12. Principal Features of the Proposed Water Supply System.

A. Works proposed to divert water from its natural source.

The East Gregory County Rural Water Ass., Inc.'s water system is now complete. The system will need to construct a raw water transmission line from the proposed well field to their present facilities and construct the necessary wells.

B. Works proposed to transport water to place of use.

Submersible well pumps and a PVC transmission line from the wells to the system's treatment and storage facilities.

C. Works proposed to apply water to beneficial use.

None proposed. Will use existing rural and municipal systems.

Estimated Total Cost \$ 117,655.00

Attachments: Attach Form 2A if diversion from a well or dugout, or if storage of water, is proposed. Attach map. (see instructions concerning preparation.)

WATER RIGHT APPLICATION APPROVAL

The Water Management Board hereby approves Water Right Application No. 1846-2

East Gregory Co. Rural Water Assn. Box 217 Fairfax
South Dakota (Applicant) (Post Office Address)
(State) With the following qualifications.

The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner, under this Permit shall control his withdrawals so that there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

Date of first receipt of application June 2, 1983
Date of return to applicant for correction, amendments or changes required June 3, 1983
Date of receipt of corrected application June 7, 1983
Approved October 5, 1983, Recorded in Book — Page —

WATER RIGHT PERMIT NO. 1846-2

The Water Management Board hereby grants and issues this Water Right Permit No. 1846-2 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as qualified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is June 2, 1983
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before January 5, 1986
3. The whole of said work is to be completed on or before October 5, 1988
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is October 5, 1992
5. The water appropriated shall be used for the purpose of Rural water system

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed .18 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and ~~if for irrigation purposes said appropriation must be limited to not more than 2 acre feet per acre per year and be limited to not more than one seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied~~

for irrigation on or before October 5, 1992; said water to be used during the following described annual period: January 1 thru December 31

Witness my hand this 24TH day of October, 1983

Instruction to Newspaper - Publish first publication of the following Notice on or before **August 25, 1983** with 2nd publication 1 week later. The applicant is responsible for payment.

NOTICE OF HEARING on Application No. 1846-2 to Appropriate Water
and/or to Amend Water Permit or Water Rights No. _____

Notice is hereby given that East Gregory County Rural Water Association, Inc.
POB 217, Fairfax, _____, South Dakota has made an application for a permit

to appropriate 0.18 cubic feet per second from groundwater (Three proposed 80' deep wells), the points of diversion to be located in the NE $\frac{1}{4}$ of Section 12, Twp. 95N, Range 69W. Said water to be used for the purpose of providing water supplies for a rural water system.

Pursuant to SDCL 46-2A-2 the Chief Engineer of the Water Rights Division recommends approval of Application No. 1846-2 because 1) unappropriated water is available, 2) will be no unlawful impairment of existing rights, 3) is beneficial use of water and 4) is in the public interest.

This application will be considered by the Water Management Board at Civil Defense Room, Basement, State Capitol, Pierre, South Dakota, October 5, 1983 at 10:00 am.

The recommendation of the Chief Engineer is not final or binding upon the Board and the Board is authorized to make a determination on this application after it reaches a conclusion based upon facts presented at the public hearing. Any interested person who may be affected by a Board decision and who intends to participate in the hearing before the Board and present evidence or cross-examine witnesses according to SDCL 1-26, must file a written petition with BOTH the Applicant and the Chief Engineer by September 23, 1983. The petition may be informal, but it must include a statement describing the petitioners interest in the application, the reason for the petitioner's opposition to or support of the application, and the signature and mailing address of the petitioner or his legal counsel if legal counsel is obtained. The applicant need not file a petition.

This application is made pursuant to the provisions of SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17, 46-5-1 thru 46-5-16, 46-5-24, 46-5-25, 46-5-30.2, 46-5-31; 46-2A-1 thru 46-2A-10, 46-2A-12; (ground) 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14; (future use) 46-5-38 thru 46-5-40; (transfer lands) 46-5-30.4, 46-5-33 thru 46-5-35, (10,000 AFA) 46-5-20.1, 46-5-8.1; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15; (future use) 74:02:01:24 thru 74:02:01:25; (10,000 AFA) 74:02:01:15:02 thru 74:02:01:15:05.

This hearing is an adversary proceeding. The applicant or any person, after filing a petition, has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

Any person wishing a copy of the Chief Engineer's recommendation, further information on this application or to assure access to the hearing by the handicapped can contact the Water Rights Division, DWRN, Joe Foss Bldg, Pierre SD (605 773-3352) for assistance prior to the hearing date. The time of the hearing will be automatically extended for at least twenty days upon written request of the applicant or any person who has filed a petition to oppose or support the application. The request for extension must be filed with the Chief Engineer by September 23, 1983.

REPORT ON APPLICATION NO. 1846-2
EAST GREGORY RURAL WATER ASSOCIATION
August 16, 1983

East Gregory Rural Water Association has made application for three wells 80 feet deep for 0.18 cubic feet per second of water in the NE $\frac{1}{4}$ Section 12, T95N, R69W. The water is to be used for rural water system use.

The application proposes to withdraw water from a formation which consists of fine to coarse sand. The aquifer is under both water table and artesian conditions. An estimate of total recoverable water in the aquifer has not been made because the boundaries of the aquifer have not been delineated.

Two studies conducted by the South Dakota Geological Survey (1973, 1975)¹ show that the formation varies in saturated thickness from 17 to 42 feet. A total of 91 test holes were drilled for these studies in an area from Herrick to Bonesteel (see attached map).

The aquifer in the location of the proposed wells is monitored by two observation wells GY-78D and GY-78C. These wells indicate that the gradient of the water-table is from SW to NE with natural discharge of the system through springs locally known as Houston Springs. Hydrographs (attached) show that GY-78D is at a all time high water level with a maximum fluctuation of 3 feet. GY-78C is down 1.7 feet from when first drilled and has recovered 1.9 feet from the low in 1982. The recovery on GY-78C is less than GY-78D. This can be reflecting drawdown by water users in close proximity to the well.

EXISTING WATER RIGHTS (see attached map)

No.	Name	Use	Status
256-2	Town of Fairfax	Municipal	Approved
1304-2	Town of Fairfax	Municipal	Cancelled
1421-2	Donald Baldwin	Irrigation	Scheduled for cancellation
1459-2	Herman Schochenmaier	Irrigation	Scheduled for cancellation
1603-2	City of Bonesteel	Municipal	Approved
1719-2	East Gregory Rural Water	Rural Water	Approved
1846-2	East Gregory Rural Water	Rural Water	Pending

CONCLUSIONS

1. Unappropriated water is available for the application.
2. Observation wells exist to monitor the water levels in the aquifer.
3. Permits No. 1459-2 and 1421-2 should be cancelled for non-construction prior to approval of No. 1846-2.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 1846-2, East Gregory Rural Water
Assn., Inc.

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 1846-2, East Gregory Rural Water Assn., Inc., PO Box 217, Fairfax SD.

The Chief Engineer is recommending APPROVAL of Application No. 1846-2 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner, under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

The attached report is a part of this recommendation.

A handwritten signature in black ink, appearing to read "John Hatch". The signature is fluid and cursive, with the first and last names clearly distinguishable.

Box 217
Fairfax, South Dakota 57335

Dear Sir:

Enclosed herewith is your Water Permit No. 1846-2 as approved by the Water Management Board authorizing you to construct your water diversion system and the water to beneficial use, not exceeding the limits as specified in said Water Permit No. 1846-2.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that your Water License may be issued to you, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

JH: ms

enclosure

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period-i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

East Gregory County Rural Water Association, Inc.
%Terry Seiler
P.O. Box 217
Fairfax, SD 57335

Dear Mr. Seiler:

Enclosed are Water Permit and Water License No. 2435-3. This is the final water right document completing your process of obtaining a Water Right.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 2435-2, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program
(605) 773-3352
