WATER RIGHT PERMIT NO. 1692-2

The Water Rights Commission hereby grants and issues this Water Right Permit No. 1692-2 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

- 1 The date from which applicant may claim right is JANUARY 11 19 80
- 2 The equivalent of at least one-fifth of the work above specified is to be completed on or before JULY 30 19 82
- 3 The whole of said work is to be completed on or before JANUARY 30 19 85
- 4 The limit of time from proof of beneficial use of water appropriated in accordance herewith is JANUARY 30 19 89
- 5 The water appropriated shall be used for the purpose of IRRIGATION
- 6 The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
- 7 The amount of the appropriation herein granted shall not exceed .84 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 2 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before JANUARY 30 19 89; said water to be used during the following described annual period: SPRING & STORM RUNOFFS

G. Water Storage Dams

If the proposed water use system contains one or more water storage dams, please show in the space below, the height, length, maximum water depth, surface area, drainage area, storage capacity, dam slope, dimensions, location and size of outlet works, of each storage dam. The location of each water storage dam should be shown on the water right map.

4. Outlet dimensions:
Pipe diameter _____
Spillway width _____
- X & Y slope:
Upstream _____
Downstream _____
- Surface area of impoundment

- Drainage area above dam

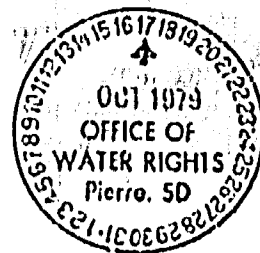

Location: SE 1/4 of section 20, T13 R 8E

There are at least four dams and one spreader ditch above this dam. There may not be enough water to fill the larger dam, so wish to build the smaller one. If there is sufficient water for the larger dam may wish to increase the smaller dam's size. This water will have to be pumped onto a field. Larger dam would flood irrigate if there is enough water to flow out of the spillway.

Location; SW 1/4 of Section 17, 13 R 8E

Present thought is that this water will be taken from a draw and diverted onto a gentle sloping area downstream from dam site. If later it proves unsatisfactory a dam of approximately 10 feet high will be constructed with the spillway emptying out on the same area. Impoundment will be probably less than an acre area.

NOTICE

RE: Violation of Requirement to Submit 1989 Irrigation Questionnaire

Our records indicate that the 1989 Irrigation Questionnaire has not been submitted for Permit No(s). 1692-2. The request for the Questionnaire was dated October 13, 1989. The Water Management Board had directed that owners of water permits who have not submitted 1989 Irrigation Questionnaire be given notice of hearing(s) to be held by the Board to determine if any action is to be taken concerning the violation.

The hearings will be held at 8:30 am, March 7, 1990 at the Howard Johnson's, Jefferson-Roosevelt Room, I-90 at LaCrosse, Rapid City SD.

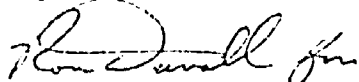

The hearing will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26. Following the hearing(s), the Water Management Board can:

1. Amend Permit No(s). 1692-2 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is received in this office before the March 7th hearing date, your name will be deleted from the agenda for the hearing.

Very truly yours,

JOHN HATCH, Chief Engineer

Dear Mr. McMahon:

Enclosed is Water License No. 1692A-2 and Receipt No. 413366 for \$50.00 which you paid for an inspection and issuance of the license. Water License No. 1692A-2 is the final document which completes the process of obtaining a water right.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

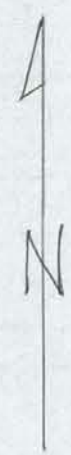

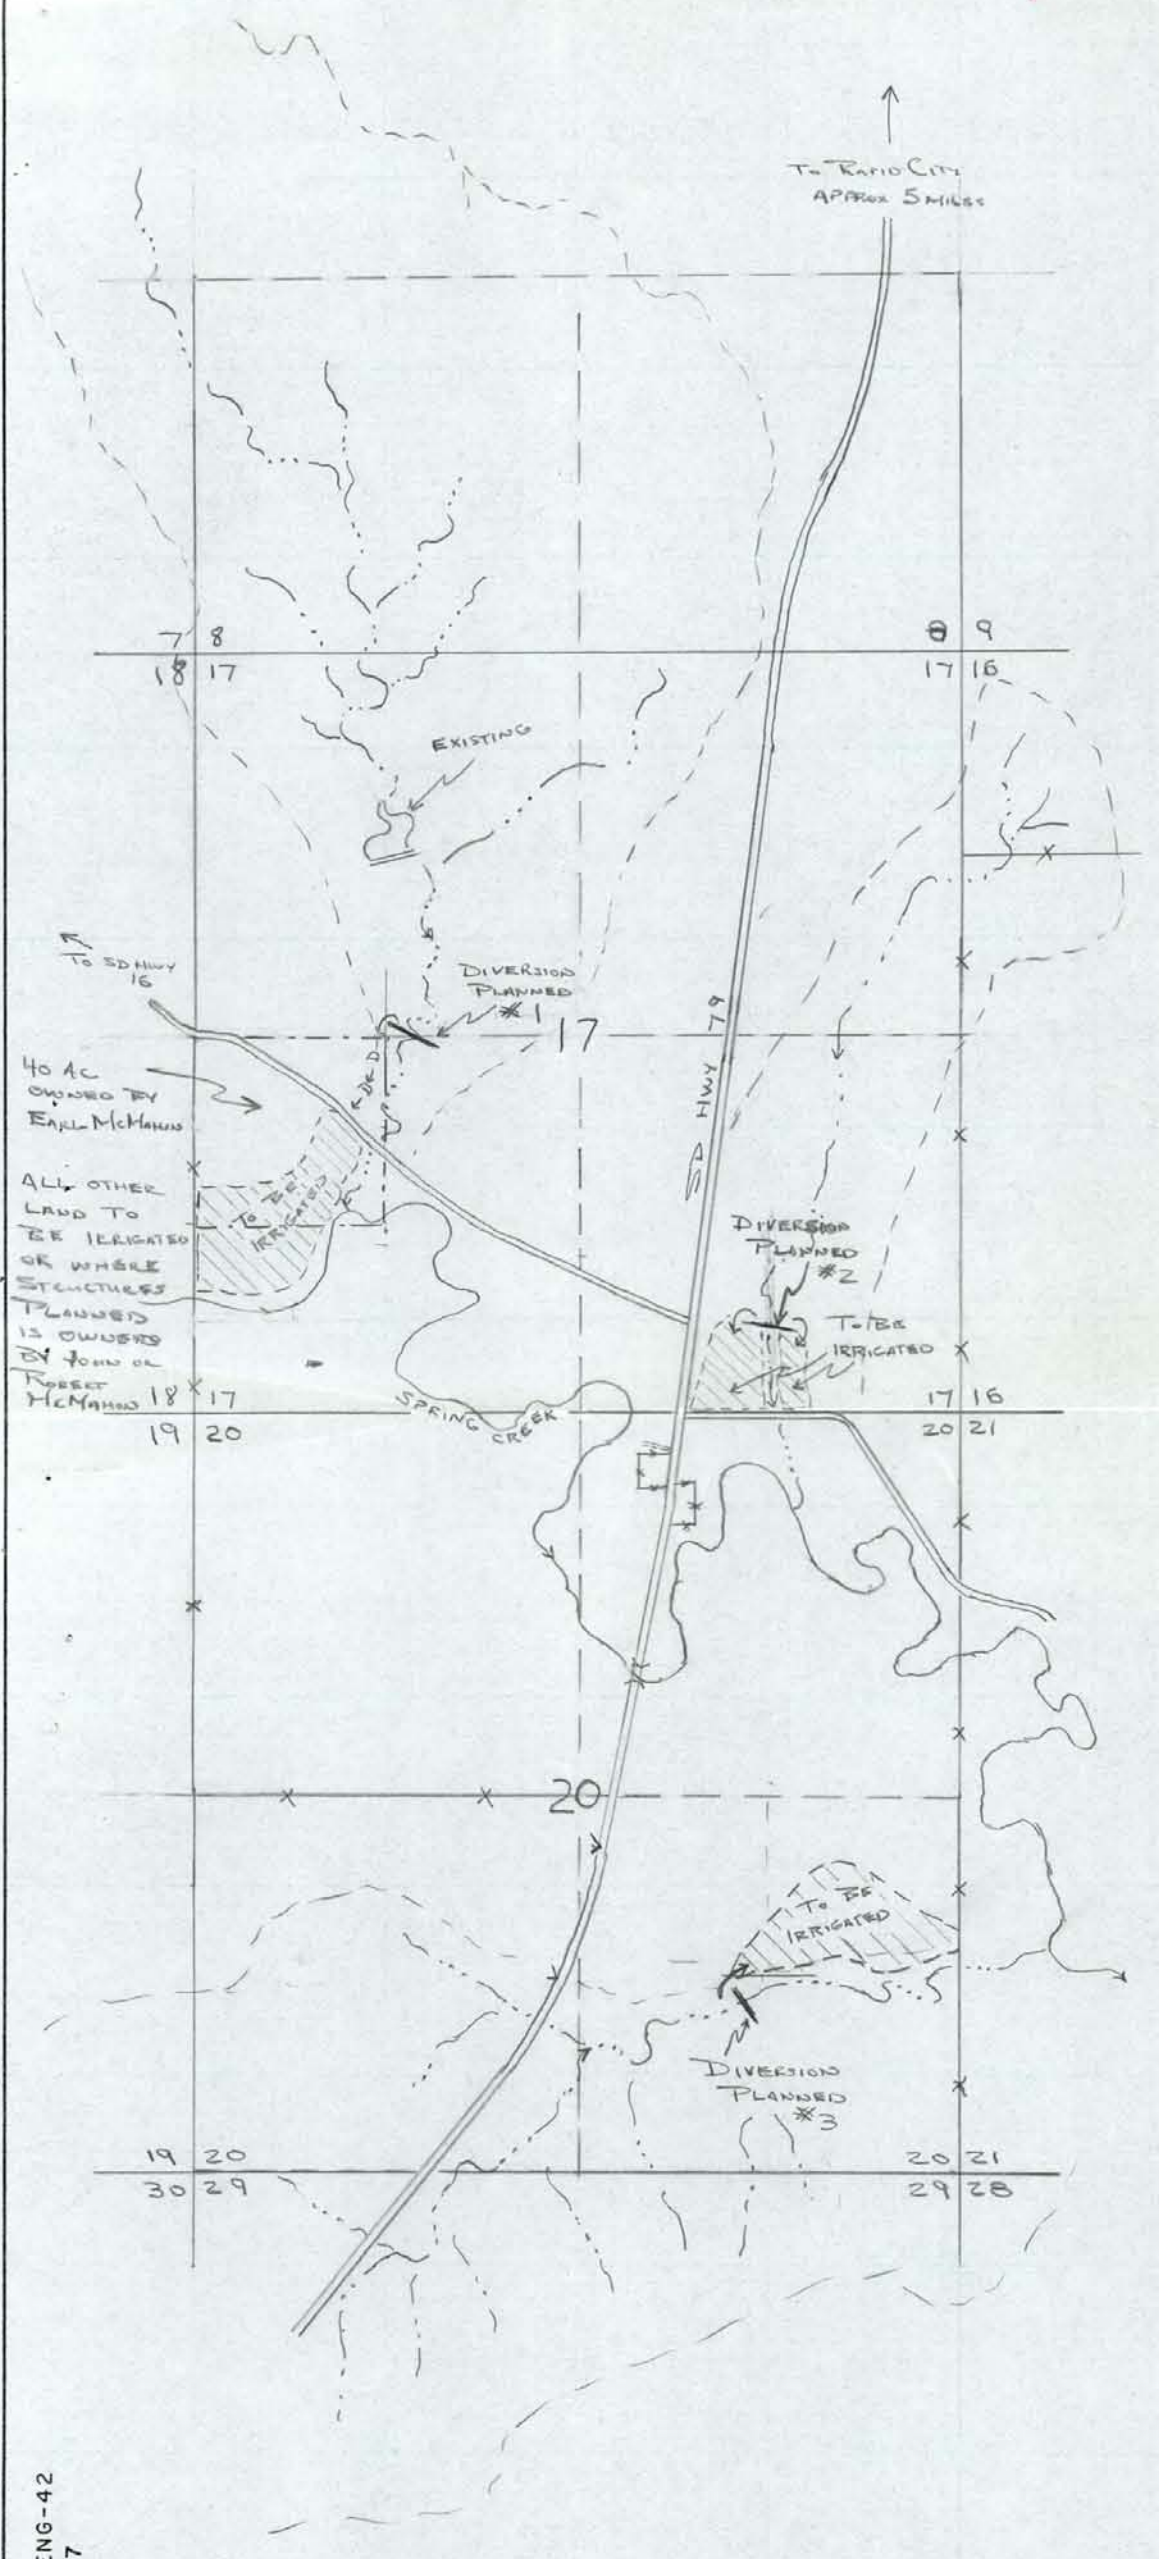

Very truly yours,

John Hatch

I drove by the McMahon property (SE ¼ S20 T1S R8E) on Friday 4/21/17. The dam which was identified in the license as being the water supply for the pumped irrigation system was totally dry and looked like it has not had any appreciable water in recent times. I doubt if John will be doing any more irrigation (93 yrs old) although he may have the place leased. Anyway this drainage gets pretty sparse runoff and any irrigation would be hit and miss since the dam has little storage volume.
