This is to certify that I have examined the foregoing application for a permit to appropriate water
of the state of South Dakota, and I hereby grant the same as stated herein, subject, however, to the
following limitations and conditions:

1st. The equivalent of at least one-fifth of the work above specified is to be completed on or be-
fore March 25, 1951

2nd. The whole of said work is to be completed on or before September 25, 1951

3rd. The limit of time for proof of beneficial use of water appropriated in accordance herewith
is September 25, 1951

4th. The water appropriated shall be used for the purpose of irrigation

5th. The prior right of all persons who, by compliance with the laws of the State of South Dakota,
have acquired a right to the use of water must not be injuriously affected by this appropriation.

6th. The amount of the appropriation herein granted shall not exceed 1.5 cubic
feet of water per second of time; neither shall it exceed the capacity of the above described system
of diversion works, nor the least amount of water that experience may hereafter indicate as necessary
for the production of crops in the exercise of the best husbandry; and further said appropriation must
be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time
for each acre of land to which water is actually and beneficially applied for irrigation on or before
September 25, 1951; said water to be used during the following described annual
period:

OWL CREEKS, MEADE COUNTY

September 8, 1950

By: Fred A. Beeman, Assistant State Engineer
Norbert C. Schaefer, Assistant State Engineer

To: Desn W. Loucks, State Engineer

On September 5 + 6, 1950, Mr. Beeman and Mr. Schaefer from the State Engineers Office and J. R. Richardson, registered engineer from Kadoka visited Red Owl and White Owl Creeks. The purpose of the trip was to investigate the water supply in Red Owl and White Owl Creeks in view of the demand of the numerous recent applications for water rights in the Red Owl and White Owl Valley.

A discussion was held with Frank Timmons who is 58 years old and has lived in the vicinity all his life. Mr. Timmons' land lies above the fork of Red Owl and White Owl Creeks with land lying in the valleys of both creeks. He said there always has been abundant water supplies in the spring holes along the creek bed. The springs were never known to dry out, even during the drought of the 1930's, although some springs were choked off by the silt and thistles that blew into their channels during the dry years.

Guy Simons, whose land is about one mile above the Timmons land on White Owl Creek, says he is 52 years old and has lived on the place all his life. He said there always has been ample water in the spring holes on the creek bottoms. During the 1930's, ranchers from miles around brought their cattle to these springs for water and no effect was ever noticed on the overall supply along the creeks.

A study of the valleys along Red Owl and White Owl Creeks and discussions with the tenants revealed that water bearing gravels are present across the valleys up and down both creeks and into various draws draining into the creeks. These gravels are close to the surface at the fork of the two streams and further down Red Owl Creek. There is from 10 to 12 feet of soil overlying the gravel farther upstream. Likewise, the creek banks are steeper upstream and rather shallow downstream and at all times the creek bed is in this gravel. At places where a hole exists in the creek bottom, water will stand in what the tenants call spring holes, and if the creek bed is quite low for any distance these springs will flow from one hole to another. In places this flow disappears under gravel in the stream bed and then appears again in another spring hole. Wells along the banks and further out in the valley have abundant supplies with only from 3 to 6 feet of penetration into the gravels. One such well on the Guy Simons land has been abandoned for about 30 years and was filled with top soil. This top soil keeps caving into the well every few years, indicating a fairly swift flow in the coarse gravel below. In places where the creek

meanders across the valley, water percolates out of the side of the creek banks and flows on down the creek indicating that the water flows in a general direction down the valley and does not necessarily follow the meandering creek.

The gravels give every indication of being stream gravels that have been derived from granites such as there are in the Black Hills. During the course of time, the streams have meandered over the full width of the valley floor and have deposited the gravels that are now encountered in wells drilled there. The Fox Hills Sandstone forms the prominent hills and ridges in this locality and where observed at outcrops is a gray, poorly cemented sandstone. Without further study it would be impossible to determine porosity and permeability of the Fox Hills, but it is probably adequate to furnish a supply of water. It is the general opinion that the Fox Hills is a better water bearing formation than it was originally believed. The question then arises as to where the water comes from that supplies the stream gravel that is evident in Red Owl and White Owl Creeks. Undoubtedly much of it comes from annual rainfall and snow. It is likely, and likewise probable that the Fox Hills sandstone could be a feeder for this stream gravel.

The water rights of David Butcher and John Mathis on Red Owl Creek, which bear priority dates of 1895 + 1893 respectively have been abandoned for over 40 years, based on statements made by Guy Simons and Frank Timmons. Both of these rights are located on the Irwin Richardson land and are now taken up by the Richardson water rights. Mathis and Butcher have both passed away a number of years ago.

Although the investigation was made during the dry season when the flow was at it's lowest, it is evident that there is ample water for present needs throughout the valley. Both streams flow quite readily the greater part of the year due to run off and large spring flow.

NOTICE

Re: Violation of Requirement To Submit 1986 Irrigation
Questionnaire

Our records indicate that the 1986 Irrigation Questionnaire has not been submitted for Permit No(s). 204-1. 205-1, 202-1, 203-1. The request for the Questionnaire was dated November 3, 1986. The Water Management Board has directed that owners of water permits who have not submitted 1986 Irrigation Questionnaires be given notice of hearing(s) to be held by the Board to determine if any action is to be taken concerning the violation.

The hearings will be held at 2:00 pm, May 6, 1987 in Room 216, Joe Foss Building, 523 E Capitol, Pierre SD.

The hearing will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26. Following the hearing(s), the Water Management Board can:

1. Amend Permit No(s). 204-1. 205-1, 202-1, 203-1 to require the Irrigation Water Use Questionnaire to be submitted each year.
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

RE: Hearing - Red Owl Ranch Water Rights

Gentlemen:

Please be advised that I am the attorney and agent for Red Owl Ranch, located in eastern Meade County.

Mr. Irwin Richardson, majority stockholder in Red Owl Ranch advised me that your office had set a hearing concerning the water rights of the Red Owl Ranch for May 6, 1987 at 2:00 P.M.

I am writing this letter to inquire as to whether or not you propose to continue with the hearing concerning said matter, as I assume you have received the irrigation questionnaires from Mr. Gary Peterson concerning the Red Owl Ranch by now.

I would appreciate your advising this office if it will still be necessary to hold the hearing concerning the water rights of the Red Owl Ranch on May 6, 1987 as scheduled.

I will await hearing from you. Thank you very much.

Sincerely yours,

MOLSTAD & MOLSTAD

Re: Gary Peterson letter of 3/23/87

Dear Mr. Hatch:

Please let me know whether or not Gary Peterson has returned the Irrigation Questionnaire for 1986, since you wrote him. If not please let me know the next step I should take to protect and keep the permits # 204-1, 205-1 & 202-1. These tracts were not watered last year. I want to keep them active.

Gary told me that he would send the questionnaire to me, but I have not received it. Petersons no longer live on the place.

All business concerning the water rights should be addressed to Russell C. 770-1st St., 1222 Main St., Sturgis, S. Dak. 57785 who is agent for the Red Owl Ranch Family Land Link-Ed Partnership.

Dear Mr. Molstad:

I am writing in response to your inquiry of April 22, 1987 concerning the 1986 irrigation questionnaires for Water Right Nos. 202-1, 203-1, 204-1 and 205-1 and the hearing to be held May 6, 1987. Gary Peterson has returned the 1986 irrigation questionnaires for the above listed water rights.

A notice was sent to Gary Peterson and Irwin Richardson, March 23, 1987 regarding the Irrigation Questionnaire submittal and violation of Water Right Nos. 202-1, 203-1, 204-1 and 205-1 and the date hearings were to be held before the Water Management Board to determine any action to be taken concerning the violation.

They have been written and advised to disregard the notice sent to them dated March 23, 1987. With submission of the questionnaires, their names have been deleted from the agenda pertaining to these hearings.

Mr. Richardson has written us and requested that future irrigation questionnaires be directed to you as the agent for Red Owl Ranch. This request has been noted and your name has been added to these water rights. The 1987 irrigation questionnaires will be mailed sometime in October, 1987.

If you have any questions, please contact us.

Dear Mr. Main:

Enclosed, as you requested, are partially completed "Notice of Transfer of Ownership" forms for use in filing ownership changes on Water Right Nos. 202-1, 203-1, 204-1 and 205-1. The water rights are currently listed in the name of Irwin V Richardson.

Please review the forms for accuracy and make any necessary corrections. The forms will need to be completed and then signed by the new owner(s) in the presence of a notary public. Upon completion, please return them to our office with a required filing fee of \$2.50 each (total of \$10.00).

On a related matter, you requested a listing of water permit holders diverting water from either Red Owl or White Owl Creeks in Meade County. I am including a listing for each source. We also discussed a listing of permit holders from the tributaries leading to each of the creeks. In order to ensure you receive only the data you are interested in, if you could forward me a specific area or legal description (township and range), I could review our files and come up with a listing for you.

If you have any questions concerning completion of the enclosed transfer forms or with the listing of permit holders, please give me a call.

NOTICE

TO: PAUL & LAUREL SCHULTES, 18772 OWL CREEK RD, MARCUS, SD 57757

FROM: Ron Duvall, Natural Resources Engineer
for Garland Erbele, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2002 Irrigation Questionnaire(s)

Our records indicate that the 2002 Irrigation Questionnaire has not been submitted for Permit No(s) 202-1, 203-1, 204-1 & 205-1. The request for the Questionnaire was dated October 11, 2002. The Water Management Board has directed that owners of water permits who have not submitted the 2002 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning this issue.

The hearing will be held at 8:30 am, March 5, 2003, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 202-1, 203-1, 204-1 & 205-1 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before February 28, 2003, your name will be deleted from the Board agenda. If you have any questions or need assistance with completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

NOTICE

TO: PAUL & LAUREL SCHULTES, 18772 OWL CREEK RD, HOWES, SD 57748

FROM: Ron Duvall, Natural Resources Engineer
for Garland Erbele, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2005 Irrigation Questionnaire(s)

Our records indicate that the 2005 Irrigation Questionnaire has not been submitted for Permit No(s) 202-1, 203-1, 204-1 & 205-1. The request for the Questionnaire was dated October 28, 2005. The Water Management Board has directed that owners of water permits who have not submitted the 2005 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning this issue.

The hearing will be held at 10:30 am, March 2, 2006, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 202-1, 203-1, 204-1 & 205-1 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before **February 24, 2006**, your name will be deleted from the Board agenda. If you have any questions or need assistance with completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.
