APPROPRIATION OF WATER

Office of State Water Resources
Commission, Pierre, S. Dak.
May 12, 1959.

Notice is hereby given that A. C. Gruwell, whose postoffice address is Newell, S. Dak., has made an application in accordance with the provisions of the water laws of South Dakota for a permit to appropriate for beneficial use 37.7 cubic feet of water per second of time from Sulphur Creek and tributaries through the Gruwell Irrigation Project, the points of diversion of which are to be located on both banks of said stream between a point in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 2, T. 11N., R. 9E., and a point in the W $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Section 26, Twp. 11N., Range 9E. Said water to be used for the purpose of providing irrigation on parts of the following described land: E $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$, Sec. 1; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 2; SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 3; W $\frac{1}{2}$, NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9; NE $\frac{1}{4}$, Sec. 10; N $\frac{1}{2}$, Sec. 11; E $\frac{1}{2}$, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12; E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 13; all in T. 11N., R. 9E.; W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, and S $\frac{1}{2}$, Sec. 7; W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ and W $\frac{1}{2}$, Sec. 17; N $\frac{1}{2}$, Sec. 18; E $\frac{1}{2}$ NW $\frac{1}{4}$ and N $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 19; N $\frac{1}{2}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, all in T. 11N., R. 9E.

This application will be taken up by the State Water Resources Commission at their office at Pierre for consideration upon the 17th day of June, 1959, at 2:00 P. M. All interested persons may appear and be heard. Appropriate action will be taken by the Water Resources Commission after suitable time has elapsed for the consideration of any or all information presented.

MY COMMISSION EXPIRES APRIL 2, 1984

Margie Dalyk
(Notary Public)

P.O. Box 525
Brush, Co.

APPLICATION FOR EXTENSION OF TIME FOR COMPLETING WORKS

To the State Water Resources Commission
Pierre, South Dakota

March 5, 1965
(date)

Dear Sirs:

I hereby request that an extension of time from February 19, 1964
to Nov. 19, 1966 be granted me for the completion of works to be done under Permit No.
390-1
453-1 and that the time for proof of beneficial use of water be extended to Nov. 30, 1966

Said works are located in Butte County and are described
as follows:

Location of headworks: In the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$
of Section 9 Township 11 N. Range 8 E.-BHM
E., B.H.M. 735 ft. S of W $\frac{1}{4}$ Cor. Sec. 9, T. 11 N., R. 8 E-BHM

The water is to be used for the purpose of Flood irrigation and stockwater

The extension of time for the completion of these works is requested for the following reasons:

Extreme drouth conditions necessitated moving stock to Wyoming for
pasture and hay for two seasons. The necessary absence from the
project during that time, and the acute financial strain which the
move caused, prevented me from doing the required work on the irrigation
works at the required time.

State Water Resources Commission, Re:390-1 & 453-1
Pierre, So.Dak. A.C.Gruwell
Attention; Burton F.Jones.

Dear Burt; I answer to your favor of the 2nd relative to the above project will say that I was able to look over the project from the high ridges, when I was there, but the bottom lands above the ranch and to the northwest were so flooded that they could only get around on foot or with a saddle horse but I got a good view and the flooding was a beautiful sight for a person who is nutson these flood projects as I am. He has to develop the area embraced in Proj. 453-1 in Section 8 & 9, T.11, R.9 still, but he has the original 390-1 nearly all finished, except for a few small dikes. I talked with him about the percentage of the work which was completed and we were agreed that he had 75 or 80 percent of the project completed and has covered the areas set up for 390-1 with plenty of water, as far as I was able to observe from the higher ground.

Lots of soil moisture down to considerable depth and a fine crop of grass in the making, without any floods, but they will make the hay crop.

Yours very truly,

Carl M. Cornell,
Buffalo, So.Dak.

Investigation of
Water Right Application 390-1

As directed by the Water Resources Commission on June 17, 1959

A. C. Gruwell had made application to irrigate 2638 acres of land by means of spreader dams on Sulphur Creek in Meade County. In addition, one spreader dam is proposed for a tributary near Sulphur Creek.

At the last Commission hearing, Spink Brothers and others had protested this application because of a concern that it might have an effect on stock dams and spreader dams upstream including a number which did not have recorded location notices or recorded vested rights. I discussed this protest with Wally Mueller, Attorney for the protesters and he said that a written statement on any water right that Gruwell might receive, stipulating that these upstream dams and systems had prior rights would be satisfactory to the protesters.

The proposed Gruwell system is located about 25 miles northeast of Newell where highway 212 crosses Sulphur Creek. The project is to be developed as a part of the Great Plains Program. One requirement is that the land be developed so as to provide a permanent cover. I believe this permits broadcast alfalfa but does not allow for cultivated fields.

The proposed system includes 4 spreader ditches on Sulphur Creek to provide for irrigation along about 7 miles of Sulphur Creek. The first spreader dam provides for irrigation on 304 acres of land. However, Gruewell is considering trading this land and I doubt if this dam will be constructed soon.

When the map showing irrigated acres was prepared, the exact location of the diversion dams had not been determined. From the locations of the dams as shown to me, I do not believe 294 acres could be irrigated above the dam in Section 11, T 11, R 8.

The tentative plan calls for pump irrigation out of the lower diversion dam to a stock dam and thence on about 200 acres in the W₂, Section 18, T 11, R 8. I have some doubt about this phase of the project being very successful.

I believe Mr. Gruwell intends to develop this system to quite a large extent. He has received a rough estimate from the SCS that 70,000 cubic feet of earth would have to be moved. He plans to have most of the work completed by 1963.

The land lays so there are large areas which can have the water spread over it from just a few spreader dams. I am sure the

soil is such that it will absorb the water spread over it very slowly. The land now has a sparse grass and sage brush cover.

Recorded Water Rights on Sulphur Creek are:

Clayton Talley	1.91 c.f.s.	24 miles downstream
Theodore Mahaffy	3.0	44
" "	3.0	45
R. L. Bland, Jr.	2.0	40

There are others not recorded, including Max Hohenberger and Louie Tubiske (phonetic) just below Gruwell.

STATE WATER RESOURCES COMM.
PIERRE, SOUTH DAKOTA

Mr. Burton F. Jones,
Water Right Specialist
South Dakota Water Resources Comm.
State Office Building
Pierre, S. Dak. 57501

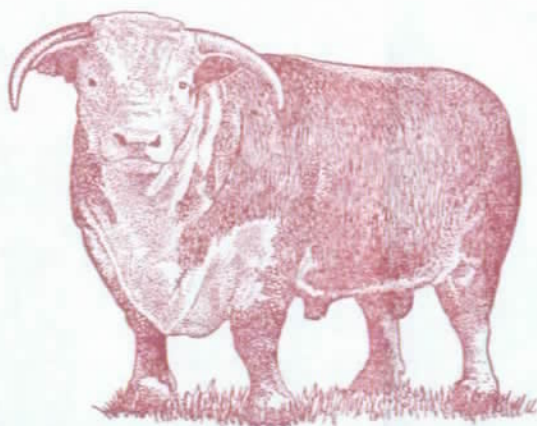

Dear Mr. Jones:

I am writing to ask for another extension of time for the completion of my irrigation project works under Permits 390-1 and 453-1. I would like to ask for a three year extension this time.

The reasons I'm asking for this additional time are:
No. 1--For the years of 1965 I received no technical assistance from the S. C. S. office in Belle Fourche. I made repeated trips to that office, each time I would be promised a technician would come to the ranch to survey but none did and the year 1965 was a complete loss.
No. 2-- This year 1966 I received better cooperation from the S. C. S. but the contractor let me down. He made repeated promises that he would move to our ranch in time to complete our project on time but not until now did he move here. In checking the record I should have been completed by November 19, 1966. This will be impossible due to the above stated reasons. Therefore for reasons completely beyond my control I must ask for an additional extension. I feel that I have acted in good faith but was not treated so by the S. C. S. or the contractor.

Sincerely,

A C Gruwell

December 10, 1981

J. W. Chenoweth
Woodrow
Colorado 80575

Dear Mr. Chenoweth:

On October 15, 1981, in the process of making the final inspection of Water Permits #390-1 and #453-1 with Earl Chenoweth; it was found, after I returned to the office, that you were irrigating 12 acres in the SE1/4 SW1/4 Sec. 1, T11N R8E, and 50 acres in the SW1/4 Sec. 8, T11N R9E. Neither Permits #390-1 nor #453-1 cover the area. In order to comply with the South Dakota Water Laws it will be necessary to submit an application to cover this acreage. (See yellow area on the enclosed map.)

Enclosed are two copies of Completed Form 2 "Application for Permit" which covers all of the area you are now irrigating — that area inside of the red lines. This is the area Earl indicated that you are irrigating. You should check over the forms and the enclosed map, and make any corrective changes necessary. Then sign and have the forms notarized and returned to this office with a check for \$150.00 to cover the cost of the filing fees. If there are no changes on the map you may keep it for your use. If there are changes on the map you will need to return it to this office in order for us to correct the files in this office.

Water Quality approval for the additional land will be required. An instruction sheet is enclosed. (See No. 5.)

Enclosed also is a "Notice of Transfer of Water Permit" for Permit #390-1. Please sign and have notarized and return to this office with a check for \$2.50 to cover the filing fee. By so doing you will retain the priority date of April 24, 1959.

The A.C. Gruwell Permit #453-1 is for portions of the E1/2 NW1/4, NE1/4 Sec. 8, SW1/4 NW1/4, SW1/4 and SW1/4 SE1/4 Sec. 9, T11N R9E has not been constructed. The time limit has expired and it will be scheduled for cancellation by the Water Management Board. You will be notified when it is scheduled. Enclosed is a xerox copy of the map that was submitted with Permit #453-1 in order for you to see the area this permit covered.
