Dear Mr. Budmayr:

Per your letter of April 18, 1979, enclosed please find a 1978 irrigation questionnaire.

Thank you for writing to request an additional data sheet, the information we receive back on these sheets helps a great deal.

Upon returning the data sheet to this office, please let us know whether or not you will probably be leasing Mrs. Statta's land again next year. In the event that you will be, the name on the mailing list for these questionnaires can be changed to your name to prevent lost time next year.

Mr. Budmayr:

The rules adopted by the Water Management Board for establishing a water use control area on the Belle Fourche River, Whitewood Creek and Owl Creek requires that the water right holder be assessed a fee of ten dollars for each cubic foot per second or portion thereof of the diversion capability of the diversion works plus twenty-five cents for each acre irrigated as shown by the water rights of record in the Division of Water Rights. These fees are required to be paid to the Division of Water Rights by July 1, 1981.

Permits for which fees have not been paid by July 1, 1981 shall be refused the right to divert water for the remainder of the year. The fees paid will be used to defray the costs of providing water master services within the water use control area. The following is a tabulation of your assessment.

To Water Use Control Area Permit Owners:

Enclosed is a copy of the Financial Report for the Belle Fourche River Water Use Control Area. Based on this closing financial statement, amounts were prorated out and refunds are being sent from the money that was not used by the water master. Persons between the Belle Fourche Diversion Dam and Owl Creek will receive no refunds due to the water master's services being required only in this area.

The refund checks are being mailed under separate cover thru our Finance Office.

If you have any questions feel free to contact our office.

Sincerely,

Dear Mrs. Stetta:

Enclosed herewith is your Water Right Permit No. 1250-1 as approved by the Water Management Board authorizing you to construct your water diversion system and apply the water to beneficial use, not exceeding the limits as specified in said Water Right Permit No. 1250-1.

Also enclosed is FORM 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Water Management Board when you have completed the system and/or have put the water to beneficial use. The Board can then schedule an inspection so that your Certificate of Construction and/or Water License may be issued to you, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
