At some later date, the applicant may decide to make changes in the point of diversion in order that water may be pumped from the Cheyenne River between the points of entrance and exit in section 25. These points are marked on the enclosed map as is the site of a proposed well.

The exact point of diversion is not clearly defineable due to the fact that the area is actually a flood plain for Pine Creek at its entrance to the Cheyenne River. This area has always been irrigated by normal stream flow. Recent improvements by an adjoining property owner have altered normal stream flow and diverted water which normally irrigates the indicated areas,

Proof of Application of Water to Beneficial Use**PETITION OF HOLDER**

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Maynard K. Newcombe Sec. 30, T6N, R16E, BHM, Meade Co., So. Dak.
Ranching Plainview, So. Dak.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent,) your position with reference to same, and your authority for appearing in its behalf.

Ans. Not a Corporation.

Ques. 3. State date of posting and date of recording notice of appropriation.

Ans. No posting or recording date.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Pine Creek. No actual point of diversion since the area is naturally irrigated by the flooding of the area with natural flow.

Ques. 5. Describe your works of diversion giving length and height of each dam and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use, and date of completion of same.

Ans. The area is completely self irrigated. No structures of any kind have been constructed in the area under irrigation.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have ACTUALLY been irrigated with said water.)

Ans. The water available is used to irrigate a large hay meadow.
See additional sheet for irrigable areas.

Ques. 7. If for other than irrigation purpose, state how applied, amount of horse power generated, etc.

Ans. Not used for any other purpose.

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. 2,226 cu. ft. / sec.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -----

Ques. 10. State when, how, in what amount and to what extent, the water diverted under above mentioned permit has been used.

Ans. The area has been irrigated whenever Pine Creek has carried any water. Generally this occurs during spring runoff and in the case of heavy rains on the drainage area. The water naturally spreads to cover the areas entered in the included table. Ownership of the land was acquired Dec. 15, 1937 and feed was cut the summer of 1938.

RR: Mattie Newcombe Water Right.

Dear Senator Walker:

I am writing in answer to your letter that was received on September 9, 1988. The following water rights are on file with the Division of Water Rights:

1. Vested Water Right Claim No. 542-1, Maynard K. Newcombe.
2. Vested Water Right Claim No. 543-1, Maynard K. Newcombe.
3. Water Right No. 1053-1, Mattie R. Newcombe.
4. Water Permit No. 1060-1, Maynard Newcombe.

Copies of these are enclosed for your information.

Water rights can not be renewed. A water right is valid as long as there has been water use at least once every three years. Legal excuse for nonuse of water, such as unavailability of water to satisfy a permit or right or legal proceeding which prevent the use of water, suspends the period of nonuse. If there has been nonuse of water, a water permit/right is subject to cancellation due to abandonment or forfeiture.

Vested Water Right Claim Nos. 542-1 and 543-1 have been noticed as being eligible for validation. Next week a notice will be mailed stating that I am opposing validation of these claims until field inspections of the claims can be completed. The inspections are needed to determine the current status of the claims.

Enclosed also, are partially completed transfer forms for Vested Water Right Claim Nos. 542-1 and 543-1 and for Water Permit No. 1060-1. These should be completed, and then signed by Mrs. Newcombe in the presence of a notary. The transfer forms should then be returned to this office with a \$2.50 filing fee for each (total of \$7.50).

If we can answer any other questions, please contact us.

Very truly yours,

Dear Ms. Newcombe:

I am writing to notify you that pursuant to the Notice of Intent to Validate Vested Water Right Claims dated June 20, 1988 that I intend to oppose validation of your water right claim No(s). 542-1, 543-1 until a field inspection has been completed. The claim has either never been inspected or an inspection was conducted so long ago that a new inspection is needed. An inspection is needed to determine the current state of your vested water right claim.

A staff member from the Division of Water Rights will be contacting you and scheduling an inspection of your water project. If we can answer any questions, please contact us.

COMMENTS:

35-5390 → On this date I inspected these rights with Jim O'Grady (operator). Mr. O'Grady showed me the entire system which has been developed ~~at~~ and is used. There is one main dike which diverts and spreads water under W.R. No. 543-1. There are some smaller assorted dikes near the river which prevent loss of irrigated water into the river. There is no specific diversion of water under W.R. No. 542-1 which consists entirely of natural runoff to irrigate the described lands. The total number of irrigated acres described on the licenses is ^{basically} the same, however, the locations of the irrigated acreage is not exactly accurate in a couple of instances.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Date of Validation September 30, 1992.

The Water Management Board validated Vested Water Right Claim No. 542-1 for irrigation purposes for Mattie Newcombe, 1404 Fulton St., Sturgis, SD, 57785 with the following limitations, conditions and qualifications:

1. Vested Water Right No. 542-1 appropriates 2.72 cubic feet per second of water from Pine Creek to irrigate 190.8 acres. The points of diversion are located in Section 25, T6N, R15E. The irrigated lands are located in the NW1/4, S1/2 NE1/4, N1/2 SE1/4 and N1/2 SW1/4 Section 25, T6N, R15E.
2. The appropriation may not exceed the amount of water needed for beneficial use for irrigation. The appropriation may not exceed 3 acre feet per irrigated acre per year. Water is to be used during the following annual period: January 1 to December 31.
3. The priority date of the Vested Water Right is December 15, 1937.
4. The water use system has been constructed and water has been applied to beneficial use.
5. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

The diversion rate limitation of 1 cubic foot per second for each 70 acres irrigated shall not apply to this Dry Draw irrigation diversion during periods of flood flows, when such flows are in excess of the amount of water required to satisfy domestic use requirements and other water rights.

Dear Ms. Newcombe:

The Water Management Board has validated the enclosed Vested Water Right Nos. 542-1 and 543-1. These validations give legal status to the claims and are the final document for your vested rights.

As long as you use the water beneficially, as stated in the validation, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

Re: Vested Water license 542-1

I went out with John Colgan and James O'Grady and looked at a Dike/roadbed that had been repaired by Mr. Colgan on Pine Creek. After discussing the problem and Mr. O'Grady's vested right on Pine Creek Mr. Colgan agreed that he needed and would remove a dike that was placed on a ditch leading to the irrigated acres on the Mattie Holcome ranch described by vested right 542-1.

An additional concern discussed was a crossing problem on TeePee creek associated with vested right 543-1. It was tentatively decided that they would search for a bridge to put in on an abandoned county road. Mr. O'Grady was very much against the idea of a culvert because of the debris that comes down the draw during irrigation season.

SUBJECT: Investigation of a Complaint

On October 23, 1995, Del received a complaint regarding damming of a creek. On October 24, 1995, I contacted Mr. James O'Grady who filed the complaint. He stated that Mr. John Colgan had dammed up Pine Creek and water does not reach Mrs. Mattie Newcombe's place (Mr. O'Grady runs Mrs. Newcombe's place).

I contacted Mr. Colgan. He stated that he had not changed anything. He said he had repaired a crossing.

I called DelRon and asked him to investigate the complaint. It seems that Mr. Colgan, after fixing the road, had installed a plug in a ditch that transported water from Pine Creek to Mrs. Newcombe's place. Mr. Colgan agreed to take the plug off and let water flow to Mrs. Newcombe's place (See also DelRon's memo to file).

Jim O'Grady called concerning a dike that is blocking the flow of the irrigation system on the Newcombe ranch covered by vested right 542-1. He was concerned that the dam/dike across the ditch would not be removed before spring if it wasn't removed soon because of the cold weather. I told him that I would call Mr. Colgan and see what the situation and his intentions were.

I talked to Mr. Colgan about the dike on his property blocking water from going on to the Nwcolombe irrigation system. He said that they were being held up by a broken down backhoe. He said they were attempting to fix it and have just gotten the right parts. He also said that he was waiting for a contractor to do some other work and that they were backed up with work also. I told him that he needed to get it done as soon as possible. He assured me that he was working on getting to it.

I called Mr. OGrady to inform him of Mr. Colgan's intentions. I told him that Mr. Colgan had mechanical problems with his backhoe and that the contractors were behind schedule. We discussed alternatives for removal in the event that the ground was too frozen to dig with a backhoe. He suggested that Mr. Colgan could have someone blast it out with dynamite. Mr. O'Grady's major concern was that he wouldn't get the spring runoff which was essential for production. I told him that I would talk to my supervisor to determine what steps we could take to ensure removal of the dike.

RE: 542-1, 543-1, 1053-1 and 1060-1

Dear Ms. Sundstrom:

I am contacting you in regard to water rights held by Mattie Newcombe. The annual irrigation questionnaires will be mailed out next week and I wanted to touch base with you to find out if the above listed water rights should be transferred to your name or if the land has possibly sold.

Water Right No. 1053-1 and Water Permit No. 1060-1 are for irrigation from the Cheyenne River. Both of these require submission of an annual irrigation questionnaire. Our records show the irrigation systems described in Vested Water Right Nos. 542-1 and 543-1 are spreader type systems and no irrigation questionnaires are required. No. 542-1 is for irrigation from Pine Creek and No. 543-1 is for irrigation from Tee Pee Creek.

I have enclosed copies of all of them for your review. Please get in touch with us regarding ownership and whether or not changes need to be made to them.

Thank you in advance for helping to update the water rights.

RE: Water Permit/Right Nos. 542-1, 543-1, 1053-1, 1060-1
Cabbage Patch River Ranch LLLP

Dear Mr. Nooney:

I am writing to acknowledge receipt of the ownership changes filed for Water Permit/Right Nos. 542-1, 543-1, 1053-1 and 1060-1. The transfers have been completed. The permits/rights once held by Mattie or Maynard Newcombe are now listed in the name of Cabbage Patch River Ranch LLLP. Enclosed are Receipt Nos. 02409, 02410, 02411 and 02412 in the amounts of \$2.50 each which were paid to cover the filing fees.

Also enclosed are sample copies of the annual irrigation questionnaire. Both Water Right No. 1053-1 and Water Permit No. 1060-1 are for systems utilizing water from the Cheyenne River. Water Management Board Rules require submission of the annual questionnaire for both Nos. 1053-1 and 1060-1. The sample forms will give you an idea of what type of information will need to be kept track of during the irrigation season. The actual forms that will need to be returned will be sent out in October, 2006.

For information purposes for Cabbage Patch River Ranch, South Dakota Water Law states water must be placed to beneficial use for the purpose it was appropriated at least once every three years in order to maintain a water right. The three year period may be waived if legal excuse exists for the period of non-use. Enclosed are excerpts dealing with these issues.

If I can answer any questions concerning the transfers or any of the enclosed materials, please contact me.

RE: Water Right Nos. 542-1, 543-1, 1921-1 and 1922-1

Dear Mr. Feist:

I am writing to acknowledge receipt of the transfer forms and filing fees submitted on your behalf by Gunderson, Palmer, Nelson & Ashmore Law Firm in Rapid City.

The ownership changes have been completed. Water Right Nos. 542-1, 543-1, 1921-1 & 1922-1 formerly held by Cabbage Patch River Ranch LLLP are now listed in your name.

For informational purposes, each October our program mails out irrigation questionnaires to water right holders in South Dakota who utilize pumping systems. The forms are typically due back in our office by the first week in December. I have enclosed a copy of last years' forms for your review and to give you an idea of what type of information is required. The actual forms you will need to complete and return will be mailed to you in October.

If you have any questions concerning the water rights, please give me a call.

Sincerely,

Genny McMath
