REPORT ON APPLICATION NO. 1298A-2

PRINCE AND SONS, INC.

January 10, 1986

Background

Application No. 1298A-2 is for a permit to change the location of one of the dams approved under Water Permit No. 1298-2. The construction site, according to Water Permit No. 1298-2, was to be in the SW $\frac{1}{4}$ of Section 24, T5N, R27E in Stanley County. The dam was not constructed at this site but instead was constructed in the E $\frac{1}{2}$ of Section 14, T5N, R27E. Water Permit No. 1298-2 indicates the storage is to be 300 acre feet. Water Permit No. 1350-2 added an additional 150 acre feet of storage. The dam is located on the East Fork of Lance Creek.

Discussion and Conclusion

The dam was constructed one mile upstream from the original proposed site. Water Permit Nos. 1298-2 and 1350-2 granted the storage of 450 acre feet of water to Prince and Sons, Inc. on Lance Creek. This application to correct the location of the dam should have no adverse impacts on any other water users since the water has been stored and used for more than five years with no downstream problems.
