐ Owner's Legal Agent

(name and complete address if different than above name)

Mailing Address 29886 252nd St Mt. Vernon SD 57363
(Address) (City) (State) (Zip Code)

Home Phone _____ Cell 770-1321 Email dryruncattle@santel.net

2. Amount of water claimed 196*CFS or 1750**GPM ***AF Total Acreage 137
(*Cubic Feet per Second) (**Gallons per Minute) (***)Acre Feet - storage capacity of dam/dugout or annual use if applicable)

3. Source of water supply Belle Fourche River

4. Location of point of diversion between SE 1/4 SE 1/4 Section 14, T8N R5E and SW 1/4 NW 1/4
Section 24, T8N, R5E County Butte
(example - 3 wells in SW1/4 NE1/4 section 12-T104N-R53W)

5. County or counties where water will be used Butte

6. Annual period during which water is to be used April 1 - October 31

7. List below each forty acre division, or lot, or fraction thereof and show number of acres to be irrigated in each.
all in T8N, R5E (Attach sheet if more space is needed)

Land Description	Acres	Land Description	Acres
SE SE Section 14	22	SE NE Section 23	13
SW SW Section 13	28	NW NW Section 24	18
NE NE Section 23	40	SW NW Section 24	8
NW NE Section 23	8		

8. Give a description of the project. (Attach sheet if more space is needed)

Irrigation supplem for the three planned pivot indicates they will run at 350, 450 and 950 gpm.

I, Travis Hostler, the applicant, certify that I have read this application, have examined the attached map, and that the matters stated are true.

SOUTH DAKOTA
WATER PERMIT NO. 1952-1

Date of first receipt of application April 9, 2015.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 1952-1 to Hostler Farms, c/o Travis Hostler, 39886 252nd St, Mt. Vernon SD 57363 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 1952-1 appropriates 1.96 cubic feet of water per second from the Belle Fourche River located between the SE 1/4 SE 1/4 Section 14 and the SW 1/4 NW 1/4 Section 24; all in T8N-R5E for irrigation of 137 acres located in the SE 1/4 SE 1/4 Section 14, SW 1/4 SW 1/4 Section 13, N 1/2 NE 1/4, SE 1/4 NE 1/4 Section 23 and the W 1/2 NW 1/4 Section 24; all in T8N-R5E.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1 – October 31.
3. The date from which applicant may claim right is April 9, 2015.
4. The date of approval of Permit No. 1952-1 is June 8, 2015.
5. One-fifth of the construction is to be completed on or before December 8, 2017.
6. All construction is to be completed on or before June 8, 2020.
7. Water is to be put to beneficial use on or before June 8, 2024.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. Low flows as needed for downstream domestic use, including livestock water and prior water rights must be by-passed.
2. Diversion under this permit shall be in accordance with written orders issued by the Chief Engineer.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

RE: *Application 1952-1, requested diversion rate greater than 1 cfs per 70 acres*

Comments:

I called Travis Hostler concerning his application for irrigation requesting a diversion rate of 3.90 cfs for 137 acres. I explained that the Water Management Board can allow for a greater diversion rate if conditions warrant this variance. I suggested to Mr. Hostler that the large pivot should be nozzled to reduce its capacity to 878 gpm (1.96 cfs the statutory limit) and he not run the two smaller pivots when the larger one is being operated. He said the irrigation system can be valved to allow for this. Mr. Hostler agreed to reduce the requested diversion rate back to the statutory limit.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 1952-1, Hostler Farms**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. Hostler Farms, c/o Travis Hostler, 39886 252nd Street, Mt Vernon SD 57363.

The Chief Engineer is recommending APPROVAL of Application No. 1952-1 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. Low flows as needed for downstream domestic use, including livestock water and prior water rights must be by-passed.
2. Diversion under this permit shall be in accordance with written orders issued by the Chief Engineer.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

See report on application for additional information.

Jeanne Goodman, Chief Engineer
May 19, 2015

REPORT ON WATER PERMIT APPLICATION NO. 1952-1
Hostler Farms
April 27, 2015

Application No. 1952-1, proposes to appropriate 1.96 cubic feet of water per second (cfs) from the Belle Fourche River located between the SE 1/4 SE 1/4 Section 14 and the SW 1/4 NW 1/4 Section 24; all in T8N-R5E for irrigation of 137 acres located in the SE 1/4 SE 1/4 Section 14, SW 1/4 SW 1/4 Section 13, N 1/2 NE 1/4, SE 1/4 NE 1/4 Section 23 and the W 1/2 NW 1/4 Section 24; all in T8N-R5E. The proposed project is located approximately 3 miles northwest of the town of Vale in Butte County.

Review of the Proposed Water Source

The applicant proposes to divert water from the Belle Fourche at a rate of 1.96 cfs using three center pivots to irrigate 137 acres. The Belle Fourche River headwaters in northeast Wyoming and flow northeast around the northern edge of the Black Hills of South Dakota then east to the Cheyenne River confluence north of Wasta, South Dakota, for an approximate distance of 290 river miles. Included in this stretch is the Belle Fourche Reservoir, which is part of the United States Department of the Interior's Belle Fourche Project. This project was completed in 1914 and includes a diversion dam, storage dam and a system of canals that irrigate 57,068 acres located in southern Butte County in western South Dakota.

United States Geological Survey (USGS) has maintained a stream flow gaging station on the Belle Fourche River near Sturgis, SD since 1953. This gage is located downstream of several Belle Fourche Project wasteways and tributaries such as Owl and Horse Creeks. Owl Creek discharges into the Belle Fourche River approximately 2 miles upstream from this project. Historical data from this gaging station indicate there is 50 percent probability the median flow rate could range from 210 to 266 cfs or greater for the months May through September during any given year. There is a 75 percent probability the median flow rate could range from 87 to 195 cfs or greater for this same period of time. (Table 1)

Table 1. USGS Stream Gaging Station; Belle Fourche River near Sturgis, cfs - 60 years of record, October 1953- September 2014)

Probability	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
95%	5	9	19	25	33	60	84	85	36	27	23	13
90%	9	13	25	36	49	84	130	137	77	33	27	20
75%	18	25	46	52	87	157	191	195	150	51	41	26
50%	28	40	102	109	210	262	266	266	229	75	53	36

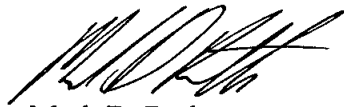

A portion of the water in this section of the river consists of irrigation return flows coming from the Belle Fourche Irrigation District (BFID) during irrigation season. The impact of the irrigation return water can be observed in Table 1 as the overall increase in the flows during the months of May through September. Because the amount of water or method of irrigation can change from one season to the next, return flows should not be expected to provide a reliable supply of water.

Review of Existing Water Rights

There are 58 existing water rights/permits appropriating 125.47 cfs from the Belle Fourche River downstream of this proposed project to the confluence with the Cheyenne River. Except during severe drought conditions in the Belle Fourche River Basin, historical USGS stream flow data indicates that approving this permit likely would not adversely impact existing water rights or domestic water use downstream of this proposed project.

Conclusions

1. This application proposes to appropriate 1.96 cubic feet of water per second (cfs) from the Belle Fourche River to irrigate of 137 acres.
2. There are 58 existing water rights/permits appropriating 125.47 cfs from the Belle Fourche River downstream of this proposed project to the confluence with the Cheyenne River
3. Approval of this permit likely would not adversely impact existing water rights or domestic water use downstream of this proposed project

Mark D. Rath
Natural Resources Engineer III

NOTICE OF APPLICATION

NO. 1952-1 to

Appropriate Water

Notice is given that Hostler Farms, c/o Travis Hostler, 39886 252nd St, Mt. Vernon SD 57363 has filed an application for a water permit to appropriate 1.96 cubic feet of water per second (cfs) from the Belle Fourche River located between the SE 1/4 SE 1/4 Section 14 and the SW 1/4 NW 1/4 Section 24; all in T8N-R5E for irrigation of 137 acres located in the SE 1/4 SE 1/4 Section 14, SW 1/4 SW 1/4 Section 13, N 1/2 NE 1/4, SE 1/4 NE 1/4 Section 23 and the W 1/2 NW 1/4 Section 24; all in T8N-R5E.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1952-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on this application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by June 8, 2015.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Information concerning this application is available at <http://denr.sd.gov/public>. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

Dear Mr. Hostler:

Water Permit Application No. 1952-1 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice has been sent to the Butte County Post printed at Belle Fourche SD (Ph # 605-892-2528) and the Black Hills Pioneer printed at Spearfish SD (Ph # 605-642-2761). You will need to contact the newspaper(s) and authorize publication of this notice. For your information, a copy of the notice, the recommendation of the Chief Engineer and report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper(s) to authorize publication of your Notice and to arrange for payment. Early contact with the paper(s) can eliminate delays. Upon receiving authorization from you, the publisher has been instructed to publish your notice. The newspaper has also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

NOTICE OF APPLICATION NO. 1952-1 to Appropriate Water

Notice is given that Hostler Farms, c/o Travis Hostler, 39886 252nd St, Mt. Vernon SD 57363 has filed an application for a water permit to appropriate 1.96 cubic feet of water per second (cfs) from the Belle Fourche River located between the SE 1/4 SE 1/4 Section 14 and the SW 1/4 NW 1/4 Section 24; all in T8N-R5E for irrigation of 137 acres located in the SE 1/4 SE 1/4 Section 14, SW 1/4 SW 1/4 Section 13, N 1/2 NE 1/4, SE 1/4 NE 1/4 Section 23 and the W 1/2 NW 1/4 Section 24; all in T8N-R5E.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 1952-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on this application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by June 8, 2015.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Information concerning this application is available at <http://denr.sd.gov/public>. Dear Mr. Hostler:

Enclosed is Water Permit No. 1952-1 authorizing construction of the water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.

An informational sheet *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Jeanne Goodman, Chief Engineer
Water Rights Program

Dear Mr. Hostler:

Enclosed is Water Permit and Water License No. 1985-1. These are the final water right documents completing your process of obtaining a Water Right.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
Water Rights Program
(605) 773-3352

Note: The applicable portions of No. 1952-1 are incorporated into Water License No. 1985-1.
