Dear Mr. Vanderway:

The letter regarding irrigation permits in Todd County, signed by you and others, was presented to the Water Resources Commission on November 4, 1970.

Water applications are considered on an individual basis. The items listed in your letter are considered when they are factors.

As the need develops, the policy of the Water Resources Commission is to add additional wells to its observation well system.

Where unappropriated water is available for use, South Dakota law specifies that applications for use of such water shall be approved.

Enclosed for your information are two copies of information sheets which are sent to many people inquiring about irrigation responsibilities.

Sincerely,

J. W. Grimes

We the undersigned,
ranchers, farmers, owners of
submerged land in the county
of Todd: State of S. Dak.
pertaining to the use of
underground water in Todd
Co. for irrigation for the
purpose of irrigation of cropland
we feel the following points
should be brought out.

1. That the water commission
does not have sufficient
monitoring system in B. well
only one of which is inside
the boundary of Todd Co.
2. That our submerged
land should be guaranteed
against Ecological change
and also our domestic wells
should never sustain damage
from irrigation by well.
3. Todd has a natural lake

II

whether the boundary of Todd
(White Lake) gone completely
dry, and antelope creek at
mission has almost ceased
to be a ~~water~~ running stream.

4. We feel the commission
(Water) is not justified
in granting more pumping in
Todd Co. until a better
monitoring system is set up
possibly using stock wells as
monitors.

5. That fossil water if
not self replenishing should
not be exploited at the expense
of future generations.

RE: Water Right Nos. 1036-2 and 1039-2

Dear Mr. Garvin:

I am contacting you in regard to the 2004 irrigation questionnaires for Ron McCoy. It is our understanding that you rent the land from Mr. McCoy.

As requested, I am forwarding a new set of questionnaires to you for completion. The legal descriptions that pertain to each water right are listed on the lower portion of each questionnaire.

The forms were due December 3, 2004. Sometime in the next two weeks, we will be mailing out notices to irrigators who have not returned their questionnaires. The notices let irrigators know that a hearing date has been scheduled in front of the Water Management Board for them to take action to amend or suspend water rights due to non-submission of the annual questionnaires.

To avoid having the Board take action, please complete and return the forms to us as soon as possible. I have enclosed a postage paid envelope for your reply. If you need help in filling out the questionnaires, please give me a call.

Sincerely,
