SUBJECT: Hearing to Consider Validation of Recognized Vested Right Claim No. 380-1

A Notice of Intent to validate Claim No. 380-1 was published on July 6 and 13, 1988 in the Black Hills Press, Sturgis SD. The Water Rights Division opposed validation of No. 380-1 for purposes of completing an on-site inspection of the claim. The inspection of Claim No. 380-1 was completed on April 10, 1989, by Jim Wendte, staff engineer. The inspection found that the number of acres being irrigated has been reduced from 24 acres to 20 acres. The diversion rate is to be reduced, accordingly, from 0.34 cubic feet of water per second (cfs) to 0.28 cfs. This reduced diversion rate is based on the statutory application rate of 1 cfs per 70 acres (20 acres/70 = 0.28 cfs).

The Water Management Board will consider validation of Claim No. 380-1 at 10:00 am, September 30, 1992, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre SD. The agenda time is an estimate. The actual time of the hearing may be later than 10:00 am due to prior agenda items.

Pursuant to the findings of the on-site inspection, validation of Claim No. 380-1 is recommended for a diversion rate of 0.28 cfs from Caudle Creek to irrigate 20 acres. Following the hearing, the Board is authorized to 1) validate the claim as recommended for 20 acres and 0.28 cfs, 2) validate the claim as licensed prior to the on-site inspection, 3) validate the claim based on evidence presented at the public hearing, or 4) defer validation of the claim. Applicable provisions of the published notice of intent to validate Claim No. 380-1 will still apply at this hearing. A copy of the July 6 and 13, 1988, publication is available upon request.

This hearing is an adversary proceeding. You have the right to be represented by a lawyer. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.
