Permit No. 1895-2Upper Cheyenne Water District**Report Of Examination Of Works And/Or Application Of Water To Beneficial Use**

TO: Chief Engineer, Division of Water Rights, DWNR, Foss Bldg., Pierre, SD 57501

I have this day made a thorough examination of the water use system constructed by Darrell
Hunter of Box D Ardmore, S.D. 57715 holder of
 Permit No. 1895-2, bearing the priority of Dec. 22, 1908 & Sept. 8 1913 authorizing
 the diversion of 7 cu. ft. per second of the waters of dry draws
 for irrigation purposes, in Fall River County.

I have to report on the conditions of the same as follows:

- A. Works used to divert the water: Dikes in the stream channel divert the water into canals. The original diversion point for LN 509-2 is not being used for this system. The diversion ditch has been cut by a road only the last portion of the ditch and a second diversion pt. are now being used.
- B. Works used to transport water to place of use: canals transport the water from the streams to the field
- C. Works used to apply water to beneficial use: Dikes assist in spreading the water over the field. Flood irrigation

The system is in the following condition Fair

The point of diversion is located #1- S10°30'W 1292ft and #2- S08°E 2770ft
both from the NW corner of section 20, T11S, R4E

The works are capable of diverting and conveying to the place of use 7
 cu. ft. per second of water which is to be used for irrigation

Water has been put to beneficial use to the maximum extent as follows: NE²NE² - 22 acres,
SW²NE² - 17 acres, SE²NE² - 38 acres, NW²SE² - 25 acres,
NE²SE² - 40 acres, SW²SE² - 24 acres, SE²SE² - 40 acres all in

SUBJECT: Low Water Levels in Angostura Reservoir

The water level in Angostura Reservoir on March 6, 1990 was at 3171.1 feet above mean sea level (msl). This is approximately 16 feet below the full elevation of 3187.2 msl. The present estimates are that the Angostura Irrigation District will be able to deliver less than 50% of full service water to project lands during the 1990 irrigation season. We are contacting you to advise you of the actions we have taken due to the low water situation in Angostura Reservoir. Junior Water Right owners above Angostura have been ordered not to use water until Angostura fills.

Since your Water Right No. 1895-2 has a priority date that is senior to the April 11, 1941 priority for Angostura Irrigation Water Right No. 579-2, your permit is not directly affected by the Junior Priority Order. However, I am requesting that all Senior Water Right holders comply with any qualifications and limitations as stated on their water right. With the existing low runoff conditions, we expect to monitor all water rights above Angostura Reservoir.

I want to thank all Water Right Holders above Angostura for the cooperation that we have received up to this time. If you have any questions, please contact Del Brosz (605 773-3352).
