WATER RIGHT PERMIT NO. 1245-2

The Water Rights Commission hereby grants and issues this Water Right Permit No. 1245-2 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is MARCH 5 19 75
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before NOVEMBER 22 19 77
3. The whole of said work is to be completed on or before MAY 22 19 80
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MAY 22 19 84
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 2.28 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MAY 22 19 84; said water to be used during the following described annual period: APRIL THEN OCTOBER

Dear Dwight & Lyla:

Your WI-1 form has been received in connection with your application for irrigation in Sec 9 T96 R78. Also, the water analysis has been completed. The original copy of the report of this analysis is enclosed for your use and keeping. Also enclosed in extension circular 654 with the approximate quality of your water for irrigation purposes designated by an encircled red cross on the outside back cover.

This water is quite good for irrigation purposes and should cause no trouble with the soils that you intend to irrigate. I therefore am recommending to the State Conservation Commission by a copy of this letter that your water use permit be granted. I am also sending the WI-1 form and a copy of the water analysis to the State Conservation Commission.

With best wishes.

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 1245-2.

Water Right Permit No. 1245-2 states that the diversion system is to be constructed by April, 1980 and that the water is to be put to beneficial use by April, 1984.

The diversion system was completed on June 15, 1975. Applying the water to beneficial use was completed on Oct. 22, 1975.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

Dear Mr. Day:

This letter will confirm our telephone conversation in which you were informed the Water Rights Commission voted not to reconsider Application No. 1256-2 of the Tripp County Water Users District.

Per your request, we are enclosing copies of the minutes of the May 21-22 Commission Minutes, and also those for July 24-25. Also included are copies of the Staff reports presented at each of the hearings.

You requested the names of the people and Permit numbers of the irrigation permits in Tripp County granted by the Commission on May 21, 1975.

Permit No. 1245-2 was granted to Dwight and Lyle Anderson, Clearfield, calling for a diversion rate of 2.28 C.F.S. from two 180 foot deep wells, for irrigating up to 160 acres in portions of Section 9, T96N, R78W.

Permit No. 1259-2 was granted to William Heese, Millboro, calling for a diversion rate of 4.57 C.F.S. from two 180 foot deep wells, for irrigating up to 320 acres in the N $\frac{1}{2}$, Section 25, T95N, R77W.

Permit No. 1260-2 was granted to Beverly Burnham, Millboro, calling for a diversion rate of 4.57 C.F.S. from three 80 foot deep wells, for irrigating up to 320 acres in the W $\frac{1}{2}$, Section 15, T95N, R77W.

All three permits were approved with this qualification:

The irrigation well approved under this Permit is located near domestic wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in existing domestic wells.

Mr. William F. Day, Jr.

Page 2.

September 12, 1975

Mr. Heese's application also called for the construction of a dam. He proposes to pump into the dam during the non-irrigating season for use during the irrigation season.

The file on the Tripp County Water User District application is quite voluminous, but the data is available to you if you wish further information. Too, the tapes of the hearings are on file in this office, and will be available to you.

Should you desire further information, feel free to contact this office.
