Dear Mr. Butler:

On June 21, 1984, I made an inspection of Water Permits No. 231-1 and 232-1 obtained by O.E. Halvala. The permits were for wells to be used for irrigation. One well for each permit. The inspection indicated that the wells are not used for irrigation. Surface water is now being used. The water is diverted from diversion and storage dams that were constructed at the time the wells were to be constructed. This is a change in source of water. In order to comply with the South Dakota Water Laws, it will be necessary to submit an application for a permit for surface water. The systems qualify for a Vested Right because they were in use before July 1, 1955.

In order to assist you in submitting the two Vested Rights, I am enclosing two completed copies of Form 2, "Application for Permit" and one copy of Form 2B "Affidavit of Water Use" for each application. Please check these forms over and make any corrections necessary to make them as accurate as possible. Then sign and notarize all copies of the forms, where shown and return all copies to this office with a check for \$21.00 to cover the examining fees and the Water License (\$10.50 for each application).

Also enclosed are maps of the area. If you make any corrections on the maps, please return them to this office along with the forms. If there are no corrections you may keep the maps for your use.

If you have any questions regarding the matter, please feel free to contact this office.

Sincerely,

NOTICE

TO: Mike Butler, Cant Hook E Ranch, Buffalo, SD 57720

FROM: John Hatch, Chief Engineer
Water Rights Division
505 773-3352

SUBJECT: Notice of Requirement to File Vested Water Right Claim

This Notice is in regard to your two water spreading systems located in Harding County, South Dakota. LeRoy Mernaugh, Engineer, with the Division of Water Rights inspected your systems June 21, 1984. Portions of these systems were covered under Water Permit Nos. 231-1 and 232-1. The investigation findings showed that the wells authorized under the permits were not used for irrigation, although a surface water source had been developed and used since the start of construction. November 20, 1984, partially completed application forms were sent to you for filing a vested right claim for each system. The forms were received December 20, 1984; however, a filing fee was not received. The fee was requested December 21, 1984, but to date, we have not received the required filing fee from you.

Upon reviewing your application forms, it was noted that all of them were not signed and notarized. Enclosed are the copies that need to be signed and notarized. Please complete and return them to our office with the required filing fee.

South Dakota Water Law SDCL 46-5-49 as passed by the 1986 Legislature states that if the Chief Engineer is aware of a water use system for which the owner claims vested right status, the owner may be required to file the vested right claim within 90 days. Any claim filed after the 90 days will be considered a new application and receive a new priority date, which would be the date the application is received in this office. You have 90 days from the date of this notice to return your applications. The filing fee is \$15.00 per application (a total of \$30.00 for your applications).

If these forms and the \$30.00 in filing fees are not received within the 90 days your systems do not qualify for vested right status. The filing fee for your applications would then be \$150.00 each. If you have any questions, please contact us.
