Feb. 12, 1977

Dear Sirs,

Regards: No. 1514-2

In regards of intent to appropriate water, by Harold Ring whose Post Office is Norris, So. Dak. who makes application for permit, to appropriate for use of 4.0 cubic feet of water per second of time from ground water through the Harold Ring No. 1 and No. 2 the point of diversion of which is to be located in the Center of SE 1/4 of Section 20 and NW 1/4 of Section 29, T 40, R 32, to be used on SE 1/4 Section 20 and NW 1/4 of Section 29 T 40 R 32. This application No. 1514-2 will be considered by Water Rights Commission upon the 23rd day of Feb. at 10:00 A. M.

I, (William Kary) whose address is Norris, So. Dak. wish to be heard as being opposed to application No. 1514-2 for the purpose of use 4.0 cubic feet per second of time of water from ground sources for any use or purpose as being against my best interests in regard to NE 1/4 of Section 29 T 40 R 32.

Objection No. 1. The above use may draw down present water table to the point of making three presently usable wells on NE 1/4 of Section 29, T 40, R 32 worthless thereby creating great hard-ship for home, livestock and wild life.

Objection No. 2. I object to No. 1514-2 unless a study is made of whether this will leave NE 1/4 of Section 29 T 40 R 32 without equal rights in near future for equal amounts of ground water for wells now in use, and an equal amount of ground water for irrigation purposes as feel it is better suited for irrigation than quarters requested for.

Objection No. 3. I feel that run-off from SE 1/4 Section 20 will run-off and settle close to farm building, thereby creating health hazards for both people and livestock and possibly, wildlife, from fertilizer, weed controls, and insect sprays necessary to irrigation and compounded by only a good average rainfall. On present amount of run-off, it is bad enough.

Objection No. 4 is in regards to run-off from NW of Section 29 T 40 R 32, only in greater proportions as it, like SE 1/4 of Section 20 both being higher, rolling and tending to drain excessively onto NE 1/4 of Section 29 T 40 R 32, even during moderate amounts of rainfall.

Objection No. 5. I object as this may further possibly render useless, a good dugout that has watered wild-life in quantity for many years on a near neighbor. No say nothing of his use of it for livestock watering purposes.

Respectfully,

William Kary

Dear Sir,

Can you tell me? How the Water Permits are being used that you issued in our area to the Rings.?

How many wells were permits issued for, on each quarter? Just observing looks to me like perhaps more than one well may be drilled to supply center pivots.

It is my opinion, this may hasten the deterioration of a limited water supply. In an effort to make center pivots operational from a limited quantity of a questionable renewable source?

Also, hear-say has it, that allegedly some foreign substance is being dumped into these wells to open veins of water to further get more water from a probably limited source. Can you tell me if this is so? is permissible? and what chances of contaminating my drinking water supplies are?

Especially, on quarter cornering NE of NE of 1/4 of S 29

Dear Mr. Kary:

In answer to your letter May 18, 1978, regarding Water Right Permits issued to the Rings. The following is a list of permits issued with Permit Number, permit holder, amount of water, number of wells, location and acreage. The use of water stated on the permits is irrigation.

1514-2 Harold Ring - 4.0cfs - two wells, located in the center of SE $\frac{1}{4}$, Section 20-T40-R32W and center of NW $\frac{1}{4}$, Section 29-T40N-R32W to irrigate 280 acres.

1515-2 Jake Ring & Sons - 2.0cfs - one well, located in the center of SW $\frac{1}{4}$, Section 21-T40N-R32W, to irrigate 140 acres.

1572-2 Luella Ring & Sons - 3.4cfs - one well - SE $\frac{1}{4}$, Section 33-T40N-R32W, to irrigate 240 acres.

The above applications were approved with the following qualifications for protection of adequate domestic wells:

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

. William Kary
Ring's Water Permits
Page Two

Regarding a foreign substance being dumped into these wells, there is no substance that will open veins of water to produce more water. Perhaps they may pour in an acid substance to clean the screens in their wells but this will not contaminate the water in the aquifer as this substance is removed when pumping begins.

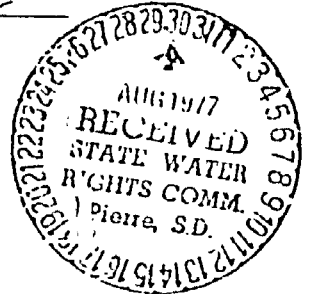

Sincerely,

Betty Westlund

Date August 27, 1977

TO: Water Rights Commission
Joe Foss Building
Pierre, South Dakota 57501

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 1514-2.

Water Right Permit No. 1514-2 states that the diversion system is to be constructed by Feb. 23, 1980 and that the water is to be put to beneficial use by Feb. 23, 1981.

The diversion system was completed on June 25, 1977.
Applying the water to beneficial use was completed on June 25, 1977.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

Dear Mrs. Ring:

I am contacting you in regard to ownership of land described in Water Permit No. 1514-2. Currently, the permit is still listed in the name of Harold Ring. You notified our office in December, 1991 that the permit should be listed in your name.

In order to change the name on the permit, you will need to file a "Notice of Transfer of Ownership". I have enclosed a partially completed transfer form. Please review the form for accuracy and sign it in the presence of a notary public. Upon completion, return the form to our office with a required filing fee of \$2.50.

Once the transfer form and filing fee are received in our office, Water Permit No. 1514-2 will be transferred to your name. If you have any questions, please contact me.

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. Ring:

On September 27, 2001 the investigation of your water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 1514-2, was completed by Mark Rath, a staff engineer with our program. Your final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee from you, we will complete processing your water license. The check or money order for the fee should be made payable to the "Water Rights Program".

Your licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of your water use system or payment of the fee, please contact Genny McMath with our program at (605) 773-3352.

Report Of Examination Of Works

On, September 27, 2001, I made a thorough examination of the water use system constructed by Reuben Ring of HC 75 Box 5, Norris SD 57560 holder of Permit No. 1514-2, bearing the priority of January 5, 1977 authorizing the diversion of 4.0 cu. ft. per second of the waters of ground water (Arikaree) for irrigation purposes, in Mellette County.

The system is in the following condition good. The point of diversion is located #1 from the SE Corner of S20 T40N-R32W; 1320 ft N and 1240 ft W with a longitude of -101.12265 and a latitude of 43.42193 and #2 from the NW Corner of S29 T40N-R32W; 1320 ft S and 1000 ft E with a longitude of -101.13415 and a latitude of 43.41444. The works are capable of diverting and conveying to the place of use 2.67 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

Land located in Sec 20 T40N-R32W:

NW 1/4 SE 1/4 - 33 ac NE 1/4 SE 1/4 - 33 ac SE 1/4 SE 1/4 - 33 ac SW 1/4 SE 1/4 - 33 ac

STATE OF SOUTH DAKOTA
WATER LICENSE NO. 1514-2

(1) Harold Ring, Norris SD made Application No. 1514-2, January 5, 1977 for a water permit to divert 4.0 cubic feet of water per second from groundwater (two wells), Mellette County, South Dakota for irrigation purposes. Permit No. 1514-2, with a priority date of January 5, 1977 was approved February 23, 1977 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before February 23, 1980 and for the application to beneficial use of said water on or before February 23, 1981.

On August 30, 1996, Water Permit No. 1514-2 was transferred to Rueben Ring.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 2.67 cubic feet of water per second for beneficial use. The location of the diversion points are: Well #1 - 1,320 feet north and 1,240 feet west of the southeast corner of Section 20 and Well #2 - 1,320 feet south and 1,000 feet east from the northwest corner of Section 29; both in T40N-R32W.

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 20-T40N-R32W		Section 29-T40N-R32W	
NW ¼ SE ¼	33 acres	NW ¼ NW ¼	33 acres
NE ¼ SE ¼	33 acres	NE ¼ NW ¼	33 acres
SE ¼ SE ¼	33 acres	SE ¼ NW ¼	33 acres
SW ¼ SE ¼	33 acres	SW ¼ NW ¼	33 acres
Total 264 acres			

(4) Pursuant to South Dakota Water Law 46-5-30.1 Rueben Ring, HC 75 Box 5, Norris SD 57560 the holder and/or owner of Water Right No. 1514-2 is issued a license to appropriate water, the right to use 2.67 cubic feet of water per second from groundwater (two wells) with a priority date of January 5, 1977 from the locations specified in (2) of this license. The water to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation. This license is subject to any limitations or qualifications listed in Water Right No. 1514-2 and subject to South Dakota State Law.

Dear Mr. Ring:

The Water Rights Program is in receipt of the 2025 Irrigation Questionnaire you submitted for Water Right No 1514-2, which authorizes the diversion of 2.67 cfs (approx. 1200 gpm) from two wells for the irrigation of 264 acres located in the SE ¼ Section 20 & NW ¼ Section 29; all in T40N-R32W.

On this year's questionnaire you reported that use of irrigation on the property had been abandoned.

COMMENTS:

Janice Ring (Ruebens' wife) called after they received the 2026 Irrigation Questionnaire and stated that they had sold the property to Shane and Lisa Bryan and provided me with Lisa' phone number. I spoke with Lisa and she stated that the 2 wells that are on the property are not usable and that her and Shane agreed that they have no desire to irrigate. They would like to cancel this water right due to abandonment.
