WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 1226-2JOHN J. URBAN

(Applicant)

R.R. #2, PRESHO

(Post Office Address)

SOUTH DAKOTA 57568

(State)

With the following modifications:

Date of first receipt of application DECEMBER 5, 19 74Date of return to applicant for correction, amendments or changes required —, 19 —Date of receipt of corrected application —, 19 —Approved JANUARY 22, 19 75, Recorded in Book 13 Page 140WATER RIGHT PERMIT NO. 1226-2

The Water Rights Commission hereby grants and issues this Water Right Permit No. 1226-2 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is DECEMBER 5, 19 74
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before JULY 22, 19 77
3. The whole of said work is to be completed on or before JANUARY 22, 19 80
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is JANUARY 22, 19 84
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 6.21 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is

actually and beneficially applied for irrigation on or before JANUARY 22, 19 84; said water to be used during the following described annual period: APRIL 1 TO SEPTEMBER 30

Witness my hand this 24TH day of JANUARY, 19 75

DEPT. OF MINERAL
RESOURCE DEVELOPMENT

United States Department of the Interior
OFFICE OF THE SOLICITOR

ROOM 211 - FEDERAL BUILDING
P.O. BOX 549
ABERDEEN, SOUTH DAKOTA 57401

JAN 2 1975

Mr. Burton F. Jones
Water Rights Specialist
Water Rights Commission
Pierre, South Dakota 57501

Dear Mr. Jones:

The Area Director, Bureau of Indian Affairs, has advised that on January 22, 1975, at 2:30 p.m., a hearing will be held in the office of the Water Resources Commission at Pierre, South Dakota, upon the application of John J. Urban of Presho, South Dakota, for a permit to appropriate for beneficial use 6.21 cubic feet of water per second of time from the Missouri River, the point of diversion being the NE¹/₄ Sec. 31, T. 108 N., R. 74 W., Lyman County, South Dakota, for the purpose of irrigation.

This letter will serve as our written objection to such application for a permit to appropriate water from the Missouri River within the boundaries of the Lower Brule Indian Reservation. The issuance of such permit would be contrary to established law, which declares that the State lacks jurisdiction with respect to the adjudication of the waters of, or the lands within, the exterior boundaries of an Indian reservation. See Winters v. United States, 207 U.S. 564, 28 S.Ct. 207; United States v. Powers, 94 F.2d 783; United States v. McIntire, 101 F.2d 650; and United States v. Alexander, 131 F.2d 359.

In filing this objection to the issuance of such proposed permit and in writing this letter to you, we do not waive our right to challenge the State's jurisdiction by legal action or otherwise, and merely intend to call the State's attention to the fact that the State lacks jurisdiction in this matter.

Very truly yours,

Pierre, South Dakota 57501-3181

February 17, 1989

John J. Urban
Rt 2, Box 11
Presho, SD 57568

Dear Mr. Urban:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bower, Water Rights Engineer (605-773-3352).

(Signed)

Subscribed and sworn to before me this 23rd day of February, 19 93.

Heidi C. Sundell
(Notary Public)

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:
1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

NOTICE

RE: Violation of Requirement to Submit 1993 Irrigation Questionnaire

Our records indicate that the 1993 Irrigation Questionnaire has not been submitted for Permit No(s) 1226-2. The request for the Questionnaire was dated October 18, 1993. The Water Management Board has directed that owners of water permits who have not submitted the 1993 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning the violation.

The hearing will be held at 8:45 am, April 6, 1994, at the Golden Hills Resort, 900 Miners Ave, Lead, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to SDCL 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 1226-2 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before April 1, 1994, your name will be deleted from the Board agenda.

Very truly yours,

Ron Duvall, Natural Resources Engineer IV

Attention: Brian

Dear Sir:

Thank you for contacting our office concerning the Lower Brule Farm Corporation. Please disregard the February 16, 1994 **Notice of Violation of the Requirement to Submit the 1993 Irrigation Questionnaire.**

You indicated during our telephone conversation that the Lower Brule Farm Corporation was tribal owned and operated. You were correct in stating that under these circumstances, the corporation would not be required to submit a yearly irrigation questionnaire.

The permit for Lower Brule Farm Corporation has been taken off of the list of permit holders required to report each year. Future irrigation questionnaires will not be mailed. Thank you for bringing this matter to our attention. If you have any questions, please contact me.

Sincerely,

Genny McMath
