WATER RIGHT PERMIT No. 1500-2

The Water Rights Commission hereby grants and issues this Water Right Permit No. 1500-2 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is OCTOBER 25 19 76
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before JULY 26 19 79
3. The whole of said work is to be completed on or before JANUARY 26 19 82
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is JANUARY 26 19 84
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 2.0 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before JANUARY 26 19 84; said water to be used during the following described annual period: APRIL THEN OCTOBER

Dear Mr. Jazquot:

Your water sample (Lab. No. 76-1911) has been analyzed and the results are reported on the accompanying sheet, which is your copy to keep.

I am also enclosing a copy of AES pamphlet #13 for your use. The quality of your water for irrigation use is plotted approximately by means of the red cross in the chart on the outside back cover.

Your water, as indicated by this analysis, is satisfactory for use on the soils you indicate will be irrigated. If a salt problem or a water table problem should develop, contact extension personnel for assistance.

The WI-1, soils information, and a copy of the water analysis are being forwarded to the State Conservation Commission for their action.

Sincerely yours,

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 1500-2.

Water Right Permit No. 1500-2 states that the diversion system is to be constructed by July 26, 1977 and that the water is to be put to beneficial use by January 26, 1984.

The diversion system was completed on Aug 10, 1977.
Applying the water to beneficial use was completed on Aug 10, 1977.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

**NOTICE TO SUBMIT THE 1998 IRRIGATION QUESTIONNAIRE
AND CHEMIGATION REPORTING FORM**

Please complete the enclosed 1998 Irrigation Questionnaire(s) and return them in the postage paid envelope by **December 1, 1998**. Chemigation reporting form(s) are also enclosed for irrigators who have reported in previous years applying chemicals through their irrigation system. However, if you apply chemicals through your irrigation system, but did not receive a report form, please indicate so on the water use questionnaire and a report form will be forwarded to you.

Submission of the Irrigation Questionnaire(s) and Chemigation Reporting form(s) is required whether or not you irrigated this year. Some of the items to be aware of when completing the enclosed form(s) are:

1. Make necessary changes to the address label. Please include a phone number where you can be reached during the day. This will assist us in contacting you if we have questions.
2. If you have multiple permits and do not know the specific legal descriptions which pertain to each permit, please contact us. It is acceptable to put the information for all permits on one form, however, ALL forms need to be returned.
3. **A WATER RIGHT OR PERMIT IS SUBJECT TO SUSPENSION OR CANCELLATION IF THE IRRIGATION QUESTIONNAIRE(S) AND/OR CHEMIGATION REPORTING FORM(S) ARE NOT RETURNED.**

If you have questions or need assistance with completion of the irrigation questionnaire or chemigation reporting form, please contact Genny McMath, at (605) 773-3352. For those with internet access, you can send the information to her or ask questions by emailing gennym@denr.state.sd.us. The questionnaire can also be downloaded for use. The form can be found by going to the Department website: <http://www.state.sd.us/denr> and selecting "Water Rights" and then "Download forms." You will find directions from there on how to download the forms.

RE: ownership of Nos. 1500-2, 1591-2 and 1782-2

COMMENTS:

I called and spoke with Tony O'Neill about ownership of Tom Jacquot's land. He said they purchased all of his land.

They have pivots running on the land in the SE 1/4 Section 32 (1500-2) and the NW 1/4 Section 32 (1591-2). The land in the SW 1/4 Section 29 (1782-2) is not currently being irrigated. They just removed the land from CRP.

I told him he would effectively have 3 years from the date it was removed from CRP to start irrigating again. He didn't know if they would be able to get a pivot set back up in three years due to poor economical conditions. He asked if we could grant him an extension, three years if he wasn't able to start irrigating. I told him that would be an issue to come before the Board with. I explained legal excuse to him and told him that the Board has not considered poor economical conditions as legal excuse in the past, however this should not prevent him from bringing the matter to the Board.

For now, he wants all three of the water rights to be transferred to them and he will decide what to do with No. 1782-2 at a later date.

He indicated that the 1998 irrigation questionnaire information was included on No. 1211-2 (already listed in his name).

RECOMMENDED ACTION:

Transfer all water rights and put No. 1782-2 on the list of water rights to be reviewed in 2-3 years to find out if Mr. O'Neill intends to start irrigating.

Dear Mr. O'Neill:

Thank you for taking the time to visit with me last week about Water Right Nos. 1500-2, 1591-2 and 1782-2 formerly owned by Tom Jacquot. Enclosed are copies of the water rights which you may keep for your records.

Also enclosed, are partially completed "Notice of Transfer of Ownership" forms for use in filing an ownership change with the water rights. Please review the forms for accuracy and complete the portion titled "to be transferred to: (name & address).....". Upon completion, please sign the forms in the presence of a notary and return them to our office with a filing fee of \$2.50 each (total of \$7.50).

Dear Mr. O'Neill:

On January 11, 1999, I wrote to you about transferring Water Right Nos. 1500-2, 1591-2 and 1782-2. Last time we spoke, you indicated you purchased all of Mr. Jacquot's land and would like to have the water rights transferred to your name.

Although I have not heard from you, I assume you still wish to have the water rights transferred. In the event you have mislaid the original transfer forms, I am enclosing another set of partially completed forms.

Please review the forms and complete as needed. Upon completion, please sign the forms in the presence of a notary public and return them to our office with a required filing fee of \$2.50 each (total of \$7.50).

It is very important to keep ownership records current. If you need assistance with completion of the forms or if you have questions concerning the water rights, please get in touch with me.

Sincerely,

Mr. O'Neill submitted transfer forms to change ownership from Tom Jacquot to O'Neill Farms Inc. I called him to let him know that the water rights were already in O'Neill Cattle Company, Inc. He had submitted the transfers back in July, 1999.

He requested that we go ahead and use the forms to transfer the water rights into O'Neill Farms Inc." rather than leave them in the "Cattle Company" name.

Approval of Additional Diversion Point**NAME:** O'Neill Farms, Inc. – c/o Tony O'Neill**ADDRESS:** HC 77, Box 33A, Cody NE 69211**DATE:** April 27, 2009 **COUNTY:** Bennett **TELEPHONE:** ph 685-1061 cell 685-4364

O'Neill Farms Inc. has made a request to authorize an additional well for the irrigation of land authorized by Water Right No. 1500-2 and 1591-2. Water Rights records indicate that irrigation has been taking place on these acres.

Water Right No. 1500-2 appropriates 1.8 cubic feet of water per second (cfs) from one well located near the center of the SE ¼ of Section 32 for irrigation of 132 acres in the SE ¼ Section 32; all in T37N, R33W. Water Right No. 1591-2 appropriates 1.56 cubic feet of water per second from one well located in the NE ¼ NW ¼ of Section 32 for irrigation of 132 acres in the NW ¼ Section 32; all in T37N, R33W.

Right Nos. 1500-2 and 1591-2, combined, appropriate 3.36 cfs from the Ogallala Formation for irrigation of 264 acres. From personal communication with Tony O'Neill, O'Neill Farms intends to use a new well located in the NE ¼ NW ¼ Section 29, T37N, R33W as the primary source for operating the pivots while the existing wells will be used as helper wells. The total diversion of water will not exceed the 3.36 cfs that is authorized by these water rights.

There is also Water Permit No. 2521-2 which appropriated 3.56 cfs from two wells located in the NE ¼ NW ¼ Section 29, T37N, R33W for irrigation of the SW ¼ Section 29 and to provide supplemental water to the existing center pivot authorized by Water Right No. 1591-2 located in the NW ¼ Section 32. The time to complete construction of Permit No. 2521-2 is June 7, 2009. From personal communication with Mr. O'Neill, one of these wells is completed and connected for operation of the two center pivots. He indicated this new additional well request is for a well located approximately 1,320 feet east of this completed well. This would equate very closely to where the second well that was intended under No. 2521-2. However, this request is still necessary because it is an additional well to supply water to the center pivot in the SE ¼ Section 32.

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

The water source remains the Ogallala Aquifer. No additional water is to be appropriated by this request. This well is already authorized and the diversion authority appropriated by Permit No. 2521-2 to supply irrigation water to the SW ¼ Section 29 and supplemental water to the NW ¼ Section 32.

- **If irrigation, no new land is irrigated**

No additional land is to be irrigated above the 264 acres authorized by Water Right Nos. 1500-2 and 1591-2. This request is to authorize one additional well for the existing appropriation of water and irrigation of the acreage covered by these water right.

- **Review of Existing Diversions**

A review of existing diversions in neighboring sections was conducted. This is an area of considerable irrigation development to the north and northwest. The existing water rights in neighboring sections are shown on Table 1.

TABLE 1

Permit No.	Holder	Source	Well Location	Approx. Distance to additional well
2521-2	O'Neill Farms	Ogallala	NE NW Sec. 29 T37N, R33W	¼ mile east *
1002-2 & 1002A-2	Jimmie O'Neill	Ogallala	SW ¼ Section 21, T37N, R33W	1 mile northeast
1208-2	Jimmie O'Neill	Ogallala	SE NW Sec. 10, T37N, R33W	¾ mile south
1001-2	Jimmie O'Neill	Ogallala	300 feet west of center of Section 20, T37N, R33W	½ mile south

- The additional well requested appears to be authorized by No. 2521-2 with a June 7, 2009 completion date for irrigation of the SW ¼ Section 29 and NW ¼ Section 32

The nearest water permits in a name other than the O'Neill family is held by Brad and Marlene Pisha located just over 2 miles to the northwest in the NW ¼ Section 18, T37N, R33W.

The Water Rights Program's database of well completion reports was also reviewed. Driller reports for five domestic wells that are completed into the Ogallala Aquifer were found in neighboring sections. One of the domestic wells was completed for O'Neill Cattle Company. Another domestic well was completed in Section 32 for Tom Jacquot who was the previous landowner and this well is presumably now owned by O'Neill Cattle Company. There are two domestic wells located in the NW ¼ NW ¼ Section 31, T37N, R33W both drilled in 2007 for Hoffmann T Lazy Z Ranch. These wells would approximately 1 ½ miles southwest of this additional well. The other domestic well was drilled in 1996 for Peterson Ranch located in the SE ¼ NE ¼ Section 33, T37N, R33W in Todd County that is approximately 2 miles southeast of this additional well.

The proposed well site was evaluated in the processing of Water Permit No. 2521-2 in 2004. Since that time only two new water permits have been obtained from the Ogallala Aquifer in the immediate area. They are in Section 6 that is 4 miles northwest and in Section 17 that is 1 ½ miles north of the requested additional well location. The report for No. 2521-2 concluded that well interference is not expected to be a problem in the area. This was based largely on two observation wells (BT-76C and BT-80E) located an approximate equal distance north and south of the diversion location. While there are irrigation wells operating with one-half mile of the BT-76C, drawdown is not significant in the observation well.

RECOMMENDED ACTION

Based on the above criteria, it is recommended that the additional diversion point be authorized pursuant to SDCL 46-5-13.1.

Eric Gronlund, Natural Resources Engineer
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This additional diversion point does not increase the potential for adverse effects to existing diversions.

Ton O'Neill
O'Neill Farms, Inc.
HC 77 Box 33A
Cody NE 69211

Dear Mr. O'Neill:

I am writing in regard to O'Neill Farms' request to authorize one additional well for irrigation authorized by Water Right Nos. 1500-2 and 1591-2.

Water Right No. 1500-2 appropriates 1.8 cubic feet of water per second (cfs) from one well located near the center of the SE $\frac{1}{4}$ of Section 32 for irrigation of 132 acres in the SE $\frac{1}{4}$ Section 32; all in T37N, R33W. Water Right No. 1591-2 appropriates 1.56 cubic feet of water per second from one well located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32 for irrigation of 132 acres in the NW $\frac{1}{4}$ Section 32; all in T37N, R33W. The wells are completed into the Ogallala Formation.

When Water Permit No. 2521-2 was obtained in 2004 it appropriated 3.56 cfs from two wells located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 29 for irrigation of the SW $\frac{1}{4}$ Section 29 and to provide supplemental water to the existing center pivot authorized by Water Right No. 1591-2 located in the NW $\frac{1}{4}$ Section 32. The time to complete construction of Permit No. 2521-2 is June 7, 2009. From your phone conversation with Eric Gronlund, it is Water Rights understanding that one of the two wells authorized by No. 2521-2 has been developed. This request is to authorize this second well and add that the well can also serve the pivot in the SE $\frac{1}{4}$ Section 32.

Upon review of the request and pursuant to SDCL 46-5-13.1, an additional well to be completed into the Ogallala Formation is authorized without application or publication of a notice of hearing. The additional well is located in the approximate center of the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29, T37N, R33W.

No additional appropriation above the amounts authorized by Water Right Nos. 1500-2 and 1591-2 is authorized. If the diversion is increased, a new water permit must be obtained.

If you have any questions, please contact Eric Gronlund at (605) 773-3352.

Sincerely,

Garland Erbele, Chief Engineer

Dear Mr. O'Neill:

Last week we sent you a letter regarding your request for an additional well for irrigation authorized by Water Right Nos. 1500-2 & 1591-2. Along with your request, you submitted a check for \$100.00. Since your request for an additional well did not authorize any additional water and wasn't considered a new application, the filing fee is not required. Therefore, the \$100.00 fee will be refunded to you. The refund check should be received within the next couple of weeks.

If you have any questions, please contact me.

NOTICE

TO: TONY O'NEILL, HC 77 BOX 33A, CODY, NE 69211
FROM: Ron Duvall, Natural Resources Engineer
for Garland Erbele, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2009 Irrigation Questionnaires

Our records indicate that the 2009 Irrigation Questionnaires have not been submitted. The request for the Questionnaires was dated October 16, 2009. The Water Management Board has directed that owners of water permits who have not submitted the 2009 Irrigation Questionnaires be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine if Permit No(s) 1500-2 & 1591-2 should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 1211-2, 1637-2 & 2521-2 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at **10:00 am, March 10, 2010** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 1211-2, 1637-2 & 2521-2 in accordance with applicable provisions of SDCL 46-1-12;
2. Amend Permit No(s) 1500-2 & 1591-2 to require the Irrigation Water Use Questionnaire to be submitted each year;
3. Postpone any action or take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is (are) received in this office on/or before **March 5, 2010**, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. Enclosed are additional questionnaire(s) for your use. If you have questions or need assistance, please contact Genny McMath at (605) 773-3352 or email at genny.mcmath@state.sd.us. If you prefer, you can complete the questionnaire online at the following link:

RE: Water Permit or Right Nos. 1500-2, 1591-2, 2521-2 and 2664-2

Dear Mr. O'Neill:

I am writing in follow-up to our phone conversation concerning the 2012 irrigation questionnaires for the above listed numbers.

I have enclosed copies of the 2010 and 2011 irrigation questionnaires to give you an idea of what type of information is needed. The legal description pertaining to each one is located towards the lower left of each questionnaire.

Typically these forms come out in October and are due back by the first week in December. I have edited the database to include your name and address for mailing correspondence. As soon as all the legal matters are worked out and the land changes ownership, let me know and I can send transfer forms to you for filing the ownership changes.

If you have any questions concerning any of the enclosed materials, give me a call. I have included a postage paid envelope for your use in returning the yellow irrigation questionnaires. Thank you in advance for your help.

RE: Water Right Nos. 1500-2, 1591-2 and Water Permit 2521-2

Dear Mr. O'Neill:

I am writing in follow-up to our phone conversation concerning additional land you are irrigating.

It is my understanding from our conversation and the irrigation questionnaire submitted for Water Right No. 1591-2, the enlarged pivot now covers 188 acres and not 132 as authorized. I printed off a map showing the pivot locations currently authorized and labeled them accordingly. By the map, it appears that the pivot that actually increased in size might be for Water Right No. 1500-2?

I have included copies of Water Right Nos. 1500-2, 1591-2 and Water Permit No. 2521-2 and a map showing the locations for each. No. 2521-2 authorizes the irrigation of the SW $\frac{1}{4}$ Section 29 but also provided supplemental water for the pivot located in the NW $\frac{1}{4}$ Section 32 authorized by No. 1591-2.

Enclosed are blank water permit application forms and an instruction sheet for use in applying for the 56 additional acres for the enlarged pivot. The fee for an application for up to 60 acres would be \$500 plus \$200 licensing for a total of \$700.

Another issue needing attention is permitting for the pivot located in the NW $\frac{1}{4}$ Section 29. In August, 2011, Hayes Haas, a staff engineer with our program conducted a licensing investigation of the project developed under Water Permit No. 2521-2. The investigation found the existence of an additional pivot over and above what was authorized. Partially completed application forms were directed to Tony O'Neill for obtaining a permit. He wrote back and asked to delay the application since the two farms were going to be divided and he felt it was best to wait until that had been done. I am enclosing a copy of the map, application forms and correspondence previously directed to Tony. Since we have a map and the well information, all you would need to do for this one is to complete the application and return it along with the fee of \$850 (see letter from Hayes Haas dated December 7, 2011).

If you have any questions, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Genny McMath".

RE: Well used for these water rights

Water Permit No. 2710-2 authorizes the change in well location for irrigation of lands under Water Right Nos. 1590-2 and 1591-2. The original wells if temporarily abandoned be sealed with a watertight cap or if permanently abandoned plugged in accordance with well construction standards.

When the licensing investigation is conducted, it is likely that Water Right Nos. 1500-2 and 1591-2 may be incorporated into the license for 2710-2.

Dear Mr. O'Neill:

Thank you for the prompt return of your 2013 irrigation questionnaires. It is my understanding from the notations you made on the forms that you are ready to have the water permits or rights transferred to O'Neill Cattle Co Inc.

Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. Upon completion, please sign the forms and return them to our office with a required filing fee of \$50.00 each (total of \$200). The check or money order for the fee can be made payable to the Water Rights Program.

If I can answer any questions for you, please give me a call.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. O'Neill:

Enclosed is Water License No. 2710-2. This is the final water right document completing your process of obtaining a Water Right. Included with your license is a map prepared by the staff engineer who conducted the field investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 2710-2, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
