CATRON LAND CO

Dear Sir :

I am writing to follow up on Montana Water Permit Application No. 76844-S39F, Charles Oleson, for irrigation from the Little Missouri River, in Montana. During the April 16, 1991 informal hearing in Camp Crook by the Montana Department of Natural Resources and Conservation, Mr. Oleson agreed to a minimum flow bypass to protect of downstream water right holders, including those in South Dakota. Mr. Oleson agreed to condition his permit so that he can only pump when at least 30 cubic feet of water per second (cfs) is flowing at the U.S. Geological Survey (USGS) gaging station at Camp Crook. We have checked with USGS concerning the April 10 flow that was discussed April 16. The USGS inspected the gage April 11 and the April 10 flow was actually 11 cfs. On April 25, 1991, the flow at the Camp Crook gage was 7.5 cfs.

I have enclosed a list of South Dakota Water Rights on the Little Missouri River. The list includes priority dates. If at any time you wish to know the flow at the Camp Crook gage or have any questions, contact either Del Brosz or Mark Rath, Water Rights Division, telephone number (605) 773-3352.

Very truly yours,

JOHN HATCH, Chief Engineer

Mike Thiel with Catron Land Co. called regarding their water rights (Nos. 1314-1, 268-1 and 945-1)

Mr. Thiel appears to be their contact person and indicated the correct address is PO Box 35 (not PO Box 55) in Camp Crook. **Genny, please make appropriate change on the database.**

We discussed their three water rights and I informed him of the statutes regarding forfeiture for nonuse, etc.

Water Right No. 1314-1 is for a water spreading system from a large dam. There is no pump used to make this water right function. The dam is low due to climatic conditions with the water level below the headgate elevation to divert water. The smaller dam is below the large dam and only gets flow if the larger dam spills.

Water Right No. 945-1 appropriates water from the Little Missouri. This land is in CRP and won't come out of the program until 2008.

Water Right No. 268-1 also appropriates water from the Little Missouri and also has a dry draw diversion. This land is not in CRP as reflected on our database. You will want to change accordingly. Mr. Thiel stated that the dry draw has not flowed for many years. He also indicated the flow in the Little Missouri has been extremely low and probably too low to irrigate in the past three years. I told him that he would begin getting an irrigation questionnaire this fall to report water use. **Genny, you will want to change the database accordingly.**

He said there a number of people in the area that irrigate once each year to ensure they protect their water rights.

I sent him a copy of an example irrigation questionnaire, statutes regarding forfeiture for nonuse, and the website for the USGS gaging station on the Little Missouri River at Camp Crook.

RE: status of CRP for 945-1

COMMENTS:

Land described in Water Right No. 945-1 was in CRP through 2008. I called Mr. Thiel to find out if the land was re-enrolled for another 10 years or if it was eligible for irrigation this year.

Mr. Thiel indicated the land is out of CRP and may or may not be irrigated this year. They had spring flooding which washed out the dams and he didn't think they could get them repaired in time to irrigate in 2009. He felt they may be able to get help to make repairs and irrigate in the future. I discussed with him that he would actually have three years in which to get things repaired and begin irrigating before he risks losing the water right due to abandonment and/or forfeiture.

He will begin getting an irrigation questionnaire for this property starting this year.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Ms. Hart:

I am writing to acknowledge receipt of the transfer forms and filing fees submitted for changing ownership on Water Right Nos. 268-1, 945-1 and 1314-1.

The ownership changes have been completed. The water rights formerly held by Catron Land Company are now listed as follows:

- Bonnie L Hart (60.73% undivided interest)
- Michael D Kieffe & Jean S Kieffe (6.89% undivided interest)
- Mike Kieffe & Bonnie L Hart (10.66% undivided interest)
- Stacy M Kieffe (11.79% undivided interest)
- Michael Kieffe (3.2% undivided interest)
- Zackery Kieffe (6.73% undivided interest)

*** For purposes of our database, the water rights are listed in care of you since you hold the largest percentage amount.**

For informational purposes, each year in October we mail out irrigation questionnaires for reporting annual water use. You will receive a questionnaire for both Water Right Nos. 268-1 and 945-1. A questionnaire is not required for No. 1314-1 since we show the system type to be strictly water spreading in nature. During the irrigation season, please keep track of how much water was applied on the land. I am including a copy of a questionnaire so you will have an idea of what it looks like and what will be needed. The forms will go out in October and are due back by December 1st.

Receipt Nos. 09124, 09125 and 09126 in the amounts of \$50 each are being forwarded by copy of this cover letter to Black Hills Title Inc. in Spearfish SD. If you have any questions, please contact me at 605 773-3352.

Sincerely,

NOTICE

TO: BONNIE L HART ETAL, PO BOX 117, CAMP CROOK, SD 57724 0117

FROM: Ron Duvall, Natural Resources Engineer
for Jeanne Goodman, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2019 Irrigation Questionnaire(s)

Our records indicate your 2019 Irrigation Questionnaire has not been submitted for Permit No(s) 268-1 & 945-1 as required by administrative rule 74:02:01:14.02. The request for the Questionnaire was dated October 18, 2019. The Water Management Board has directed that owners of water permits who have not submitted the 2019 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning this issue.

The hearing will be held at **Wednesday, February 26, 2020 at 8:30 am (Central Time)** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 268-1 & 945-1 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is (are) received in this office before the **February 26, 2020** hearing you will no longer be in violation of your permit and your name will be removed from the Board agenda. Enclosed are additional questionnaire(s) for your use. If you have questions or need assistance, please contact Genny McMath at (605) 773-3352 or email at genny.mcmath@state.sd.us. **If you prefer, you can complete the questionnaire online at the following link: <https://denr.sd.gov/iq> using this password: WBROVX**

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.
