Dear Mr. Vanderway:

The letter regarding irrigation permits in Todd County, signed by you and others, was presented to the Water Resources Commission on November 4, 1970.

Water applications are considered on an individual basis. The items listed in your letter are considered when they are factors.

As the need develops, the policy of the Water Resources Commission is to add additional wells to its observation well system.

Where unappropriated water is available for use, South Dakota law specifies that applications for use of such water shall be approved.

Enclosed for your information are two copies of information sheets which are sent to many people inquiring about irrigation responsibilities.

Sincerely,

We the undersigned,
ranchers, farmers, owners of
sub-irrigated land in the county
of Todd: State of S. Dak.
pertaining to the use of
underground water in Todd
Co. by planning for the
purpose of irrigation of crops,
we feel the following points
should be brought out.

1. That the water commission
does not have sufficient
monitoring stations in Todd Co.
only one of which is inside
the boundary of Todd Co.
2. That our sub-irrigated
land should be guaranteed
against Ecological change
and also our domestic wells
should never sustain a drop
from irrigation by well.
3. Why have natural lakes

II

whether the boundary of Todd
(White Lake) gone completely
dry, and antelope creek at
mission has almost ceased
to be a ~~water~~ running stream

4. We feel the commission
(water) is not justified
in granting more pumping in
Todd Co until a better
monitoring system is set up
possibly using stock wells as
monitors.

5. That fossil water if
not self replenishing should
not be exploited at the expense
of future generations.

Dear Mr. Garvin:

I am contacting you in regard to the 2004 irrigation questionnaires for Ron McCoy. It is our understanding that you rent the land from Mr. McCoy.

As requested, I am forwarding a new set of questionnaires to you for completion. The legal descriptions that pertain to each water right are listed on the lower portion of each questionnaire.

The forms were due December 3, 2004. Sometime in the next two weeks, we will be mailing out notices to irrigators who have not returned their questionnaires. The notices let irrigators know that a hearing date has been scheduled in front of the Water Management Board for them to take action to amend or suspend water rights due to non-submission of the annual questionnaires.

To avoid having the Board take action, please complete and return the forms to us as soon as possible. I have enclosed a postage paid envelope for your reply. If you need help in filling out the questionnaires, please give me a call.

Dear Mr. Garvin:

Enclosed is a "Notice" dated October 21, 2022 concerning the 2022 irrigation questionnaires.

The notice was originally mailed to Crookston NE. The post office notified us that your address has changed, and I will update our records accordingly.

On the forms pertaining to land you operated, I wrote the owner of record we have on file in the upper left hand corner. Ownership may have changed and if that's the case, please make notations on who I should reach out to for transfers. If you have any questions, please contact me.

Sincerely,

Genny McMath
