Dear Mr. TARTER:

I am writing to follow up on Montana Water Permit Application No. 76844-S39F, Charles Oleson, for irrigation from the Little Missouri River, in Montana. During the April 16, 1991 informal hearing in Camp Crook by the Montana Department of Natural Resources and Conservation, Mr. Oleson agreed to a minimum flow bypass to protect of downstream water right holders, including those in South Dakota. Mr. Oleson agreed to condition his permit so that he can only pump when at least 30 cubic feet of water per second (cfs) is flowing at the U.S. Geological Survey (USGS) gaging station at Camp Crook. We have checked with USGS concerning the April 10 flow that was discussed April 16. The USGS inspected the gage April 11 and the April 10 flow was actually 11 cfs. On April 25, 1991, the flow at the Camp Crook gage was 7.5 cfs.

I have enclosed a list of South Dakota Water Rights on the Little Missouri River. The list includes priority dates. If at any time you wish to know the flow at the Camp Crook gage or have any questions, contact either Del Prosz or Mark Rath, Water Rights Division, telephone number (605) 773-3352.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

Water Rights Program

SUBJECT: Reporting Requirement for 2002 Irrigation Questionnaires

Our records indicate that the 2002 Irrigation Questionnaires have not been submitted for Permit Nos 236A-1, 236-1 & 1286-1. The request for the Questionnaires was dated October 11, 2002. The Water Management Board has directed that owners of water permits who have not submitted the 2002 Irrigation Questionnaires be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine if Permit No(s) 236-1 & 1286-1 should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 236A-1 qualification:

"This permit is approved subject to the irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 8:30 am. March 5, 2003 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 236A-1 in accordance with applicable provisions of SDCL 46-1-12;
2. Amend Permit No(s) 236-1 & 1286-1 to require the Irrigation Water Use Questionnaire to be submitted each year;
3. Postpone any action or take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaires are received in this office on/or before February 28, 2003, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.
