One questionnaire is being provided for each permitted water source. The following information is based on Water Permit/Right No. 1811-2. If you have other permits/rights in the same water source, also include water use under those permits/rights on this questionnaire.

Water Source: GROUNDWATER

County: PENNINGTON

Aquifer: PRECAMBRIAN ROCK

Pumping Pt. Legal: SEC 06-T002S-R06E

Management Unit: NOT APPLICABLE

Type of Water Use: COMMERCIAL

- 1) Please estimate your year 2000 water use from the above water source: 135,000 gallons
2) If no water use in 2000, please list the reason(s) why in the comments section.

Dear Mr. Briesemeister:

Thank you for returning the 2000 SD Water Use Questionnaire. The form indicates a change of ownership has occurred. Enclosed is a partially completed "Notice of Transfer" form for use in filing an ownership change on Water Permit No. 1811-2. The water permit is currently listed in the name of Glenn V Woldt.

The transfer form should be checked over for accuracy and signed by the new owner in the presence of a notary public. Upon completion, return the form to our office with a required filing fee of \$2.50.

South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a water permit or water right to appropriate water to be filed with this office within ninety days.

If you have any questions, please contact me.

Sincerely,

Karen Schlaak

NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. Briesemeister:

On October 10, 2001 the investigation of your water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 1811-2, was completed by Ken Buhler, a staff engineer with our program. The final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee from you, we will complete processing your water license. The check or money order for the fee should be made payable to the "Water Rights Program".

The licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of your water use system or payment of the fee, please contact Genny McMath with our program at (605) 773-3352.

Report Of Examination Of Works

On, **October 10, 2001**, I made a thorough examination of the water use system constructed by Glenn V. Woldt of Keystone, SD holder of Permit No. 1811-2, bearing the priority of April 2, 1982 authorizing the diversion of 0.15 cu. ft. per second of the waters of groundwater for commercial purposes, in Pennington County.

The system is in the following condition good. The points of diversion are located: "**Well #1**": 1550 feet north and 2200 feet west of the SE corner of Sec. 6, T2S-R6E with a longitude of -103.44778 and a latitude of 43.901654; "**Well #2**": 1450 feet north and 1580 feet west of the SE corner of Sec. 6, T2S-R6E with a longitude of -103.44543 and a latitude of 43.9013540; and "**Well #3**": 1300 feet north and 1175 feet west of the SE corner of Sec. 6, T2S-R6E with a longitude of -103.44392 and a latitude of 43.900954. The works are capable of diverting and conveying to the place of use 0.067 cu. ft. per second of water which is to be used for commercial purposes. Water has been put to beneficial use to the maximum extent and the license should be issued for 0.067 cfs.

Review of Permit Qualifications And Regulations:

- 1) Special qualifications to permit being abided by yes
- 2) All structures, wells and lands on map yes
- 3) Irrigation Questionnaires checked to determine if permit owner started irrigation by the end of construction period na
- 4) Exceptions to compliance are: none

RE: Change of Diversion Point for Water Permit No. 1811-2 Breeze, Inc.

An inspection of Permit No. 1811-2 found that a well used to supply this permit is located in a different legal location than that specified in the original advertising. SDCL 46-5-13.1 provides that a point of diversion may be changed or additional points of diversion may be approved without application or publication of a notice of hearing if the new diversion point is from the same source of water, no additional water is appropriated and the chief engineer makes a finding that the change does not increase the potential for interference with existing diversions.

Water Permit No. 1811-2 appropriates 0.15 cubic feet of water per second (cfs) from three wells located in the N $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 6, T2S-R6E. An inspection found that Well #3 is located in the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 6, T2S-R6E. No additional appropriation of water is required for this diversion.

Ken Buhler
Natural Resources Engineering Specialist

The Chief Engineer makes a finding that the additional diversion points do not increase the potential for interference with existing diversions. In making the finding, "does not increase the potential for interference" is interpreted to mean potential for adverse interference.

Bruce Briesemeister
Breeze Inc.
102 Old Hill City Rd.
Keystone, SD 57751

Dear Mr. Briesemeister:

Enclosed is Water License No. 1811-2. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 417037 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 1811-2, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 1811-2

(1) Glenn V Woldt, dba Kemp's Kamp, Keystone SD made Application No. 1811-2, April 2, 1982 for a water permit to divert 0.15 cubic feet of water per second from groundwater (three wells), Pennington County, South Dakota for commercial and domestic purposes. Permit No. 1811-2, with a priority date of April 2, 1982 was approved June 9, 1982 and issued to the applicant for diversion of water with construction of the described water supply system and the application to beneficial use of said water completed.

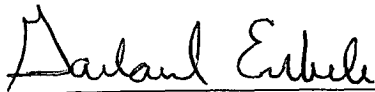

An investigation conducted for licensing purposes found one of the wells under Water Permit No. 1811-2 was not in the location authorized by the permit. Pursuant to SDCL 46-5-13.1, the Chief Engineer makes a finding that the change in location of diversion point does not increase the potential for interference with existing water rights.

On February 9, 2001, Water Permit No. 1811-2 was transferred to Breeze, Inc., dba Kamps Kamp.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.067 cubic feet of water per second for beneficial use. The location of the diversion points are: Well #1 – 1,550 feet north and 2,200 feet west (NW ¼ SE ¼); Well #2 – 1,450 feet north and 1,580 feet west (NW ¼ SE ¼); Well #3 – 1,300 feet north and 1,175 feet west (SE ¼ SE ¼); all from the southeast corner of Section 6-T2S-R6E.

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use.

(4) Pursuant to South Dakota Water Law 46-5-30.1 Breeze, Inc., dba Kamps Kamp, 1022 Old Hill City Rd, Keystone SD 57751 the holder and/or owner of Water Right No. 1811-2 is issued a license to appropriate water, the right to use 0.067 cubic feet of water per second from groundwater (three wells) with a priority date of April 2, 1982 from the locations specified in (2) of this license for commercial and domestic purposes. This license is subject to any limitations or qualifications listed in Water Right No. 1811-2 and subject to South Dakota State Law.
